

Not Only Relief; A Cure.

ASTHMA

Many discouraged Asthmatics who long for a cure or even relief lack faith to try, believing a cure impossible. **HIMROD'S ASTHMA CURE** is truly a grand remedy and possesses a virtue unknown to other remedies that not only instantly relieves but cures.

The late Sir Dr. Morrell McKenzie, England's foremost physician, used HIMROD'S ASTHMA CURE constantly in his private practice. If you are discouraged send for a generous free sample. It will not disappoint you.

HIMROD'S ASTHMA CURE is a standard remedy prescribed by many eminent physicians and sold throughout the world for over a quarter of a century. A truly remarkable testimonial in itself.

A young lawyer was engaged in a case not long ago, when a witness was put in the box to testify to the reputation of the place in question. This witness, a stable-driver, in answer to the query as to the reputation of the place, replied, 'A poor shop.'

The lawyer inquired, 'You say it has the reputation of being a poor shop?'
'Yes, sir.'
'Whom did you hear say that it was a poor shop?'
The witness did not recollect anyone he had heard say so.
'What?' said the lawyer; 'you have sworn this place has the reputation of being a poor shop, and yet you cannot tell of anyone you have ever heard say so?'
The witness was staggered for a moment at the words of the lawyer. The lawyer was feeling triumphant when the witness gathered himself together and quietly remarked, addressing the lawyer:
'Well, you have the reputation of being a poor lawyer, but I have never heard anyone say so.'

A sergeant was drilling a number of raw militiamen at camp, but his efforts seemed to meet with small success. Finally, their attempt to dress up in a straight line so exasperated him that he addressed them in the following strain: 'Canna ye stan' up in a straight line, ye eediot? Yir a' out an' in like a battered concertina. Come out here an' look at yirsels, every bloomin' wan o' ye.'

'Pa, will you give me a pair of skates if I prove to you that a dog has ten tails?'
'Yes my son.'
'Well, to begin, one dog has one more tail than no dog, hasn't he?'
'Yes.'
'Well, no dog has nine tails, and if one dog has one more tail than no dog then one dog must have ten tails.'

He got the skates.

FIVE MINUTES AFTER APPLYING

Dr. Agnew's Catarrhal Powder you feel the improvement.

At once the new vitality that comes from proper breathing is felt. The cure is begun.

This is not a cheap remedy, but an inexpensive cure. Remedies are but remedies. If a CURE is what you desire, it is waiting for you.

You just drop the tube into the Powder, blow it into the nostrils, and begin to get well at ONCE.

W. ERNEST LEWIS, of West Flamboro, Quebec, states:—'I have been troubled with Catarrh for several years. It impaired the hearing of my right ear. I used Dr. Agnew's Catarrhal Powder and in a week found a marked improvement. I took three bottles and could hear as well as ever.'

Dr. Agnew's Heart Cure
Feeds the nerves and the blood. It is LIFE in medicinal form. It transforms the weak and sickly into the well and healthy. It cleanses the vital organs. It's the cure for you.

Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

A sample will be sent free upon request. Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

A Family Necessity.
Owing to artificial modern life, almost everybody suffers more or less from constipation, torpid liver and sluggish kidneys, and as Dr. Chase's Kidney-Liver Pills are the most prompt and thorough cure for this derangement, they have come to be considered a family necessity. Hosts of families would not think of being without them. One pill a dose, 25 cents a box.

Greene—Look at that woman, will you? I should think she'd freeze with that little bit of a jacket.
Wyse—My dear fellow if you were any judge of values, you'd know that the cloth that jacket's made of is the most expensive goods in the market.

Nervous and Sleepless.
There is just one cure and that is plenty of food for the blood and nerves, which is best supplied in Ferrozene, than which no blood builder, nerve tonic or strength producer is better. Ferrozene promotes healthy digestion, which results in improved nutrition. The blood grows rich and red, furnishes stability to the entire system, and the store of nerve force and energy increases daily. A rebuilding of the constitution, new spirits, health and strength, all come from the use of Ferrozene. This marvelous renovator is sold by druggists for 50c a box, or six boxes for \$2.50. ST. JOHN LETTER.

Paul Grey, the palmist, who committed suicide at Vanceboro last Saturday by cutting his throat after being arrested for robbing Victor W Dykeman of this city of \$450, had practiced his "profession" here for several weeks, drawing from his deluded victims an income of about \$500 a week. Most of his efforts were sent to the states, it is said, before his attempted flight; at any rate but little of any value was found by the lawyers among his effects at Vanceboro, which is pretty good evidence that he had made a careful disposition of his valuables. Paul Grey's rooms in Elliott's Hotel were always thronged with people anxious to take a peep into the future. He would read a young man's palm, for a dollar, and then tell him that for \$5, \$10 or \$25 he would secure him a position with large pay and little work, or a rich wife, if he thought that would be preferred, and many paid. To young girls he promised rich husbands for such a fee as he thought they could stand, and in this way he induced many of them to part with their last shilling. Paul Grey was about fifty years old, plausible in manner, well dressed, and he sported much jewelry.

A Warning.
To feel tired after exertion is one thing; to feel tired before is another.

Don't say the latter is laziness—it isn't; but it is a sign that the system lacks vitality is running down, and needs the tonic effect of Scott's Emulsion.

It's a warning too—and sufferers should begin taking Hoo's at once. Buy a bottle to-day.

A coloured clergyman once gave notice as follows:—There will be a four days' meeting every evening this week except Wednesday afternoon.

Just a Teaspoonful of Perry Davis' Painkiller in warm water or milk, taken after exposure to cold or wet will quicken the circulation and thus prevent a chill. There is but one Painkiller, Perry Davis.

OPPOSITION FABRICATION.

The opposition papers, great and small, are distinguishing themselves at the present time by the publication of statements of the most absurd character, for the purpose of keeping up the falling spirits of their party. The town of Woodstock is not very far from the city of Fredericton, yet the Woodstock Press of Monday had the audacity to publish the following alleged despatch in its news columns:

Fredericton, Feb 14—At a rousing opposition convention held here to-day, Messrs J K Pinder, W T Howe, Thos Robinson and Harry F McLeod were nominated. The government convention was but slimly attended. After considerable difficulty a ticket composed of W T Whitehead, John Campbell, George F Burden and Dr Owens was secured. York is sure to send a solid four in opposition to the Tweedie administration.

It is not likely that any such despatch as this ever went over the wires. It was probably written by the Editor of the Press in his own office, for certainly there is no man in Fredericton who would have the audacity to concoct such a fabrication.

The idea that it was written by the Editor is strengthened by the fact that the following editorial paragraph also appears in the same issue of the Press:

Geo Allen, K C, who sat in the last house in support of the government as one of the members for York and who gave respectability and standing to the ticket, has declined re-nomination. Mr Allen, like Hon G F Hill, who is also a veteran of the old Liberal guard, finds himself unable to support the Tweedie Pagsley combination.

If Mr George Allen, K C, had declined a re-nomination he is not aware of it himself for he has issued his card to the electors of York with Messrs Whitehead, Campbell and Burden and he is at present traveling through the county and making speeches to the electors in support of the government and of the ticket of which he is a member. It is unfortunate for the opposition that they should be compelled to indulge in so many falsehoods for such absurd statements are so easily refuted that if they happened to tell the truth by mistake they would not be believed. The Woodstock Press has been for sale for twenty cents on the dollar, and it is to the credit of both that parties that there are no takers.

—Gleaner.

The Health Department of Paris has just made a calculation of the number of rats and mice in that city. The calculation, which is based on the number of rodents annually destroyed, says that, approximately, 80,000 are killed in the Central Market, 25,000 in other markets, 120,000 in abattoirs, 50,000 by butchers, 200,000 by grocers, 500,000 by private individuals, 100,000 by tanners, 110,000 by rat catchers in sewers, cellars and streets, and 200,000 by various persons. The final conclusion is that the total number of these little pests destroyed in Paris, each year, must be at least 3,000,000 or about one for every inhabitant.

Eczema's Itch Is Torture

Mrs. Ann McDonald, Kingsville, Ont., writes:—'For about three years I was a dreadful sufferer from eczema. At times the patches of raw, flaming flesh would extend from my waist to my neck and from the knees to the ankles. The intense itching almost drove me crazy and though I tried all the local physicians, they could not even relieve the suffering. The flesh would crack open, and I don't believe anyone ever suffered more than I did.'

'I was told of Dr. Chase's Ointment but did not believe that it could help me. After the fifth application of this preparation, I began to feel the benefit of its soothing, healing effects, and now attribute the cure to the persistent use of this wonderful remedy. It is truly worth its weight in gold and I never tire of recommending it to other sufferers.'

Besides being a thorough cure for eczema and salt rheum, Dr. Chase's Ointment comes useful in a hundred ways in every home for every form of skin irritation and eruption, chapped skin and chilblains. 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

A telephone church service, where-

by hundreds of people can listen to the services while at their own homes, has recently been instituted in an Indiana town. Those who listen can distinguish every word, and the result is altogether satisfactory.

'This is the future of all our social services,' writes E P Powell in Christian Register. 'In my own house my sons frequently play the violin and organ for a group of a dozen or more families scattered over a radius of two or three miles. The music is heard as perfectly in the most remote house as in the nearest.'

In the same way the women of a circuit have established telephone tea parties. At a certain hour they sit down to their 'phones, drink their own tea, and distribute the gossip. Imagine how each one puts in an extra lump of sugar!
