How to Keep Well.

The best efforts of the great physicians are now expending in finding how to keep people well and prevent serious disease. Dr. Chase's Nerve Food was prepared with this object in view. It is not only a cure for diseases of the nerves but also a restorative to be used when vitality runs low and the weakened condition of the system invites attack by fevers or contagious diseases.

A mother was helping her little son with his home lessons, but found him rather dull. To her entreaties to persevere, Johnie replied—I doot, mither, that skule's gaun to be a bawther to me.

The Verdict of Public Opinion.

Is with the best article every time. That's why Putnam's Corn Extractor has been in the lead for the last half century. It cures corns painlessly in twenty-four hours and never fails. Use only Putnam's for corns and warts.

'Tommy,' said his penurious uncle, 'how would you feel if I were to give you a penny?'

'I think,' replied Tommy, 'that I would feel a little faint at first, but I'd try and get over it.'

They were on their honeymoon, and neither had much of an appetite.

'What will you have?' asked the waiter.

'Two soft boiled eggs,' faltered the bridegroom.

The waiter turned and bellowed back to the kitchen:

'Catch the order, Mike? A soft couple for a soft couple.'

TOO GREAT A RISK.

In almost every neighborhood someone has died from an attack of colic or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all druggists.

The boy sat on the moonlit deck, His head was in a whirl; His eyes and mouth were full of hair, His arms were full of girl.

The Man Who Works Hard.

Perseverance and will-power he must have, but whether he has strength and vigor is another consideration. Hard working men usually have irritable nerves and should fortify their systems with a course of Ferrozone, a tonic that rebuilds and revitalizes beyond all telling. It's just wonderful the strength that Ferrozone imparts to broken-down men. It forms new blood, supplies the system with abundant nourishment, and where formerly there was tiredness and lassitude Ferrozone establishes a reserve of energy and vim. Try Ferrozone, price 50c. per box.

'What's the matter, Bob? You look worried.'

'So I am. I'm trying to decide whether to go to the Stevenson's dance next week and wish I had stayed at home, or stay at home and wish I had gone to the dance.'

NOTHING LIKE EXPERIENCE.

'One truth learned by actual experience does more good than ten experiences one hears about.' Tell a man that Chamberlain's Colic, Cholera and Diarrhoea Remedy will cure cholera morbus, and he will most likely forget it before the end of the day. Let him have a severe attack of that disease, feel that he is about to die, use this remedy, and learn from his own experience how quickly it gives relief, and he will remember it all his life. For sale by all druggists.

Kate—Answer him at once, dear. When he's known you a bit longer he'll want to back out.

Minard's Liniment Cures Garget in Cows.

'What have you got in that package?' said the attendant at the museum.

'Bananas,' answered the boy.

'Dozens of 'em. Want one?'

'No, and you can't bring them in here.'

'Why not?'

'It's against the rules. But you can check the package in that room and get it when you come out.'

'Cost anything to check it?'

'Five cents.'

The boy said he wouldn't pay it and went away.

Ten minutes later he reappeared without the package.

'I guess I can go in now, all right, he said.'

'Hold on. Have you got those bananas concealed about you?'

'Yes, sir; all but the skins. I throwed them away.'

Mrs Murphy (indignantly)—There is to be an end of this kind av going on, Mr Murphy. This makes the seventh night ye've come home at three o'clock in the morning. Now, sorr—shaking her finger threateningly—the next time ye go out again perhaps ye'll be kind enough to stay at home an' open the door for yerself.

'Who originated the remark, "It is always the unexpected that happens?"'

'I don't know,' said the melancholy man, 'but I suspect he worked in the weather bureau.'

Nectar Tea on the Market.

This week we have pleasure in welcoming to our advertising columns the well known St. Stephen grocery firm, Purves & Graham, represented in this section by that popular and energetic salesman, Mr Walter V. Moore. This firm stands well to the front among grocery concerns, and by their businesslike methods have won an enviable reputation. Nectar Tea, which they are now introducing to the public, is pronounced by competent judges to be a very superior article, and we have no hesitation whatever in recommending it to our readers.

ACADIENSIS.

SPECIAL CHAMPLAIN NUMBER, JULY, 1904.

During the past nine months extensive preparations have been made for the Special Champlain issue of this valuable magazine. The forthcoming issue, which contains about 200 pages of printed matter, and is handsomely illustrated, is probably the best magazine issue of its class, that of a purely historical nature, yet published in Canada.

Considerable journalistic enterprise has been exhibited by the publisher, who has had extensive research made both in the British Museum, London, England, and the Bibliotheque Nationales in Paris, under the supervision of Mr Victor Hugo Paltits, of the Lenox Library, New York, for data regarding the authenticity of existing portraits of de Monts and Champlain, six of which are reproduced in full page size. This topic is ably dealt with by Mr Paltits.

A special correspondent was sent to Brouage, on the southwestern coast of France, the town at which Champlain was born. The town, as it appears to-day, with its ancient walls, the old church at which Champlain probably worshipped, and the monument to his memory erected there, are all well illustrated. This is the first publication in America to present to its readers a sketch of the monument erected to this great Frenchman at his native place by his fellow countrymen.

Professor Ganong contributes an exhaustive article upon the voyage of Champlain, during which the discovery and naming of the St John river took place. The pages relating to Champlain's experiences in Acadia waters are reproduced by the photo-engraving process, from its original work, published in Paris in 1613. This work is now extremely rare, so that the reproduction will be valuable to the linguist and the historian.

The French flag of the time of Champlain, with illustrations, by Dr George Stewart of Quebec; the colonists at St Croix, by Edwin Asa Dix, Fellow of Princeton University, and author of 'Champlain, the Founder of New France'; The Indians of N.B. in Champlain's Time, by Montague Chamberlain; Champlain, a poem by S. E. Dawson, Litt. D., Honorary Secretary of the Royal Society; Men-at-arms, by Dr W. O. Raymond, and other contributions, will make this issue of *Acadiensis* practically a Champlain hand book.

Single copies to non-subscribers, \$1.50; for sale at all book stores, or upon application to D. R. Jack, Editor and Publisher, St John, N. B.

BANISH THE WRINKLES.

In Many Cases They are Merely Signs of the Ailments of Women.

A woman's face plainly indicates the state of her health. Wrinkles, which every woman dreads, are not necessarily a sign of age. Pallor of face, wrinkles and a prematurely aged appearance are the outward indication of those ailments that afflict womankind alone, and from which she too often suffers in uncomplaining silence, rather than consult a doctor. In this condition Dr Williams' Pink Pills are women's best friend. They actually make new, rich, red blood, and this blood acting upon the nerves and all the organs of the body, brings new health and happiness to weak, weary and despondent women.

Mrs John McKerr, Chickney, N.W. T., tells for the benefit of other suffering women how she found new health through the use of Dr Williams' Pink Pills. "For some years," says Mrs McKerr, "I was greatly afflicted with the ailments that make the lives of so many of my sex miserable. The suffering I endured can only be understood by those who are similarly afflicted. I tried many medicines but found none that helped me until I began the use of Dr Williams' Pink Pills. These have actually made me feel like a new person, and the suffering I had endured almost continuously has passed away, and life is no longer the burden it once seemed. I think these pills worth their weight in gold to all who suffer from female complaints or general prostration."

We ask every suffering woman to give Dr Williams' Pink Pills a fair trial. They will not disappoint you, and the benefit they will give is not for an hour or a day—it is permanent. You can get these pills from any dealer in medicine or by mail from the Dr Williams' Medicine Co., Brockville, Ont., at 50 cents a box or six boxes for \$2.50. See that the full name, "Dr Williams' Pink Pills for Pale People," is on the wrapper around every box.

Rev. Dr. John Wright, of St. Paul, Minn., has given Union College library a copy of the third edition of the Saur Bible, which was published in Germantown in 1776. It was the first Bible printed in America in a European language. Nearly all the copies of this edition were destroyed by the British troops when they occupied Germantown in 1776.

Sunshine Furnace

Flues Easily Cleaned

Cleaning out the flues of most furnaces is so difficult and complicated that only an expert can do it, and experts' services usually come high.

The flues in the Sunshine Furnace can be cleaned from two different clean-out doors and from the feed-door, so that there is no part of the flues which is not easily reached.

A special brush for this purpose is always supplied, and the operation is so simple that a boy can perform it.

The whole Sunshine Furnace construction is on the same plan of simplicity.
