A child who is fed generously, yet judiciously, upon good plain food, with plenty of fruit and vegetables, thrives much better than if his appetite is pampered and his palate injured with rich foods and made dishes, however elaborately they may be served.

C. C. RICHARDS & CO.

Dear Sirs,—A few days ago I was taken with a severe pain and contraction of the cords of my leg, and had to be taken home in a rig. I could not sleep for pain, and was unable to put my foot to the floor. A friend told me of your MINARD'S LINIMENT, and one hour from the first application, I was able to walk, and the pain entirely disappeared. You can use my name as freely as you like as I consider it the best remedy I have ever used.

Wakeful Children.
For a long time the two year old child of Mr. F. L. McPherson, 59 N. Tenth St., Harrisburg, Pa., would sleep but two or three hours in the early part of the night, which made it very hard for her parents. Her mother concluded that the child had stomach trouble, and gave her half of one of Chamberlain's Stomach and Liver Tablets, which quieted her stomach and she slept the whole through. Two boxes of these Tablets have effected a permanent cure and she is now well and strong. For sale by all druggists.

"I first used Dr. Chase's Syrup of Linseed and Turpentine with my daughter who suffered from a severe form of asthma. The least exposure to cold would lay her up and she would nearly suffocate for want of breath. I must say I found it to be a most satisfactory treatment and it has entirely cured her."—Mrs. A. A. SPRING SEED FAIRS.

In the production of farm crops the cost of the seed is small but its influence is far reaching. The farmers who have taken up the work of growing seed grain by following up a system of careful selection year after year, have learned from their work something of the importance of good seed grain or potatoes.

It is true that all farms and all conditions of soil are not well suited to the growing of high class seeds of all kinds of farm crops. It is a good practice among farmers to secure their supplies of seeds from crops that have reached a high state of perfection and been grown from seed that has good care and selection during several preceding years.

Spring seed fairs have been held at numerous places in the Province of Ontario for many years. These are controlled by agricultural societies and are arranged for the convenience of farmers who wish to buy, sell, or exchange seeds of various kinds of crops.

Seed fairs after the plan of those in Ontario were started at four points in the Maritime Provinces two years ago. Being somewhat of a new feature their object was not, at first, very well understood and although much of the seed exhibited at each of the fairs was disposed of by exhibitors, too much of the seed brought out had been prepared for the one purpose of winning a prize.

There is no doubt that the holding of spring seed fairs materially encourages the production and more general use of seeds of the best quality. But where prizes are offered the regulations under which they are awarded should be such as to encourage the growing of high class seeds in quantity and having them brought to the fair thoroughly cleaned. At most of the Western fairs, 2 bushels samples only are exhibited; but the regulations require that such samples must be exactly representative of the total quantity held for sale, which in the case of cereal grains must be not less than 10 bushels.

The Provincial Departments of Agriculture for the Maritime Provinces have given much encouragement, either directly or through agricultural societies, that has made for improvement in the quality of seed grain and potatoes used by farmer. It is evidently their intention to continue with this good work. Plans are again in order for seed fairs at Woodstock, Sussex and Chatham, N. B.; Truro, N. S., and Charlottetown, P. E. I. The farmers who are interested in these seed fairs may look forward to their announcement which will be made as soon as final arrangements are completed.

Be kind to little children, not alone to the petted darling at home, but to the poor, dirty face little urchin in the street. Do not frown upon him and draw your skirts away as you pass by.

Lemon juice and sugar thickly mixed will remove hoarseness and cure sore throats. Lemons may be kept fresh for weeks by covering them daily with fresh water. A little lemon juice in a spoon, then a dose of castor oil, and a little more lemon juice over the oil, will mask the disagreeable taste.

A Seat for Mr. Borden.

Mr R. L. Borden has gone South for a rest. It seems to be generally admitted that he will be retained as leader and a seat found for him in Ontario. Hon. George E. Foster, has, we believe, no aspiration for the leadership, and even had he leanings in that direction, we very much doubt his ability to land the job in the face of Sir Mackenzie Bowell's antipathy to the ex-Minister of Finance. The veteran leader in the Upper House can never forget the treachery to which he was subjected. Probably the conservatives will be wise in retaining Mr. Borden, who it must be said, is a clean and presentable politician, who some day may become one of Canada's foremost statesmen.

Bachelor's Warning.

For some time past a Spruce street resident has been greatly brothered by two young people who sit under his window nearly every night and spoon. The resident is an elderly bachelor and to him sentiment is as far removed as the North Pole from Philadelphia, and he could not see why two young people could be so foolish, and further that the conversation of sweet nothings from below always disturbed his slumbers.

At last, tired of the unceasing words of devotion, he decided to put a stop to it. He secured a heavy-gonged alarm clock, attached it to a string, and the following night, about midnight, when the young couple were sitting serenely on the steps below his window, he lowered the clock down until it was about six inches above their heads.

The young couple leaped at least three feet in the air, windows were thrown thrown up and heads thrust out, while the old bachelor with an egotistical smile, returned to his bed and slumbers.—Philadelphia Press.

MANY A SWEET VOICE
has been ruined through the interference of Catarrh. To sing well, one must have perfect control of the lungs and throat, which is impossible when afflicted with Catarrh.

Dr. Agnew's Catarrhal Powder can do more for you in ten minutes, than two years study in deep breathing and chest development. The same rule applies to Public Speakers, Readers, Actors, Lawyers or anyone appearing in public. A short treatment with Dr. Agnew's Catarrhal Powder will cure the most desperate cases.
