

ASTHMA

Of all diseases that afflict humanity, none is so distressing and trying as Asthma.

If you are a discouraged Asthmatic and have tried many remedies without result, let us send you a generous free sample of Himmrod's Asthma Cure and prove to you the wonderful efficacy of this remedy. Used as an inhalant, it instantly relieves the oppressive sense of impending suffocation, enabling the patient to breathe freely at once and by a soothing medication of the bronchial passages, quickly lessens the severity and frequency of attacks until a cure is obtained. Asthmatics are generally dyspeptic and should avoid internal remedies liable to impair the digestion. For over a quarter of a century Himmrod's Cure has been prescribed by eminent physicians throughout the world. It is a remedy in which you can place entire confidence. If your case is a chronic one, or only a few months standing, send for a free sample at once and try it. It will not disappoint you.

HIMMROD'S CURE
14-16 VECY ST., NEW YORK.
Four druggists may not carry Himmrod's Asthma Cure in stock. A courteous letter will get it for you if you ask him and will get you a free sample at once and try it. A fair warning, insist on having Himmrod's.

'Mamma,' said little Elsie as she looked up from her book of Bible stories, 'I don't believe Solomon was as rich as people think.'
'Why not, dear?' asked her mother.
'Because,' replied the small investigator, 'this book says "he slept with his fathers," and if he was so awfully rich I guess he would have had a bed of his own.'

He—It is true, Miss Gerlie, that there are just two things a woman will jump at—a conclusion and a mouse.

She—No, there is a third, Mr. Philip.
After thinking the matter over a few moments he tremblingly made her an offer, but she didn't jump at it. He was not the right man.

An American tourist who called on Robert Burns' widow, Jean Armour, a few years after his death had the audacity to ask her, 'Can you show me any relics of the poet?'

'Sir,' answered the old lady, with majestic dignity, 'I am the only relic of Robert Burns!'

Baddeck, June 11, 1897.
C. C. RICHARDS & CO.
Dear Sirs,—MINARD'S LINIMENT is my remedy for NEURALGIA. It relieves at once.
A. S. McDONALD.

What did they put on the deceased's tombstone?

The phrase, "Peace be to his ashes."

Asks! Don't you think they could have chosen a less suggestive phrase of the next world?

Never Say Die.
You may be weak, miserable, nervous, sleepless, your digestion may be poor, and you despair. Never say die, until you have used Ferrozone, the most wonderful blood maker, nerve strengthener and brain invigorator. It tones up the whole system. You can eat anything and digest it if you use Ferrozone. You sleep well. You make blood quickly, strength increases daily, in a short time you're well. Try Ferrozone, which you can obtain at all drug stores.

I think gossip is never entirely useless.
You really think so?
Yes; it can always be used to satisfy other people's curiosity.

Startling Revelations.
It frequently happens that people suffer for years from kidney derangements without knowing the cause of their backaches, aching limbs and other bodily sufferings, suddenly the truth is revealed to them that they are the victims of serious kidney disease and in imminent danger. There is no medicine which gives such prompt and lasting relief for every form of kidney disease as Dr. Chase's Kidney-Liver Pills. They are positively effective even in the most chronic cases.

She—I'm right because I'm right.
He—How do you know?
She—I'm right because I'm right. I don't need to know.

Use Lever's Dry Soap (a powder) to wash woollens and flannels,—you'll like it.

Monument Man—What shall I put on yours husband's tombstone, madam?
Distracted Widow—Oh, say that he was my husband and that he is happy now.

Minard's Liniment Cures Garget in Cows.

'It strikes me that Brimken deserves a great credit.'
'He never impressed me as a brainy man.'
'That's just the point. When a man with so little brains as Brimken has managed to be so prosperous, I can't help feeling that he must possess some great and mysterious superiority.'

Skin was on Fire with Eczema

For twelve years a dreadful sufferer, but now entirely cured by Dr. Chase's Ointment.

Eczema's itch is torture, the skin seems on fire with the burning, stinging humor; at times it becomes almost unbearable, and in desperation you could tear the skin to pieces. You dare not exercise for fear of aggravating the itching, neither can you sleep, for no sooner does the body become warm than the trouble begins, and instead of refreshing sleep, it is scratch, scratch, scratch all night long.

Mr. ALEX. McDONALD, postmaster, Broad Cove Marsh, N.S., writes:—'For twelve years I was a great sufferer from eczema on the inside of the leg. There was a raw patch of flesh about three inches square, and the itching was something fearful. Dr. Chase's Ointment completely cured me, took away the itching and healed up the sore. I have no hesitation in recommending it as a wonderful cure for itching skin disease.'

Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmondson, Bates and Co., Toronto. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

When Your Joints Are Stiff

and muscles sore from cold or rheumatism, when you slip and sprain a joint, strain your side or bruise yourself, Perry Davis' Painkiller will take out the soreness and fix you right in a jiffy. Always have it with you, and use it freely. USE

Painkiller

A friend of mine to-day, said Mr. Kidder, was talking of coming here to board.

I hope, remarked Mrs. Starvem, you were pleased to recommend our table and—

Sure! I told him it was just the thing for him. He's a pugilist and wants to increase his reach.

Just a Cold in the Head.

But if followed by another cold, or some extra exposure, is liable to result in Nasal Catarrh. Unless a radical cure is obtained, the Throat, Bronchial tubes and finally the lungs become affected. Nothing cures colds so quickly and pleasantly as Catarrhazone. The Inspector of Mines for Nova Scotia, Mr. Neville says, "Catarrhazone is the best remedy I have ever used. It cured me of Catarrh of the Head and Throat, and I am pleased to recommend such a satisfactory remedy." Catarrhazone is a safeguard against Colds, Coughs and Catarrh. It can be used while at work, in the church, theatre or street cars. Simply inhale Catarrhazone and it cures. Price \$1. Small size, 25 cents. Druggists or Polson & Co., Kingston, Ont.

My wife and I agree perfectly about some things, remarked Mr. Meekton with a gentle smile.

Indeed?
Yes; when anything goes wrong I take it for granted that it is my fault, and Henrietta always thinks so too.

The Hot Weather Test.

Makes people better acquainted with their resources of strength and endurance. Many find that they are not so well off as they thought and that they are easily enervated and depressed by the heat.

What they need is the tonic effect of Hood's Sarsaparilla which strengthens the blood, promotes refreshing sleep, overcomes that tired feeling, creates appetite.

How did you come out with your law suit?

I won it.

Get damages?
Sure. I got almost enough to pay my lawyer.

THE MASTER MECHANIC'S PURE TARTAR SOAP heals and softens the skin, while promptly cleansing it of grease, oil, rust, etc. Invaluable for mechanics, farmers, sportsmen. Free sample on receipt of 2c for postage. Albert Toilet Soap Co., Mrs. Montreal.

Sunday School Teacher—Harry, can you tell me why the lions didn't eat Daniel?

Harry—I guess it was 'cause they didn't know how good he was.

WANTED—FAITHFUL PERSONS TO TRAVEL for well established house in a few counties, calling on and securing orders. Local territory. Salary \$1024 a year and expenses, payable \$1070 a week in cash and expenses advanced. Position permanent. Business successful and rushing. Enclose self-addressed envelope. Standard House, 315 Carlton Bldg., Chicago.—161-16

Mrs. Casey—Shure, an' when we moved it tuk 'twee fure waggons.

Mrs. Clancy—Huh! It tuk 'twee depty sheriffs to move us.

Minard's Liniment Cures Distemper.

'Has he a strict regard for the truth?'

'I think so. He seldom uses it.'

'Why is it you can't get away from the foot of your class, Johnny?'

'Because,' explained Johnny, 'by the time the teacher gets down to me I've forgotten my lesson.'

Teacher—Elmer, can you tell me what the largest diamond in the world is called?

Elmer—Yes, ma'am. The ace.

The Miserly Traveler—Be careful with that trunk, you vagabond! I wouldn't have it fall for 10 shillings.

The Porter—I doubt not, but a shilling in time might save nine.

De Ranter—Ah, I saw you in one of the boxes last night. How did you like my assumption of Hamlet?

Criticus—Let me congratulate you, old man. It was the greatest piece of assumption I ever saw.

Here is one candid author who tells the truth to his journal:

'I generally take a run every day, but not for exercise. The butcher and the baker are either on my doorstep or ten yards behind me. That's why I run.'

'The days are getting longer,' she remarked finally, tiring of the long silence.

'Yes,' replied her bashful escort, suddenly inspired. 'I noticed that the week you were out of town.'

She—I heard you were hurt in a football game recently.

He—Oh, not on any account. I was only two days in the hospital.

TO PREVENT TAINTED MILK.

The patrons of a cheese factory have a direct financial interest in supplying only good pure milk, free from taints or bad flavors. Thousands of dollars are lost to the country annually because patrons send to the factories tainted milk, which, if used at all, not only precludes the manufacture of first class cheese, but diminishes the quantity of cheese per 100 pounds of milk. Some of the chief causes of tainted or gassy milk have been enumerated by the Dairy Division of the Dominion Department of Agriculture, in order that patrons may be induced to guard against them. In many cases the source of trouble may be found in—

The Undesirable Germs that get into Milk During and After Milking.—These germs are always associated with filth in some form or other. Careful investigations show that a very large proportion of the cases of taints or bad flavors in milk and its products are caused by the germs which are always present in the droppings of animals. Such germs are to be found in large numbers wherever such droppings are deposited. The mud of stagnant ponds, where cattle are allowed to drink, and the surfaces of barn yards or milking yards are always swarming with them. For this reason the udders and flanks of cows should always be brushed before milking to remove the dried mud, particles of manure, hairs, etc., which might otherwise fall into the milk pail. Straining the milk, while it is necessary to remove the visible dirt, does not get rid of these foul germs, which are the actual cause of the tainted, gassy milk. Improperly cleaned milk pails, strainers and milk cans are constant sources of contamination.

The whey tank is a common source of infection at those factories where the whey is returned to the patrons in the milk cans. This practice is detrimental to successful cheese making, but when it cannot be arranged to have the whey disposed of in some other way, the tanks should be kept thoroughly clean in order to lessen the danger of contamination. They should be emptied at least once a week.

Absorption of Odors.—It is a well known fact that milk will absorb some odors to which it is exposed. Warm milk will absorb odors quite as freely as that which has been cooled; hence the necessity for removing it from the stable or milking yard as soon as possible after it is drawn.

An Impure Water Supply.—An abundant supply of pure water for the cows is one of the essentials for the production of good milk. When cows are compelled to drink the water of swamps, muddy ponds, or sluggish streams and ditches in which there is decaying animal matter, including their own droppings, there is a constant menace to their health, and unless the cows are in good health they cannot give first class milk. Moreover, the mud, often full of foul germs, which collects on the legs, flanks and udders of the cows, and falls into the milk at the time of milking, is a direct source of infection which is often overlooked.

Improper Feeding.—There is in Canada an abundance of good, wholesome food available for cattle feeding purposes. The natural pastures are, on the whole, excellent, and it is only in limited districts or at certain seasons of the year that trouble is experienced with weed flavors. Among the cultivated foods, turnips and rape are two prominent exceptions to the rule of suitability which applies in general to Canadian fodder crops. While they are undoubtedly valuable in a ration for growing or dry cattle, if turnips and rape are fed, even in limited quantities, to milking cows, there is a likelihood of imparting to the milk a taint which cannot be eliminated by any process known to the cheese-maker's art. Some first class foods when fed alone, and to excess, will cause indigestion and thus indirectly affect the milk. One example of this kind is found in green clover.

In conclusion it may be said that when cows have free access to salt at all times they will give more milk which will have a better flavor and keep sweet longer than when they do not get any at all, or receive it only at intervals.

The law of Tennessee requiring separate compartments for negroes and whites in street cars has been declared unconstitutional by the Supreme Court of that State. The court declared the act invalid, illogical, unjust, and unconstitutional. It is explained that there "was strong opposition to the bill in Memphis, not because of any dislike for the principle involved, but because it was certain to work hardship on the travelling public, particularly as the bill called for a division of the cars, and not for separate ones for blacks and whites."

NOTES AND COMMENTS.

The holding of an automobile race in Ireland looks like a diabolical scheme to reduce the Nationalist vote.

Men and brothers, this will be a pretty bustling country for the next few years. Canadians need not go abroad for opportunities.

Sir Charles Tupper characterizes the preference extended to British manufacturers in 1897 as "rather rash." He should remember the maxim, "Never venture, never win."

With two consecutive blockades in grain shipments from the west, it would be well to consider the chances of successfully moving the still larger crop now in prospect.

Russia will return the Kishineff petition, forwarded by the United States, with thanks, with the information that she needs no hints as to how to run an autocratic empire.

The Manitoba Legislature has been dissolved and a general election will be held on July 20. This is a remarkable proceeding, with an uninvestigated charge hanging over the ministry.

In the midst of its other troubles, Mr. Morgan's combined fleets of Atlantic steamers are threatened with hostilities by the Cunard Company, which stayed out of the amalgamation.

Mr. Fielding shares with Sir Wilfrid Laurier that exquisite urbanity which is indispensable to a successful Parliamentary leader. The other evening, while leading the House of Commons, he paid Mr. Barker, of Hamilton, a well merited compliment on the amount of attention he gives to private bills.

The judiciary of Canada could learn a great deal from that Kentucky judge who resented the criticism of a newspaper. He called on the editor, thrashed him, and told him if ever he put his name in the paper again he would shoot him. He also threatened the typesetter who put the matter in type, and that discreet person, knowing how handy the judge was with his weapons, immediately left for parts unknown. Kentucky is not the most backward of the States, either.

THE TORTURING BACKACHE OF KIDNEY DISEASE.

Causes Untold Misery and Drives the Poor Sufferer to Distraction—No Case that Can't be Cured by Ferrozone.

The duties of the kidneys are among the most important that devolve upon any organ of the human body. If for any reason they get out of order, it results in the system becoming poisoned by unhealthy matter that is bound to cause serious illness. This explains the large number of deaths from neglected kidney trouble.

It is quite possible that you may have faulty kidneys, and not be aware of the fact. Among the most common symptoms are pain in the back and sides, morning headache, nervousness, sediment in the urine, specks before the eyes, dizziness and sour stomach. If you have any of these, hasten at once to take the surest of kidney and liver cures, Ferrozone. It is guaranteed to bring prompt relief and banish every pain and ache.

Thousands are kept in perfect health and free from kidney complaints by Ferrozone. Among those who speak in the most laudatory terms of the merit of Ferrozone is Mr. Charles F. Olive, of the Gazette, St. John, N. B.: "For several years I have had kidney trouble," says Mr. Olive, "until quite recently I suffered torture. A few months ago my condition assumed a very serious form. I consulted several city doctors, used a well-known pill, but without the slightest benefit. I suffered from an intense pain in the groin, and the increasing seriousness of my trouble prompted me to try Ferrozone. It gave me quick relief and half-a-dozen boxes cured. Ferrozone I can recommend as a specific for disordered kidneys."—Chas. F. Olive.

Ferrozone not only cures kidney complaint, but also such maladies as Rheumatism, Gout, Sciatica, Skin Eruptions, Diabetes, Laastide and Nervousness, which are caused by defective kidneys. It neutralizes and destroys all poisons in the system, cleanses the blood, and invigorates the enfeebled energies. It is mild, gentle and certain. Costs 50c per box, or six for \$2.50. At druggists everywhere.

Tom—Did she ask you if she were the only girl you ever loved?
Jack—No. She took it for granted.

The Boer contingent that was imported to fight the Mad Mullah is proceeding to the coast en route to South Africa. The experiment of using the late opponent of the British did not prove much of a success. The Boers are not equal to native troops in the style of fighting in vogue in Somaliland.
