## THOSE PUBLIC MEETINGS.

Many of our readers may not know that an official reporter, Mr. Loran C. Macnutt, of the *Fredericton Herald*, accompanied the government speakers on their recent tour of the upper St. John Valley. Mr. Macnutt sent reports of each meeting to several leading provincial papers including the *Sun*, according to arrangement, but it appears the *Sun* would not publish these accounts as they were sent in. Acrimonious discussions are going on between the interested parties. In a recent issue of the *Herald* Mr. Macnutt pays his respects to the *Sun* in the following vigorous manner:—

"The *Sun* with glaring disregard for truth, speaking of the meeting held at Andover by Hon. Messrs. LaBillois and Farris, declares that 'as a matter of fact the new highway act was strongly condemned by speakers.' The *Sun* in making that statement stamps itself as a first class prevaricator. The only gentleman who said a word against the new law was a county councillor whose chief criticism was that it led to direct taxation. The meeting was open to any man to speak, and the county councillor mentioned was the only person who uttered a criticism of the new law. The *Sun's* unfairness with respect to the meetings held by the ministers is shown by the fact that it has not published the reports thereof after agreeing to do so, and especially its suppression of Mr. Fleming's observations commending the government for holding the meetings. Mr. Fleming is the chief opposition lieutenant in the legislature, but he had to look to the government newspapers to see his manly address at Andover, although the *Sun* had a copy of his speech in its office, but suppressed it. The effort of the *Sun* to make political capital out of the ministers' meetings is as mean and despicable as its usual course towards its political opponents. Messrs. LaBillois and Farris made no effort to turn the meetings to political account, and only the *Sun's* narrow vision discovers anything of the kind in the gatherings. The *Sun's* efforts to prejudice the government have continued for twenty years, and in its chagrin at its utter lack of influence on the public, it turns to gross misrepresentations and childish criticism."

## SPORTING EVENTS.

Lou Scholes, of Toronto, champion amateur sculler of the world, was given a great reception on his return from the Henley regatta. Thirty thousand people were in the procession and fifteen thousand attended a public meeting in the park. He was presented with a solid silver service by the city corporation and a diamond studded gold medal from the Toronto ball club.

New York, Boston and Buffalo are the leaders in the three big leagues.

The Colts are thinking of playing a return game at Fort Fairfield with the Advertisers in the near future.

Some nice rounds are being made at the golf course this week. On Monday Mr. J. S. Creighton set the pace with a 43, which is only two from the record.

## THE PRESS.

For some time back the conservative party have had it in mind to make an effort to put their organ, the *Press*, on its feet. A number of meetings have been held, and sufficient stock has been subscribed to warrant undertaking control of the organ by a new company, composed of prominent members of the party. Everything is now in readiness and within a few days the new management will assume control. A well known newspaper man has been offered the position as editor and manager.

## WILL GO TO CUBA.

William Sweet, who is leasing a rich Cuban plantation and subletting farms to Carleton County people, has engaged Surveyor Chas. Dibblee of this town to visit the "Pearl of the Antilles" and make a report on the property. Mr. Dibblee expects to go south in a few weeks, and make a thorough examination and report of the property for the benefit of local stockholders.

## The Cammack Case.

Despite the fact that he carries a bullet in his brain, Thomas Cammack seems in good health with normal pulse and temperature, good appetite and clear understanding. As we go to press his preliminary examination before Magistrate Dibblee on the charge of murder and arson, is being held. An attempt will be made to prove an alibi in the case of his son Walter, who is held as an accomplice after the fact.

## HYMENEAL.

The residence of C. B. Snow, Orange Street, was the scene of a quiet wedding on Wednesday, 20th inst., when his second daughter, R. Helen, and William Duncan of Midfield, Mass., were united in marriage by the Rev. F. A. Currier, B. A. The happy couple received many useful gifts from relatives and friends.

Mr. and Mrs. Duncan took the early train for St. John and Salisbury, where they will remain a few days at Mr. Duncan's old home after which they will make a tour of the North West as far as Vancouver, B. C.

## OBITUARY.

Albert Hutchinson died at his home at Upper Wicklow, on the 8th July 1904, of anæmia, after an illness of several months; aged 56 years, leaving a wife, the eldest daughter of Theodore Estey, six sons, four daughters and two brothers, George W. of Lynn, Mass., and Ezekiel of the Western States. The funeral procession, which was a very large one, was conducted by Col. A. D. Hartley. The service at the church was conducted by Rev. Mr. Young, assisted by Rev. Mr. Fenwick, and at the grave by the Foresters, who were in attendance in large numbers. The deceased was cheered and comforted in his last sickness by the return of his two sons, Byron and Beecher from the West, and his daughter, Mrs. J. F. McCain from Portland Me.

## Resolution of Sympathy.

To Mrs. Thomas Slater and Family:—  
At the last regular meeting of Wellington, L. O. L. No. 51, deep sympathy was expressed by the members present in the loss sustained by you and your family in the death of your beloved husband and father, but He who hath said, "I will be a father to the fatherless," will be a shield to the widow, and we pray that you may be sustained in the hour of mourning by the power of God, and that when your labor of love is done here you shall meet him, who has gone before, in that city, whose Maker and Builder is God.

Signed on behalf of the lodge  
Geo. W. Davis, W. M.  
J. Leslie Kennedy, Sec.  
Kirkland, N. B., July 13th, 1904.

## Took Position With Bayonets.

Tien Tsin, July 26th—It is reported here that the Japanese lost 380 men killed and wounded in the fighting, which has taken place outside of Newchwang during the last two days. The Russian losses during the engagements are not known. A small detachment of Japanese scouts entered Newchwang last night. About 200 troops arrived there this morning and more are expected this evening.

Crowds of Russian refugees were this morning awaiting trains at Yinkow, close to Newchwang to take them away. The Chinese flag is flying over the Custom House at Newchwang. It is reported that the Japanese took the Russian position at Ta Tche Kiao last night at the point of the bayonet. It is reported here that heavy firing has occurred between Liao Yang and Mukden.

## Dundonald Goes Home.

Ottawa, July 26—Lord Dundonald left Ottawa to-night on his way to England, whither he has been called by the War Office. There was a large crowd out to see him off. Those in carriages, which were hired for the occasion, were conservatives, principally members of parliament and others attending the session. There was an entire absence of Ottawa's leading citizens outside of those who have been exploiting the noble Earl for political purposes. The evening however was fine and the crowd on the sidewalks leading to the depot was large. Following the example set in Toronto the horses were unhitched and willing hands pulled the vehicle with a rope.

The conservative effort to make political capital out of the affair has fallen flat.

Mrs. Albert Simonson died yesterday morning at the residence of her son-in-law, Dr. Prescott. Funeral services will be held to-morrow, leaving Woodstock at 2 o'clock. Interment will be made at Jacksonville.

## BRITAIN AND TIBET.

Theoretically and practically the cause of the Tibetan is no sounder than was the cause of the Indian. The history of the world, taken in a lump, proves that nations and peoples and the government must be regarded as tenants and not as the proprietors of the soil. When the exercise of their leasehold rights impedes the progress of civilization the latter inevitably wins in the consequent encounter.

The Anglo-Indian government is charged with taking an unfair advantage in forcing the hand of the Lassa authorities at a time when Russia, England's only rival in southwestern Asia, is unable to interpose an objection. That accusation is of no particular weight. A nation with a policy to enforce naturally seizes the most opportune moment for the enforcement. To procrastinate until crippled opposition has a chance to recover is worse than suicidal. It is idiotic.

The future of Tibet will be settled after the British force enters the capital. Lassa is a city of which we know little. It has not been accessible to Europeans. The peculiar aversion of the Tibetans to foreigners has kept its gates closed to all except people of their own faith. It is probable that the occupation of the city by General Macdonald's expedition will immediately result in the reconstruction of the Tibetan government and in the permanent establishment there of a British commissioner, who will become the virtual administrator of affairs. We do not think that the Tibetans will be the worse for the change. What ever commercial and industrial development their country may be capable of will follow the inclusion of it among the countries that have found progress only in the interdependence of interests. There will be sentimental regret in plenty and no small amount of indignation when a period is put to the isolation of Lassa, but neither regret nor indignation will check the northward advancement of British dominion in that part of Asia.

Tibet is to be civilized by force, which is precisely what barbarism and semi-barbarism invite when they deliberately refuse to be civilized otherwise.—*Brooklyn Eagle*.

## Russians Routed.

Paris, July 26.—A despatch to The *Matin* from Newchwang says that heavy firing continued all day long on July 24. The battle lasted for 16 hours. The Russians were driven back on the east side, and were reported to be utterly routed on the north. The despatch says that the Russians evacuated Newchwang, of which the Japanese will probably take possession on July 26.
