Those gentlemen who painted the floor of the Hall with tobacco juice, please bear in mind that in so doing they defile a place of worship. See 1. Cor. 3: 17.

A series of snow storms have invaded this section, and within a week more than two feet of snow has fallen. The country roads are all completely blocked; but the railroad people have kept the road well open, and trains only a few hours late.

The banks are high and the wing plow with two engines are kept on the move, which do the work. The citizens with teams and shovels are making the public roads as passable as possible.

Sheriff Tibbitts, with his deputy, is posting the election notices, which is a very hard task at this season and after the severe storms. Nomination day 21st, election day 28th.

It is fair to assume that not much more than half the vote of this county will be polled, so many of the electors are in the woods, and the way of getting to the polls will be in some sections by snow shoes.

The candidates, who are Lawson, Tweeddale and Porter, are out stumping the county. Mr. Tweeddale went to Grand Falls on Friday last and returned on Monday. Messrs Lawson and Porter went to Grand Falls on Monday, looking for votes.

Four Falls.

Feb. 11th, 1903.

The opposition organs wish to make political capital for their party by the proposed dam over the St. John river at Fort Kent. We are of the opinion that this under the provisions of the "Ashburton Treaty" with the United States cannot be done. This probably is the reason why the pulp mill at Grand Falls is hung up. We are pleased to note that J. E. Porter is opposed to the scheme.

J. F. Tweeddale, it is reported, will be a candidate at the approaching election. Mr. Tweeddale has been a prominent member of the M. Council and if elected will be in a position to look after his section of the county.

The report of the death of Prof. J. T. Tutill by freezing at Limestone has not been confirmed. The last we heard of him, was that he was teaching back of Beechwood. If he is still "in the body pen" we would like an explanation, as the *Fort Fairfield Review* has a beautiful obituary to his memory. B.

WALL PAPER!

The Finest Set of Samples Ever Exhibited is to arrive in a few days.

The name of Alfred Peats & Co. need no introduction to anyone who has ever bought or sold Wall Paper. For years it has been recognized as the leading and most progressive Sample Book house in the world. It is probable that more than four million people see their samples every year. Everyone who has purchased wall paper from local stores know from experience that the line shown them to select from rarely consists of not more than forty patterns, some of which are decidedly "back numbers." We create each year a line absolutely new in design and coloring, covering all grades, thus enabling us to show a strictly up-to-date variety of patterns, which represent an investment of about one million dollars. Another feature—and an important one—you buy Wall Paper from this magnificent variety at precisely the same price you would pay for it in Boston. It will pay you to see these samples of Wall Paper, Ceiling Decorations, Moulding and Borders.
