Ohio collects over \$4,000,000 in license from 10,739 saloons.

Minard's Liniment Cures Distemper.

It is estimated that there are 182,000,000 tons of anthracite coal waiting to be worked in Ireland.

Humors of all kinds are prolific of worse troubles. They may be entirely expelled by a thorough course of Hood's Sarsaparilla.

It is stated that the annual cost of British troops in South Africa is £4,500,000, as against £300,000 ten years ago.

Minard's Liniment cures Garget in Cows.

One bet of \$15,000 to \$1,000 has been made in New York that the Reliance will defeat Shamrock III. In one, two, three style.

Strength and vigor come of good food, duly digested. "Force," a ready-to-serve wheat and barley food, adds no burden, but sustains, nourishes, invigorates.

The total receipts of the Halifax School for the Blind trip through the maritime provinces amounted to \$2,074.72.

WANTED - FAITHFUL PERSONS TO TRAVEL for well established house in a few counties, calling on retail merchants and agents. Local territory. Salary \$100 a year and expenses, payable \$18.70 a week in cash and expenses advanced. Position permanent. Business successful and rushing. Enclose self-addressed envelope. Standard House, 315 Casson Bldg., Chicago—10-11.

A feature of the World's Fair will be a pottery in operation. Workmen of the highest skill will manufacture art pottery so that visitors may note all the processes involved. A firing furnace will stand in the centre of a special building and the potters with their wheels will be ranged around the interior so that visitors may make a clear inspection of the work.

In Hot Countries Painkiller finds many uses. Colic, cramps, diarrhoea and all such troubles readily give way to its use. Dose, one teaspoonful in hot water. There is but one Painkiller.

The government states that if all of the animals received at the Chicago stockyards during the last year could be gathered together on the roads of the country, the horses going two abreast and the cattle, sheep and hogs following there would be a solid block of animals five feet wide and 5,000 miles long, and at the rate of three miles per hour for eight months for this procession to pass.

Warts Removed Without Pain. Putnam's Painless Wart and Corn Extractor never fails to remove Warts, Corns or Bunions, without pain, in a few hours. Give Putnam's a trial.

Mrs Kate Taylor of Monticello, N. Y., was sentenced on Monday to die in the electric chair during the week beginning July 5th, for the murder of her husband.

Comfort for the Aged.

Judging from the letters of people up in years there is no medicine which so promptly frees them of aches and pains and insures regularity of the liver, kidneys and bowels as Dr Chase's Kidney-Liver Pills. Even when all other means have failed old people can turn to this great medicine with full assurance of relief and cure.

New York city was two hundred and fifty years old last Thursday, and its citizens celebrated the event in an appropriate manner.

Nervousness and Nerve.

The more nervous a man is, the less nerve he has. That sounds paradoxical—but it isn't; for nerve is stamina.

Hood's Sarsaparilla gives nerve. It tones the whole system, perfects digestion and assimilation, and is therefore the best medicine a nervous person can take.

If you get tired easily, mentally or physically, take it—it will do you good.

A father and son named respectively Max and Karl Bradl, who were convicted of brutal murder, have been executed at Straubing, Bavaria. The son was beheaded first. The father wept when he was brought to the scaffold.

How A Sprain Does Hurt!

But it isn't the pain alone that is dreaded, just think of the loss of time and wages. Sprains without number have been cured by rubbing Polson's Nerve-line well into the pores of the skin surrounding the joint. No matter whether it is a sprained wrist, ankle, knee or back, just try Nerve-line on it, and see how quickly it will cure. There is only one liniment that can be depended upon to cure sprains, strains and swellings, and that is Polson's Nerve-line. Large bottle 25 cents.

The salary of the lord lieutenant of Ireland is £20,000 a year, and he has £1,000 for an outfit.

Nature's Remedy for Diarrhoea

and all Summer Complaints in Children and Adults.

OUR ROOT CROP SEEDS.

How and Where They are Grown, and Why They Frequently Fail to Produce Satisfactory Crops.

Dept. of Agriculture, Commissioner's Branch, Ottawa, May 28, 1903.

Every careful stockman recognizes the fact that lush pasture is the ideal feed for keeping all classes of live stock in a hearty thriving condition, but in most parts of this country it is necessary to provide large stores of succulent feed for the long winter months when pastures are not available. The various sorts of roots go a long way toward supplying a cheap and satisfactory substitute for grass, and in consequence many million bushels are grown annually. Large quantities of seed of turnips, swedes, mangels and carrots are used each year on Canadian farms, but the crops produced are frequently disappointing. As a rule our farmers have hitherto been entirely in the dark regarding the sources of supply of such seeds, and the methods of growing them. The Seed Division of the Dominion Department of agriculture has been investigating these questions, and is able to offer suggestions that cannot fail to be of value to growers of root crops. According to Chief G. H. Clark of the Seed Division, a few farmers in Canada make a specialty of growing root crop seed, but practically the whole amount of such seed offered in the trade is imported from Europe and is grown in France, Germany and England. A favorable climate and cheap labor have made these countries the seed gardens of the world. A few notes on the way in which seeds are grown there, will help to explain why farmers often fail to get roots showing good type and uniform excellence all over a field.

Turnips, swedes, mangels and carrots are all biennial plants, that is they store up nourishment in the root during the whole of the first year, and use that store of food for the production of seed during the second and final year of their life. Most of our domesticated plants have been evolved from wild types through long years of selection, cultivation and cross-fertilization. The original wild types were usually annuals, producing seed the first year, and there is a tendency among all improved plants to revert rapidly to the old unimproved types whenever they are deprived of that careful attention to selection and cultivation which has brought them up to their present high standing.

Canadian farmers have not fully recognized that the value of root crop seeds is far from depending on their vitality alone. It is even more important that they be taken from carefully grown and selected stocks. We seldom see a field of roots that are uniformly true to type and free from abnormal growth of top, large necks and ill-shaped prongy roots. This undesirable state of affairs is largely due to the sowing of seeds taken from stocks of a similar character.

The best quality of seed is produced from selected and transplanted roots. Seed of turnips and swedes is produced in quantity in this manner in the north of Scotland. The climate of Scotland, like that of Canada, is such that root crop seeds can only be successfully produced by harvesting the roots before winter and transplanting them the following spring. The bulk of the seed of these crops, which is imported for the Canadian trade, is grown in France and the south of England, where the climate is such that the roots may remain unharvested through the winter and produce seed the following year. Some of the more reliable seed growers in these countries exercise a great deal of care in the production of their stocks. They supply seeds from their own selected stocks to small farmers, who grow quantities of seed for them under contract. The best quality of seed offered in the Canadian trade is grown in this way. There is, however, evidence to show that a great deal of the seed of these crops offered in Canada, is of much inferior quality. The increased labor required to grow seed from selected and transplanted roots, raises their price above the range of American seed firms. For this the seedman is not to blame. Our farmers have demanded cheap seeds, without any guarantee as to quality, and the seedmen have simply tried to meet the demand. A great deal of the

root crop seed used in Canada is grown by small irresponsible European farmers whose chief object is to obtain a maximum yield of seed, independent of its quality. In the growing of these stocks it is a common practice to sow late in the season after an early crop has been harvested from the land. Young plants thus produced are in many cases not thinned, and do not grow to a reasonable size during the first season. From a crop of this sort a very large amount of top is produced, and a large quantity of seed obtained per acre at a minimum cost.

It would be unreasonable to expect our farmers to grow root crop seeds for the Canadian trade and compete in the matter of produce with the seeds produced by the above methods in countries where labor is so cheap, and climatic conditions so favorable. Until the consumers of these seeds learn that it pays to use only seed that is taken from selected and transplanted roots, grown in a climate similar to that where the seed is wanted for use, the quantity of home-grown stock offered in the trade will be extremely limited. It therefore appears that growers of root crops will find it to their advantage to purchase only seeds from extra selected stocks, no matter what the price may be, or, better still, grow their own seed from the best and most typical roots raised on their own farms.

IN GREAT PERIL.

SURROUNDED BY MANY HIDDEN DANGERS.

There are thousands of people who are quite unconscious of the dangers they court in allowing their health to run down. From a half-sick, half well condition, it is only a step further to some disease like Typhoid or Pneumonia.

When nerves are irritable, sleep is always disturbed, appetite is poor, and the blood is thin. In the very worst way you require a course of Ferrozone, which has restored many thousands from enfeebled, run-down health, and will make you vigorous and strong in a comparatively short time.

"The benefit derived from Ferrozone," writes Mr W. P. Grinnell, of Moncton, "is really astonishing. For two years I was never free from nervous headache and acute pains in the back and side. The regular use of Ferrozone made my health better than ever before. I am ten pounds heavier, and feel stronger and better in every way, as the result of Ferrozone."

Mrs M. W. Schneider, of Portland, writes: "Eight months ago I was so ill with stomach trouble that I never could get to bed again. Everything I ate fermented and caused dyspeptic pains. My head ached so I thought it would split. I found Ferrozone a treasure. Eight boxes made me as healthy as any woman could wish to be."

Ferrozone is a specific for all diseases of the nerves, stomach, kidneys, liver, bladder, and positively cures rheumatism, sick headache, and tired, nervous feeling. Price, 50 cents per box, or six boxes for \$2.50, at all druggists, or from the Ferrozone Company, Kingston, Ont.

FERROZONE ASSURES HEALTH.

THRUMS.

Silence is deep as Eternity, speech is shallow as Time.— Carlyle.

Behaviour is a mirror in which everyone displays his own image.— Goethe.

The character that needs law to mend it is hardly worth tinkering.— Douglas Jerrold.

We are not meant to be good in this world, but try to be and fail, and keep on trying.— R. L. Stevenson.

The men called great who have risen to distinction are not always men of brains; they are men of aptitude.— Meredith.

He is happy whose circumstances suit his temper; but he is more excellent who can suit his temper to any circumstances.— Hume.

True, there is no religion in fear; religion is love, and love casts out fear; but until a man has love, it is as well he should have fear.— George MacDonald.

Why He Celebrated.

One of the professors at Cornell University was born in Canada. He has, however, been for a long time a resident of the United States, and his children were born there. The New York Times relates an amusing anecdote, which the professor himself is fond of telling.

One Fourth of July the professor's eldest son had exploded, early in the afternoon, all the firecrackers that he had provided for the day. The youngster and his little friends wanted more, so the boy found his father, and asked for some money with which to buy a new stock of fireworks.

"I will give you the money, my son, if you can tell me what it is that you are celebrating with all these fireworks," replied the father.

"I can do that easy enough," said the boy. "This is the anniversary of the day we licked you fellows."

The greatest pumping plant in the world is one which draws 3,000,000 gallons of water a day 385 miles to the gold fields at Bulla Bulla, Australia.

Should be Dead Anyway.

The case of the Mississippi negro who came to life after being legally hanged and pronounced dead is surpassed by that just reported of a negro who was hanged by a mob, had 17 bullets shot into him, and was left for dead, but who came back to life as the authorities were preparing the body for burial next day. This sounds like a pretty large story, but not much more so than the other, and both are reported as matters of fact. The first mentioned negro is now enjoying his freedom, there being a question whether the law to which he is dead can touch him again; but as law did not figure in the second case, the revived victim has been sentenced to 10 years in prison.

CAN'T AFFORD IT.

You Can't Work Right If You Have Dyspepsia—Hamilton Lady Proves that Dodd's Dyspepsia Tablets will Cure It.

Aside from its discomforts you can't afford to have Dyspepsia. You can't work right unless you feel right, and you can't feel right if you have Dyspepsia.

With that dreary despondent feeling that every Dyspeptic knows work loses all its pleasure. You long for the dinner bell, because it makes the end of the morning, but you dread the dinner bell because it means more eating and consequently more suffering.

But there is a way of escape. Dodd's Dyspepsia Tablets are the way. Thousands who have tried will tell you that. Juliana Sandburg, of 221 John street, North Hamilton, tells you. Hear what she says: "For over six years I was troubled with Dyspepsia and Headaches. Nothing I ate would agree with me. I tried several medicines, but I could get nothing to help me till I tried Dodd's Dyspepsia Tablets."

"Almost at once they gave me relief, and before I had finished one box, I was cured."

You can't find a Dyspeptic who has used Dodd's Dyspepsia Tablets.

Curious Cossack Customs.

Many queer customs and usages are prevalent among the Cossacks of the Don. No man changes his clothing on a Monday. If he did it is believed that he would suffer from a severe skin disease. On Thursday no fat or flesh must be picked or corned. If anyone neglected this the meat would be full of worms in a fortnight. Wool is not spun on a holiday, else the cattle will sicken and die. A hen is always given an uneven number of eggs to hatch, never an even number. Bones left from a dinner at a funeral are thrown into the river, else the dead will appear to the living in fearful shape. And at the same meal no one dare cut bread—it must always be broken.

M. Santos Dumont has made an ascension in Paris in a small navigable balloon, steering it easily in all directions.

Hotels.

RIVERSIDE HOUSE.

THIS House situated at the foot of Regent Street, is now open to the public. The proprietor, Colin Campbell, who ran so successfully for thirteen years the Newburg Junction Eating House, also for two years the McAdam Junction House and six years the Havelock Junction Restaurant, is so well and favorably known to the travelling public that further recommendation is not necessary. He guarantees to maintain that reputation in his new quarters. The Riverside House will be found as good as a DOLLAR A DAY HOUSE as can be found in the Province. No charge for conveying baggage to and from the House to the Station. Open for transient or permanent boarders. COLIN CAMPBELL. Woodstock, April 17, 1901—16.
