

## If Your Children Are Run Down

They Are Liable to Get Fever or Pneumonia. Keep Your Little Ones Strong and Healthy with Ferrozone.

Parents can't afford to neglect the health of their children. For if disease fastens itself on the child of tender years it may be the beginning of a long train of serious sickness. Ferrozone is a remedy that mothers can rely on, and every child will be benefited by using it. Mrs. Henrietta Lafame of Quebec, writes: "Last year my daughter, aged sixteen, was run down and looked very poorly. She was worrying about her exams, and she didn't feel strong enough to study very hard. I got some Ferrozone and it made a wonderful change in Marie. She improved her strength and her strength and she was very happy. I am very grateful to Ferrozone and know that children would be much stronger if treated with Ferrozone."

Mrs. James E. Devine of Frankford, says Ferrozone has no equal for strengthening children and writes: "When my little daughter was weak and miserable I gave her one Ferrozone tablet at meals. She improved at once, and before taking Ferrozone a week gained in weight, and enjoyed a splendid appetite. I never used any tonic that gave such quick and permanent results as Ferrozone." Every child can be made stronger by Ferrozone which acts on the blood and strengthens the entire system. Ferrozone is the sort of tonic that builds up strong healthy frames; it gives a child energy and spirit, and drives away weakness. Every mother should give her children Ferrozone, and give up all obsolete treatments like bitters and cod liver oil, which are hard on a child's stomach. Just one Ferrozone tablet at meals, easy and pleasant to take. Results are sure when you use Ferrozone. Refuse any substitute and insist on having Ferrozone which alone can build up and cure quickly. ## Prof. Goldwin Smith on the War.

It is difficult to see how either of the two combatants, Russia or Japan, can deal the other a finishing blow. Neither of them, apparently, can reach the seat of life in the other. Hence there may be a chance of a deadlock, with an opening for friendly mediation which would be welcomed by the few eccentric persons who are still weak enough to have a sense of the horrors and barbarism of war. While the conflicts lasts there will always be a danger of its spreading. Amidst all the contradictory reports and rumors one thing is pretty evident, and it is a thing of the highest importance. China is drawing nearer to Japan, and Japan is extending her influence over China. If this continues, call it the Yellow Spectre or what you please, there will arise in the East a mighty, perhaps aggressive power. The great predatory powers of Europe, instead of treating China as a vassal market, and carving it at their pleasure into spheres of influence, may presently have to look to the safety of their own Eastern possessions.

## Guide Says that Bald Mountain Has Disappeared.

(Special to The Montreal Star.)  
Caribou, Me., March 31—Evidence that the earthquake of March 21st touched Northern Maine was furnished to-day, when a guide came up from Tobique and affirmed that where the old Bald Mountain had reared its rounded head for centuries only a new born lake exists to mark the spot. Bald Mountain rose from the Tobique Valley, a few miles from the New Brunswick line. At its base were boiling springs so warm that one could not put his hand in them, even in winter. Nearby is a hill called Plaster Rock, which furnishes plaster so good that it is used for building purposes. This was recently analyzed, and found to consist of merely melted rock and earth, and this leads to the belief that Bald Mountain was the cone of a volcano, which when it sank on March 21st, caused what all New England thought to be an earthquake. The above wild story sent to the Star turns out to be incorrect.

## Consumption

The only kind of consumption to fear is "neglected consumption."

People are learning that consumption is a curable disease. It is neglected consumption that is so often incurable.

At the faintest suspicion of consumption get a bottle of Scott's Emulsion and begin regular doses.

The use of Scott's Emulsion at once, has, in thousands of cases, turned the balance in favor of health.

Neglected consumption does not exist where Scott's Emulsion is.

Prompt use of Scott's Emulsion checks the disease while it can be checked.

## An Ancient Foe

To health and happiness is Scrofula—so ugly as ever since time immemorial. It causes buns in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption.

"Two of my children had scrofula sores which kept growing deeper and kept them from going to school for three months. Ointments and medicines did no good until I began giving them Hood's Sarsaparilla. This medicine caused the sores to heal, and the children have shown no signs of scrofula since." J. W. McDunn, Woodstock, Ont.
