

Love is sometimes a hard taskmaster. He drives women to tasks beyond their strength and lays heavy burdens on their shoulders. Love of husband, love of family, forces many a woman day by day to labor for the home when aching head and throbbing heart make her utterly unfit for household duties.

Weak, nervous women who suffer from headache, backache, bearing-down pains and other consequences of womanly disease, can be completely cured by the use of Doctor Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"About two years ago I was taken sick and it seemed as if I had no nerves at all," writes Mrs. P. Woodbeck, of Delray, Mich. "I could not work an hour in the day without being tired out. I doctored first with one physician, then with another, but did not receive any benefit. One day I read of the 'Golden Medical Discovery' and I did so and could see a difference right away. I only took four bottles in all and felt better than I had in a long time. Can work all day now and am not tired as I would in an hour before taking it. I feel that I think it is the only medicine."

Dr. Pierce's Pleasant Pellets cure dizziness and sick headache.

Ireland Scores Again.

London, March 28.—Ireland is getting everything these days. King Edward has assented to an act making St. Patrick's Day a public holiday, also the Royal assent has been given to the act permitting the motor race to be held in Ireland with no limitation as to speed.

FERROZONE

Will Give You an Appetite, and with Appetite Comes Good Digestion Comes Health and Strength.

Ferrozone will, in one week, give you a splendid appetite and will so improve digestion and assimilation, that full benefit will be derived from everything eaten.

There is nothing like Ferrozone to create a keen healthy relish for food for the blood, and a tonic for the nerves and brain. To those leading a sedentary life it is a perfect boon. The reverend Dennis O'Brien, D. D., the well known Evangelist says of Ferrozone: "I have pleasure in saying that I have found Ferrozone a remarkably good preparation. It keeps up one's appetite, cures nervousness and sleeplessness, and perhaps is the very best tonic I have used. Being in the form of chocolate coated tablet, it is both pleasant and convenient to take and is well worthy of my highest recommendations."

This is an example of the way people speak of Ferrozone who have used it, and should be convincing evidence of its unusual merit. It is warranted to cure indigestion, dyspepsia, Lost Appetite, Rheumatism, Kidney and Liver Troubles, Catarrh and all other diseases arising from impairment of blood or nerve tone. Refuse to accept a substitute for Ferrozone. Every druggist sells it; 50c per box, or three for \$1.25. Prepared by N. C. Polson & Co., Hartford, Conn., and Kingston, Ont.

Charles Watts, of Woodchurch, who is 12 years old, is believed to be the heaviest lad of his age in the world. He weighs 18 stone, measures 47 in. round the chest, 53 in. round the loins, and is 5 ft. 5 in. in height.

France has about 4,000 duels a year, and Italy 2,500 on an average.

Aim at the Heart.

Let it be Grip, Malaria Fever or what not, always strike at the Heart

to protect it, to strengthen it, to cure it, and you battle every other ailment.

Dr. Agnew's Heart Cure puts new vigor into every heart, and ninety-nine out of a hundred need it, for that percentage are sick. Having put that machine in good working order, it has guaranteed the whole system against sickness. Every organ is soon sound. It always relieves in 30 minutes.

Mrs. EREDA DUGANAM, Temple, N.B., Canada, writes:—"Have had heart trouble for years; would have it as often as three times a week, sometimes lasting twenty-four hours. Was persuaded to give Dr. Agnew's Heart Cure a trial, which I did, with the greatest results. It surely is a peerless remedy, and would advise any one who has heart trouble to try it."

DR. AGNEW'S OINTMENT. He who would be free from piles and skin eruptions must use this cure, which routes them out at once and for all time.

The safest, quickest cure, because compounded on correct principles. Finest foe of itching skin diseases. Price, 35 cents.

LOCAL LEGISLATURE.

(Continued from second page.) the best proofs of the prosperity of the province is to be found in the increase of its agricultural exports. The exports of butter and cheese for last year reached a value of \$341,000. This butter and cheese was the product of 40 butter factories and 55 cheese factories, all of which had been assisted by the provincial government. Dairying is an industry that ought to be encouraged. In 1897 this province exported no butter whatever. Last year we exported \$88,000 worth. All this had beneficial effect on the manufacturing of butter for domestic use.

The government has established 21 roller mills for the grinding of wheat, and last year 453,000 bushels of wheat were grown. That was also a benefit to the province.

I am glad that his honor was able to speak favorably of the mineral development of the province. I believe that there is a great future for our minerals. The prospects of coal mining are excellent, and our oil wells in Westmorland have gone beyond the experimental stage. These minerals will yield a large revenue to the province in the course of time, and the government should be commended for what they have done to develop them.

The reference to the king's coronation is one that will meet with a hearty response. However we may differ politically, we are as one in our loyalty. Most of us are the descendants of loyalists, and we have lived under the late queen's reign so long that her noble life and character have impressed themselves so deeply that loyalty has become a part of our nature. Our feelings of loyalty to the mother have been transferred to the son. When last year he was stricken down on the eve of the coronation, every one in New Brunswick shared in the universal anxiety for his recovery, and rejoiced when the crisis was passed. I am glad that this province was represented at the coronation so worthily by the premier.

I am glad also that those vexed questions in relation to the fisheries are soon to be settled. At present the dominion government is issuing licenses to foreign fishermen to enable them to fish in waters that belong to the province. This is a matter that we hope to be settled at an early day.

In regard to the Halifax award, it is not necessary for me to go at length into this important question, but I feel I have a right to state my opinion upon it. The sum of \$4,500,000 which was paid to Canada on account of the Halifax award properly belonged to the provinces, because it was the price of the use of their shore fisheries for a term of years. The share of New Brunswick in this award, principal and interest, will amount to about \$2,000,000. Three of the provinces interested—Quebec, New Brunswick and P. E. Island—have agreed on the terms of a case to be submitted to the Supreme Court of Canada, and I have no doubt that New Brunswick will get the sum she claims. This is one of the most important things that have arisen for years, for \$2,000,000 is a great deal of money. That sum would enable New Brunswick to pay two-thirds of our public debt, and would give us an additional revenue of about \$80,000 a year in interest saved. I think that we should all be unanimous in this matter and strengthen the hands of the provincial government.

In regard to better terms for the provinces, it seems to be only just that we should receive an increased subsidy. At present our revenue from the dominion government is a fixed sum, which cannot be increased, no matter how prosperous the country may be. On the other hand, the revenue of the dominion is elastic and increases as the country prospers. Therefore the dominion government should make us a larger grant, so that our necessary services may not suffer.

"New Brunswick's claim is for an additional sum of \$130,000 a year, and this is a matter in which I also think we should all stand together. The question of the representation of this province in parliament is a very important one, and I trust that the provincial government will be successful in its contention that we should not lose a member. The contention of our government is that the word Canada in the British North America act, means the four original provinces of Canada, and that our population must decrease more than one-twentieth as compared with that of Canada, before a member can be taken from us.

"This is a fair contention, and one that is not to be put aside by ridicule. Our people desire our government to have a provincial policy. We are all Canadians, but we are New Brunswickers first. This question is to be submitted to the Supreme Court of Canada, and probably the contention of New Brunswick will be upheld.

"The afforestation of our crown lands, which is referred to in the speech, is a matter of great importance, and I am glad that it has attracted the attention of the government.

An Ancient Foe

To health and happiness is Scrofula—as ugly as ever since time immemorial.

It causes bunches in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption.

"Two of my children had scrofula sores which kept growing deeper and kept them from going to school for three months. Ointments and medicines did no good until I began giving them Hood's Sarsaparilla. This medicine caused the sores to heal, and the children have shown no signs of scrofula since." J. W. McGINN, Woodstock, Ont.

Hood's Sarsaparilla

will rid you of it, radically and permanently, as it has rid thousands.

ance, and I am glad that it has attracted the attention of the government.

The employers' liability act is in the line of progressive legislation.

"It is pleasing to know that an arrangement has been made with the New Brunswick Railway Company for the settlement of a portion of their lands. I know these lands are valuable for the purpose of settlement, and if there is any way of getting control of them, it should be done.

"The consolidated statutes are to be passed this year. There can be only one opinion as to the need of them, and the learning of the gentlemen who composed the commission is a sufficient guarantee that the work will be well done. No doubt this matter will take up the attention of the members to a considerable extent during the session.

"In conclusion, I must thank the house for the courtesy with which I have been listened to. This, my first speech, I feel that in making this speech I have ought to have a certain amount of embarrassment, and I have had it."

Mr. Tweeddale, in seconding the motion for the adoption of the address, said: "I rise with considerable embarrassment, not knowing it to be a day that would fall to me until a few hours ago. In doing so, I do so purpose to take up or refer to every paragraph of the speech. There is no question about the prosperous condition of the country, farming and lumbering being the principal industries of the province and the demand for the products of the forest and field being now greater than our capabilities to produce, gives a new stimulus to the lumbering, farming and the business interests of the country, and so creates a business activity that would not under other conditions exist."

"The policy of the government in awakening and encouraging and assisting the farmers of this province is beginning to bear fruit, and by the operation of a vigorous agricultural policy, there is a marked improvement in the methods of farming, as well as in the breeds and quality of stock, and the advantages resulting therefrom are heartily appreciated.

"In order to be brief, I will skip many of the important paragraphs in the speech and dwell more particularly on the 14th, which informs us of the success which has attended the efforts of the government in securing a portion of the railway land for settlement purposes. Acting in the capacity of a municipal councillor in my county, I moved a resolution memorializing the government, asking them to exercise their good offices in bringing about a purchase or exchange of a portion of those lands, and the zeal and energy displayed are both appreciated and commendable. It further affords me very great pleasure to be a member of this house, and assist in the passage of legislation that will bring about the consummation of results so desirable.

"The importance of the successful carrying out of this scheme is best understood by those who realize its necessity. The great question that has engaged the best statesmen of Canada is how to keep our young men in the country, and let me say here, the young men of New Brunswick are to-day its most valuable asset, and we want them for our country's development. They are good men, they have the constitution, brains, pluck, and sagacity, and will forge to the front ranks wherever you drop them down in the world. The secret of retaining the young men in the country can be solved in a great measure by throwing open fertile tracts of land that are easy to access, and it would be surprising how rapidly they would be taken up and converted into valuable and comfortable homes.

"In conclusion, and apart from what is contained in the speech and lest the gentlemen opposite should take credit for originating the scheme, I would suggest that the government, either by itself or in co-operation with the federal government, establish a system of cold storage throughout the province, so that the perishable products of the farm may be transported, stored and marketed without loss in value by reason of atmospheric conditions."

THE LUMBERMEN.

In consequence of the heavy rains and the immense quantity of snow in the woods, the lumbermen, both on the St. John river and Miramichi, have experienced difficulty in hauling their lumber off the yards. On the Miramichi, however, Timothy Lynch, of this city, has succeeded in getting his logs in the stream.

Mr. Welsh has a large crew at work, and has about completed his hauling, and a successful season's operations. The same might be said of the William Richards Company.

On the St. John river, however, some of the lumbermen have not had as good luck. Stephenson's Company were compelled, owing to the early breaking up of the going, to leave as many as 3,000 trees, which they were unable to get out.

Patterson also, on the Salmon River, leaves 2,000,000 feet of lumber on the yards.

Robert Aitken & Sons have successfully completed their season's cut on the Aroostook, and were able to get all their lumber to the streams, having finished on Wednesday. William Aitken arrived home yesterday and will spend a week here before returning with a crew of men to the drive.

Lumbermen generally are hoping for more cold weather, as the season is not yet far enough advanced to be propitious for driving.—Fredericton Gleaner.

The TOILET IS INCOMPLETE WITHOUT POND'S EXTRACT

RELIEVES CHAFING, BURNING OR IRRITATION. COOLS, SOOTHES AND HEALS THE SKIN. AFTER SHAVING. Avoid dangerous, irritating, itching preparations represented to be "the same as" Pond's Extract, which soothes, cures and often cures "wood alcohol," "kerosene," "bleach," etc.

Nine suicides in Chicago on a single Sunday. Seventy-five suicides in Chicago during January and February of this year; eleven more than last year, and twenty-four more than two years ago! What does it all mean?

French cabinet makers have learned a way of preparing sawdust and making it into articles of ornament that resemble carved woodwork.

Unpleasant!

Boils, Humors, Eczema, Salt Rheum

Weaver's Syrup

cures them permanently by purifying the

Blood.

Davis & Lawrence Co., Ltd., MONTREAL, PROPRIETORS, NEW YORK.

J A Johnston and George Chiveron pleaded guilty before the County Judge to stealing \$428 from the Dalhousie Post Office in July last. Judge Wilkinson sentenced the prisoners to three years each in Dorchester penitentiary.

There are 175 different pieces in the average watch, requiring in its manufacture 2,400 separate and distinct operations.

STANTON'S PAIN RELIEF

An INTERNAL and EXTERNAL Remedy for the Immediate Relief and Cure of

Rheumatism, Cramps, Colic, Sore Throat, Diarrhea, Faceache, Toothache, Sprains, Bruises, Neuralgia, Lumbago, etc., etc.

This is an internal and external Family Remedy, carefully calculated for general use, and should be kept in every household and in every traveler's gripack—do not overlook the fact that immediate attention to any ailment will save serious trouble, worry and expense. When a medical man is not at hand STANTON will do the work. Soothe you and give you instant relief. For sale everywhere. Price, 25 cts per bottle.

McGILL'S BUTTERNUT PILLS Cures Habitual Constipation, Torpid Liver, Sick Headache.

For sale everywhere, see per box or by mail on receipt of price. Sole Proprietors, THE WINDYBUSH CHEMICAL CO. LIMITED, MONTREAL, CANADA.

Good Painting

Is the best painting. There's economy in it. Good paint saves the painter's time by spreading easy; it saves in cost of material by covering most surface to the gallon; it saves in final cost of the job by wearing longest.

THE SHERWIN-WILLIAMS PAINT

is good paint. It is made from the best materials so thoroughly incorporated that they are inseparable and hold together against the weather for the longest time. Come in and get color card showing the 42 shades.

H. E. BURTT

HARDWARE, AGRICULTURAL IMPLEMENTS, CARRIAGES, PAINTS, OILS, GLASS, ETC. S. W. P. Agent for Woodstock

FOR GOOD HEALTH

To preserve or restore it, there is no better prescription for men, women and children than Ripans Tablets. They are easy to take. They are made of a combination of medicines approved and used by every physician. Ripans Tablets are widely used by all sorts of people—but to the plain, every-day people they are a veritable friend in need. Ripans Tablets have become their standard family remedy. They are a dependable, honest remedy, with a long and successful record, to cure indigestion, dyspepsia, habitual and stubborn constipation, offensive breath, heartburn, dizziness, palpitation of the heart, sleeplessness, muscular rheumatism, sour stomach, bowel and liver complaints. They strengthen weak stomachs, build up run-down systems, restore pure blood, good appetite and sound natural sleep. Everybody derives constant benefit from a regular use of Ripans Tablets. Your druggist sells them. The five-cent packet is enough for an ordinary occasion. The Family Bottle, 60 cents, contains a supply for a year.

R-I-P-A-N-S

GEORGIA LETTER.

To the Editor of Carleton Sentinel:

Forsyth, Ga., March 19th, 1908.

Your name, which stands for all that is just and fair, to all parties, and on all subjects, as far as I have been able to see, for over fifty years, still rests on the same old liberal platform, so may it ever stand at the head of the local journalistic list.

The first paragraph I ever attempted to write for a paper was written in the early fifties and published in the SENTINEL; when an apprentice at the Lower Corner, and a shopmate of Ned Saunders, as we used to call him, and a jolly good fellow he was too. He is the father of the Saunders so prominent in your town. My signature to that paragraph was a Carleton Co Boy, by this you will note, I always did love the old county of Carleton and its people. Then I was young and full of hope, but now I am old and only ten days between me and the end of time allotted to man, three score and ten. From then on I will be a borrower of time.

In my father's family of eleven children, up to January last, our combined ages were 747 years. But since that date the ranks have been broken by the calling away of the eldest brother of fond memory. So the people are passing down life's tide to a brighter or darker home, according as they have spent their short lives here. This thought should arrest the serious attention of all humanity.

I am much gratified at the result of the recent election. Long may victory perch on the present government's banner and spread her wings of prosperity over Canada.

March is on us with all its floral beauty, but up to date it has been noticeable for its lack of usual wind. So far we have had considerable rain that has put the farmer much behind with his planting, but what grain is in looks fine, and all nature seems bent on leadership. The strife just now seems to be with the grass, grain and the beautiful blooms and foliage of the fruit trees, gardens being late on account of wet weather, but will soon be done and getting ready for early eating. I tried to send you a sample of cotton seed oil and meal,

but Uncle Sam would not pass it through the lines in his mail pouch. However, you may have such things there now.

You seem to have had snow and to spare this winter—five to seven feet is putting it on thick.

ONE OF YOUR OLD BOYS.

Paine's Celery Compound

Used in Springtime Will Give that Strength, Vim and Bodily Activity that all are so Eager to Possess.

PURE BLOOD AND WELL NOURISHED NERVES ARE ESSENTIAL TO TRUE HEALTH.

Pure blood and well nourished nerves are the great requisites at this season for every man, woman and child. Too many of our people enter the spring season with systems charged with deadly impurities. The blood is foul and stagnant; the liver and kidneys work imperfectly, and very often are diseased. With many, rheumatism, neuralgia and dyspepsia are daily tormentors. Life is not safe when such ailments are permitted to run unchecked.

If you, dear reader, find yourself burdened with any of the forms of disease just referred to, do not fail to give Paine's Celery Compound a trial. It is your only safety—your only true and certain deliverer from perils that end in death. Paine's Celery Compound has cured tens of thousands every springtime; it will do the same blessed work for you. One bottle will cost you less than a visit to consult a physician, and will convince you of its power to cure.

Mr. John Y. Gourley, Halifax, N. S., gratefully writes as follows: "Overwork, worry and cares during the winter season almost made me a physical wreck. My blood was impure and stagnant, my digestion was bad and I slept little. I became so weak that I felt I was nearing the grave, especially when my doctor could not give me any relief. I was advised to try your Paine's Celery Compound, and I thank Heaven it was brought to my notice. After using five bottles I am quite restored to health and strength and attend to my work with increased interest and attention. Paine's Celery Compound is a true life saver. I recommend it with all my heart."
