Rev. Dr. Thomas W. Todd, A Woodstock Boy Who Has Made His Mark.

Woodstock may well be proud of the many distinguished young men who claim this town as their birthplace. One of the brightest sons who have gone out into the world and made a name for themselves is Thomas W. Todd, son of Rev. F. S. Todd of this town, who is now principal of Cedar Valley Seminary at Osage, Iowa.

We have pleasure in reprinting the following sketch from *The Osage Methodist*:

Thomas W. Todd, Ph. D., was born July 21, 1871, at Woodstock, New Brunswick, Canada. He was educated in the public schools of his native province, graduating from the Provincial Normal School in 1889. He taught in the public schools for one year and then entered the Union Baptist Seminary from which he matriculated into Acadia College in 1891. In '94 he was appointed Instructor in Oratory, studied in the School of Expression, Boston, during the entire summer vacation and returned to Acadia to complete his college work and give instruction in Oratory. In 1895 he received his B. A. degree and immediately elected Professor of English and Oratory in Shurtleff College, Upper Alton, Illinois. Another summer was spent in study in Boston. In 1896, Mr. Todd was ordained and became pastor of the First Baptist church, Berlin, Illinois. A post-graduate course in English and Oratory at the University of Chicago filled the year 1898. Then followed post-graduate work in non-residence which resulted in the obtaining of the degree of Ph. D., from Ewing College in 1903. In 1902, A. M. was conferred "pro honore" by the same institution. After three years of faithful work in connection with Nora Springs Seminary, the Board of Trustees of Cedar Valley Seminary invited Principal Todd to become the successor to Col. Abernethy.

BRIEF WAR NOTES.

The Japanese have turned their attention to Sakhalien and have bombarded Korsakovsk, the port in which the Novik sought shelter. They destroyed several government buildings and private houses at no cost to themselves.

At Shanghai affairs are still threatening, but it is probable that friction will be ended by the disarming of the Askold and Grozovoi.

There is no evidence of an immediate Japanese advance in the neighborhood of Liaoyang, and it may be that the field operations of the Japanese have been suspended until the men engaged around Port Arthur can be brought up.

Before the election of 1896 we had statistical prosperity in Canada. Now under a sane tariff system we have statistical adversity announced from the same quarter in terrible records of injurious imports. The people prefer the statistical adversity of the present to the statistical prosperity of the past, and will vote to hold what they have.
