Impressionist Artist—Whom on earth are you talking about?

Artist's Friend—Why, your uncle, of course.

Impressionist Artist—Heavens, man! that isn't my uncle—it's a sunset!

Reasons Why You Should Carry A Sickness and Accident Policy.

1. Because you cannot count on your health, you may be stricken down to-morrow.
2. Because it protects you against all kinds of accidents as well as sickness.
3. Because you get honest treatment. This Company has no unpaid claims.
4. Because the Ry. Passengers Assurance Co of London, Eng, is the oldest and strongest accident Company in the world.
5. Because the Company pays you from the very moment you are laid up and the claim is settled immediately on recovery.
6. Because it gives more for less money, than any other Company doing business.

He—I suppose so. The captain is engaged to the rear admiral's daughter.

Every Woman in Poor Health

Has an awful struggle. Lots to do, all kinds of worry, must contend with loss of sleep, poor appetite and tired nerves. Her only desire is for more strength and better health. This is exactly what comes from using Ferrozone, the greatest tonic sickly women can possibly use. Ferrozone makes the blood tingle and grow red, the cheeks grow rosy, the eyes bright. Ferrozone invigorates the body, develops new strength and makes life worth living. Ferrozone is the sort of tonic that builds up, it gives one a reserve of nerve force and establishes such healthy conditions that sickness is unknown. Let every woman use Ferrozone. Price 50c.

She—Now that we are to be married we must begin to save. Promise me you will do nothing you cannot afford.

He—But in that case I would have to break off the engagement.

Valuable Time Saved.

Slight injuries often disable a man and cause several days' loss of time and when blood poison develops, sometimes results in the loss of a hand or limb. Chamberlain's Pain Balm is an antiseptic liniment; when applied to cuts, bruises and burns it causes them to heal quickly and without maturation, and prevents any danger of blood poison. For sale by all druggists.

Dicer—They tell me Fred has been playing the races.

Knickleby—He thought he was, but it turned out that the fellows at the races were working Fred.

La Grippe Coming Again.

The doctors believe another epidemic of Grippe is here, and already many are suffering. The medical men are not afraid of Grippe since Catarrhazone was introduced, and claim that no one will ever catch this disease who inhales the fragrant healing vapor of Catarrhazone a few times daily. Catarrhazone kills the Grippe germ and prevents it spreading through the system. "Last winter I had an attack of Grippe" writes C P Mackinnon of St Johns. "I bought Catarrhazone and got relief in short time. I found Catarrhazone better than anything else and was cured by using it." Catarrhazone prevents and cures Grippe, colds and catarrh. GEORGIA LETTER.

Forsyth, Ga., Aug. 2.

Dear Old Sentinel:

Your weekly presence is still cheering my home with its good news and its shady news. From a number of the Dispatch bearing date Dec 8, 1897, sent kindly to me by your worthy mayor, Hon. J A Lindsay, I read much interesting history of my dear old town and its once familiar inhabitants, yet after a lapse of 40 years after I knew them until their photos appeared in this paper, time has made such changes in their faces that I knew but few of them. The reality of these lives are very fresh in my memory. Arthur J Gray looks natural. I remember his grandfather better than I do his father. Why am I writing thus of knowing men's grandfathers—why the first thing I know people will believe I am an old boy sure enough, but these are stubborn facts and must not be ignored. I have been brushing around and rubbing up against men and the world a long time. Many thanks to Mayor Lindsay for his thoughtfulness to me.

In your last issue I see another Carleton county boy is writing up some interesting history of your town and people of long ago, which I am much interested in. He does not say who his father was, but a Mr Jones and parent used to make good axes when I was a boy, but I am so glad for the boys nowadays that axes are made and ground ready for use, for 60 years ago it taxed my durability much to turn a stone to grind a new axe; it was not so hard but so regular. He speaks of those river boats that I remember so well, especially the Reindeer. With what pleasure and pride I used to watch this handsome boat from the shop window where I worked, as she plowed her way so proudly up the beautiful old St John. It was the fastest boat on the line. He mentioned the old Mechanics' Institute where I have spent many pleasant evenings with the Sons of Temperance in our weekly meetings, where such men as Jas McLaughlan, R A Hay, J R Parsons and many others I might mention, contributed to the pleasure of these meetings, but now these are all over yonder, awaiting our coming; grand men gone, and there are only a few

of our old friends left. I shall watch this correspondence in future. Your Rockland letter was interesting.

Your province has accomplished what was looked upon 50 years ago as almost an impossibility, bridging the St John river. I remember in the early fifties to have heard an old man by the name of Morgan say he would bridge the river for \$35,000. It sounded like idle talk then, yet it has been done. What a fast world we live in! How true that man has sought out many inventions and will continue to do so as long as men live, but nature changes not. The grass grows, the flowers bloom, and all nature moves just as it did when old Abraham went out at God's bidding, not knowing whither he went.

I can but feel a thrill of pride for my country as I read of the vastness of its extent and its wonderful production. I allude especially to the western wheat fields. I show such reports to my friends here.

We are now having plenty of rain and crops that were not too far gone from the drouth are booming now. Cotton is fine; so is fruit. The peach crop is about over in Georgia; hundreds of carloads have gone out of the State this year, and prices have been very satisfactory. Your scribe planted his second crop of Irish potatoes on August 1st. Many people here plant their tubers in the moon, or by the moon, on the dark nights, for production; there may be something in it, but I think the safest way is to plant in the ground and mulch them with fine straw which keeps the hot sun from hurting them. My patch is 24x80 feet and this is as large as is usually planted for family use in Georgia.

I see some Sweet brother is getting rich in Cuba. No doubt, brother Sweet, your account of Cuba's resources and possibilities is not overdrawn. It is a very rich country especially in woods, to say nothing of its agricultural resources. I have never been there, but I have talked to men who have worked there, and there are always two sides to every question. There are two sides to even a board—one may be highly polished and the other too rough to make a comfortable seat. This, brother Sweet, is not to discourage you in the least, but as a mere precaution. Hope you will realize your anticipations and more. If I were about 50 years younger I would take a hand with you in the lumber business, as I have had 21 years experience in cutting Georgia pine.

Now, three cheers for the old SENTINEL, three cheers for New Brunswick, and four cheers for the Liberal party.

ONE OF YOUR OLD BOYS.

BY CALVIN GREEN.

I left Woodstock recently at 2 o'clock and went by stage to Meductic, arriving at 4 o'clock; then made a bee-line for Dow Settlement with the assistance of Cary Barton. I arrived at the Lane, so called, almost at my wit's end to know which course to take. Fortunately I met Mr Hartin and by his kindness and assistance I arrived at the Hartin Settlement, where I got right at home with a kind friend at 9 o'clock on Saturday evening. The next morning I went to church. Fortunately it was Rev Mr Hudson's first visit. The rev. gentleman preached a good sermon. With the assistance of Mr Murchie I arrived at Skiff lake at 3 o'clock and listened to another splendid sermon by Mr Hudson, who appears to be the right man in the right place. I was now right among strangers, but not for long, and I wish to thank Mr and Mrs Cunningham for their kindness to me. There are splendid farms in the vicinity of Skiff lake, which is a nice place to spend a few weeks. People come here from all parts and enjoy themselves. Mr Cunningham takes great pains to make the guests, who visit this beautiful lake, to feel at home and realize that they have enjoyed their outing.

After leaving this place I went to Nickerson lake in the town of Limerick. Nelson Herrin was the first to prepare a place for a summer resort,

Kitchener Range

Burns Coal, Coke or Wood

Two sets of grates are supplied with every Kitchener Range—one for coal and the other for coke and wood.

'And the flues are wide and deep, with no square corners, so that the ashes and soot produced by soft fuels cannot clog up the smoke and draft passages.

This feature of the Kitchener range is a decided success.

The grates are so easily changed that any boy can perform the operation.

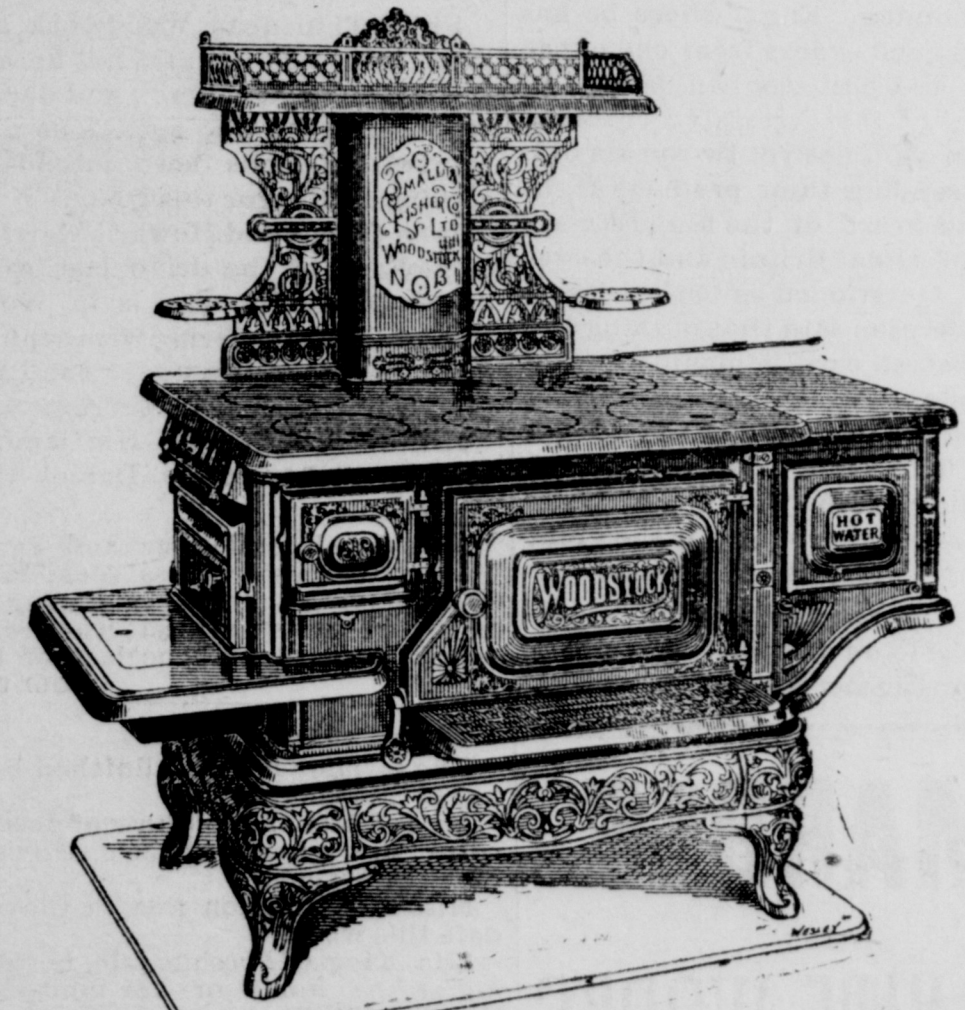

Sold by all enterprising dealers. Booklet free.

some 20 years ago, and has expended about \$3000. Credit is due Mr Herrin for this summer resort which has been the means of giving pleasure to many. This is a charming sheet of water, and the scenery is grand. For some three miles in length this lake is dotted with cottages. People come hundreds of miles to visit this beautiful lake and are well pleased with their visit. Mr and Mrs Herrin are solicitous to have all patrons enjoy themselves so that they may come again.

Havelock Grant, of Hodgdon, has four bay horses. Two will weigh 1200 lbs each. The Morgan mare will weigh 1050 lbs; she is perfect in every point and will road ten miles an hour. One two-year-old colt by Wilkes is well built, blood bay, and will weigh 1100 lbs. The writer had the privilege of driving one of these fine horses and it is a pleasure to hold the reins. I am satisfied that those horses can make from eight to ten miles an hour. Mr Grant has 18 acres of potatoes and they all look

fine; he planted seven acres in one day.

John Grant, Hodgdon, is preparing to build one of the best cellars in town. He expects to get some of the stone from Green's lake to finish up with. There is a great quantity of island stone at that place, from three to six feet; you can split them like cedar.

The writer dined with Turney White, White Settlement, in town of Hodgdon, and had for dinner new potatoes, which were plenty large enough for table use.
