## Piles

To prove to you that Dr. Chase's Ointment is a cure for hemorrhoids and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. See testimonials in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. One box, at all dealers or EDMANSON, BATES & CO., Toronto.

## Dr. Chase's Ointment

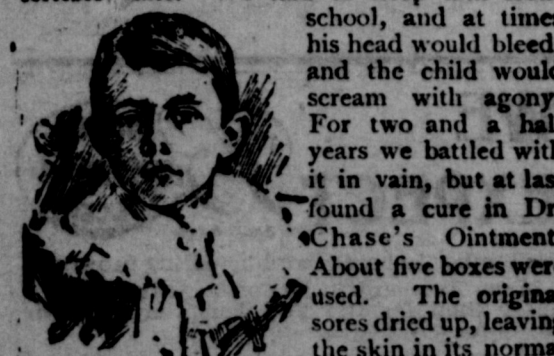

Number 194, 195, and 196, Strand, London, occupied by the Daily Graphic, and owned by the proprietors of the Graphic, were sold by auction the other day for £63,000. This works out at about fifteen guineas per foot.

The death has taken place at Richmond Glebe, county Tyrone, at the age of 101 years, of Mrs. Harrel, mother of Sir David Harrel, K.C.B.

## This Boy's Head a Mass of Sores

For Three Years a great sufferer from Eczema—Would scream with agony.

Mr. JAMES SCOTT, 136 Wright Avenue, Toronto, states:—"My boy Tom, aged ten, was for nearly three years afflicted with a bad form of eczema of the scalp, which was very unsightly, and resisted all kinds of remedies and Dr. Chase's Ointment. His head was in a terrible state. We had to keep him from school, and at times his head would bleed, and the child would scream with agony. For two and a half years we battled with it in vain, but at last found a cure in Dr. Chase's Ointment. About five boxes were used. The original sores dried up, leaving the skin in its normal condition. To say it is a pleasure to testify to the wonderful merits of Dr. Chase's Ointment, is putting it very mildly."

Dr. Chase's Ointment is a positive cure for eczema, salt rheum, scald head and chafing. So cents a box at all dealers, or EDMANSON, BATES & CO., Toronto.

## Remarkable Sootoh Cave.

Visitors to Edinburgh can see a unique object of interest not usually included amongst the "hills" of the city and its neighborhood. Situated about two miles from the city, and at the northern end of the village of Gilmerton, is a remarkable cave, the chisel marks on the walls of which show it to have been the result of human labor.

Entering upon the public road by a narrow stairway the visitor finds himself in a large, lofty cavern, openings in which lead to other chambers, which in turn communicate with one another. This curious underground residence is cut out of the solid rock, as are also the tables and benches with which the apartments are provided. In the rounding of the pillars and in the arching of the roof great skill has been displayed, and one finds almost incredible the statement that the entire structure represents the work of one individual.

George Paterson, a blacksmith, who lived in the latter part of the 17th century, was, so to speak, the architect and builder of this curious residence. There was a forge adjoining where the smith prosecuted his calling. It is recorded that Paterson was, on one occasion, severely censured by the Liberton Session for entertaining large numbers of people from Edinburgh and elsewhere, who came to visit his cave on the Sabbath Day. Following a noteworthy example, he shifted the blame on to his wife, pleading that she received the visitors while he attended the kirk.

## A VICTIM OF DROPSY

Cured after Doctors Pronounced His Case Hopeless.

Limbs Swollen Until He Had Become a Bloated Helpless Mass—Dr. Williams' Pink Pills Wrought the Cure.

In the little village of Rodney, not far from the mining town of Springhill, N. S., lives Mr. Jas. Stevens, a quiet, middle aged man, who though living an unobtrusive life, has lately been much talked of as having been the subject of a cure pronounced by all familiar with the circumstances as scarcely less than miraculous. The disease, which some two years ago prostrated Mr. Stevens, came upon him gradually. There was an increasing feeling of general lassitude; the kidneys did not rightly perform their function, and then the body began to bloat. This feeling continued extending to the extremities, until Mr. Stevens became a helpless, bloated mass of flesh. A finger pressed upon the bloated flesh would leave a mark all day. The urinary weakness became painful and distressing, the passages becoming very frequent. Doctors diagnosed the trouble as dropsy, but as their remedies failed to effect a cure, they pronounced the trouble incurable. At this stage the case of a neighbor who had been cured after a long and painful illness through the use of Dr. Williams' Pink Pills was recalled, and it was decided to give the pills a trial. By the time the second box was used, the swelling began to decrease, the passage of the urine was less frequent and the patient was inspired with fresh hope. The use of the pills for some time longer set Mr. Stevens upon his feet again a cured man. The limbs were restored to a healthy condition, his weight became normal, the kidneys resumed their functions healthfully, and to-day Mr. Stevens goes about his daily work a good specimen of hardy, healthy Canadian manhood. His restoration is entirely due to Dr. Williams' Pink Pills, and he does not hesitate to strongly recommend them to other sufferers.

To the casual reader cases like this may seem remarkable, but Dr. Williams' Pink Pills have in reality cured thousands of cases pronounced by doctors to be incurable. These pills make new, rich blood with every dose, and in this way tone and strengthen every organ in the body, driving out disease and restoring the patient to health after all other means have failed. Those who are weak and ailing, or who suffer from chronic diseases, should not waste money and valuable time experimenting with other medicines, but should take Dr. Williams' Pink Pills at once, if they wish to be restored to full health. Sold by all medicine dealers or sent postpaid at 50 cents a box or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

When you want Job Printing of any kind, call at the SENTINEL office.

## Itching Skin

Distress by day and night—That's the complaint of those who are so unfortunate as to be afflicted with Eczema or Salt Rheum—and outward applications do not cure. They can't.

The source of the trouble is in the blood—make that pure and this scaling, burning, itching skin disease will disappear.

"I was taken with an itching on my arms which proved very disagreeable. I concluded it was salt rheum and bought a bottle of Hood's Sarsaparilla. In two days after I began taking it I felt better and it was not long before I was cured. Have never had any skin disease since." Mrs. Ida E. Ward, Cove Point, Md.

**Hood's Sarsaparilla** rids the blood of all impurities and cures all eruptions.

LIPTON'S "HOUSE" FLAG.

## WASHINGTON LETTER.

Officials of the War Department are enjoying a good laugh at the expense of Senator Platt of New York this week.

The bureau of Insular Affairs has 5,000,000 pesos to ship to Manila, via San Francisco, and bids for carrying this sum were asked from the express companies. Of course Senator Platt was quite certain that his company would secure the contract and it put in its bid at several thousand dollars. This sum seemed exorbitant to Acting Chief Pepperman and he then consulted the Postmaster General with the result that an arrangement was effected whereby the pesos will be shipped as registered mail, at the ounce rate, plus the 8 cent registry fee for each four pounds. By this means, a material saving will be made to the Philippine government, and moreover all that is paid out for transportation will come back to the government of the United States as postal revenue. What Mr. Platt said when he learned of this scheme will not bear repetition, and the Senator from New York declares he will have the registry law repealed.

Further news from Bogota is being anxiously awaited, as the last received was to the effect that the Panama canal treaty had been rejected by the Senate. At first it was assumed that this meant the final defeat of the treaty, but on reflection it was recalled that the House and Senate have, in Colombia, co-ordinate powers when it comes to accepting or rejecting a treaty and it is therefore, regarded as possible that the Senate may eventually reconsider its vote. If treaty comes back materially amended or if it becomes necessary to take the Nicaraguan route, it is believed, the entire canal project will be set back several years.

An interesting situation has developed in the Postoffice Department as a result of the current investigation. It is learned that Postmaster General Payne is determined to get rid of First Assistant Postmaster General Wynne whom Mr. Payne charges with having given information to the newspapers which greatly enlarged the scope of the investigation and which reflected on Payne and his original methods of conducting the investigations. This charge is very largely a foment of an imagination made unduly sensitive because of public criticism, due entirely to Payne's own errors. Had it not been for Wynne there would never have been more than a perfunctory investigation, it is true. It was Wynne who impressed upon the President the necessity of a sweeping investigation. Nevertheless, Wynne has always been loyal to his chief and only Payne's lack of discernment and his persistence in giving credence to Machen, Beavers, Rand and that ilk, against Wynne's advice, resulted in his severe criticism by the public press. Under the circumstances it is not believed likely that President Roosevelt will pay much attention to his Postmaster General's petitions for Wynne's removal.

Early steel pens were so costly that makers advertised they would make such repairs as were necessary for a stated time, generally six months. When a man damaged his pen he carried it back to the factory and had it mended by an experienced mechanic.

At a wedding celebrated at Brandon, county Cork, the bride's father and brother were the officiating clergymen, while the bridegroom was also a clergyman.

THE RELIANCE.

The friends that wealth makes are as the quicksands, but the friends of poverty are like the fixed stars in heaven.

A large flour mill belonging to Price & Sons, Sheffield, was gutted by fire on the 12th ult. Much valuable machinery was damaged and the loss is estimated at upwards of \$25,000.

Miss Alice Bailey, of Atlanta, Ga., tells how she was permanently cured of inflammation of the ovaries, escaped surgeon's knife, by taking Lydia E. Pinkham's Vegetable Compound.

"I had suffered for three years with terrible pains at the time of menstruation, and did not know what the trouble was until the doctor pronounced it inflammation of the ovaries, and proposed an operation."

"I felt so weak and sick that I felt sure that I could not survive the ordeal. The following week I read an advertisement in the paper of Lydia E. Pinkham's Vegetable Compound in such an emergency, and so I decided to try it. Great was my joy to find that I actually improved after taking two bottles, and in the end I was cured by it. I had gained eighteen pounds and was in excellent health."

—Miss ALICE BAILEY, 50 North Boulevard, Atlanta, Ga.—\$5000 forfeit if original of above letter proving genuineness cannot be produced.

The symptoms of inflammation and disease of the ovaries are a dull throbbing pain, accompanied by a sense of tenderness and heat low down in the side, with occasional shooting pains. The region of pain sometimes shows some swelling.

**Wood's Phospholine,** The Great English Remedy, is an old, well established preparation. Has been prescribed and used over 60 years. All druggists in the Dominion of Canada sell, and recommend as being the only medicine of its kind that cures and gives universal satisfaction.
