AS A WORKING TOOL

for the student and the writer,
as an authoritative reference book
for schools, teachers, families,
business and professional men,
there is one book which offers
superior advantages in the solid
value of its information, and the
ease with which it is obtained.

One's admiration for Webster's
International Dictionary increases
daily as it comes to be better
known. It never refuses the infor-
mation sought and it never over-
whelms one with a mass of mis-
information illogically arranged.

The St. James Gazette of London,
England, says: For the teacher, the pu-
pil, the student and the literate, there
is nothing better; it covers everything.

The New and Enlarged Edition recently is-
sued has 25,000 new words and phrases, a com-
pletely revised Biographical Dictionary and
Gazetteer of the World, 2380 pages and 8000
illustrations.

Our name is on the title-pages of all the
authentic dictionaries of the Webster series.

ment. Illustrated pamphlet also free. G. & C. MERRIAM CO., Publishers, Springfield, Mass.

At a recent Highland gathering a
local aspirant had entered his name
for several events in the programme
and it was common knowledge that
he intended winning at least one of
them. His first attempt was in that
hard test of races, the 'quarter mile',
and, suffice to say, he lost very easily.

"Donal, Donal!" exclaimed a
supporter, with a vexed expression,
"what way did ye no' rin faster?"
"Rin faster," echoed Donal, con-
temptuously, "and me reserving
masel' for the bagpipe competition!"

Alfred A. Taylor, of Margaree,
says: "One bottle of MINARD'S
LINIMENT cured a swelling of the
gambel joint, and saved a horse
worth \$140.00."
Thomas W. Payne, of Bathurst,
saved the life of a valuable horse
that the Vet. had given up, with a
few bottles of MINARD'S LINI-
MENT.

Fond Father (showing off his off-
spring's intelligence).—Now, Elsie,
dear, what is a cat?
Elsie—Dunno.

Fond Father—Well, what's that
funny little animal that comes
creeping up the stairs when every
one's in bed?

Elsie (promptly)—Papa.

Young Ladies, Read This.

If you are bothered with pimples,

"I trust your late husband had

Nervousness and Nerve.

The more nervous a man is, the less
nerve he has. That sounds paradoxical—
but it isn't; for nerve is stamina.
Hood's Sarsaparilla gives nerve. It tones
the whole system, perfects digestion and
assimilation, and is therefore the best
medicine a nervous person can take.
If you get tired easily, mentally or physi-
cally, take it—it will do you good.

Smith—Why are you taking the
parrot's cage out of the room?
Mrs. Smith—Well, y' see, it's a
young bird, an' jist learnin' tae talk,
so I think it'll be better tae keep it
out o' the room when you're layin'
the carpet.

A gentleman was lately favored
with the following epistle from his
tailor:—

Dear Sir—The manufacturer of this
material intended the rough side to
be on the right side on which side
you will find a pin; but, it being a
reversible material, any side might
be taken for the outside.
Will you kindly let the bearer
know which side you prefer outside?
I think myself the rough side
would be the best outside, but if you
should prefer the smooth side out-
side, please put a pin on that side.

If troubled with rheumatism, give
Chamberlain's Pain Balm a trial. It
will not cost you a cent if it does no
good. One application will relieve
the pain. It also cures sprains and
bruises in one third the time required
by any other treatment. Cuts,
burns, frost bites, quinsy, pains in
the side and chest, glandular and
other swellings are quickly cured by
applying it. Every bottle warranted.
Price 25 and 50 cents. For sale by

The Germs of Catarrh

Not only attack the passages of
the head and throat but finally
reach the lungs and cause consump-
tion. Nothing destroys catarrh so
quickly as fragrant healing Catarrh-
hazone which relieves the cough,
stops the discharge, takes the sore-
ness from the throat. "I consider
Catarrhazone has no equal as a cure
for catarrh and lung trouble," writes
Jas. E. Wetherell of Brighton. "It
cured me after many good doctors
failed to even relieve my trouble."
Catarrhazone can't fail to cure—it's
guaranteed. Two months treat-
ment \$1.00; trial size 25c.

When a Sore Won't Heal

Because of its power to heal raw,
flaming flesh, to allay the inflamma-
tion and stop the dreadful itching,
Dr. Chase's Ointment has a world-
wide reputation. If you have be-
come discouraged by the failure of
other treatments put Dr. Chase's
Ointment to the test. Like thou-
sands of others you will be surprised
and delighted with the results.

Auntie—And how is the baby?
Still looking like her auntie?

Little Ethel—No, auntie, I don't

British Columbia Ranching.

LIVE STOCK CONDITIONS FOR THE
SPRING OF 1904.

According to an official report re-
ceived by the Live Stock Commis-
sioner, Ottawa, British Columbia
range cattle went into winter quar-
ters in very fair conditions, feed in
the late summer having been very
good owing to the heavy rains.

The winter up to February was
very fine and mild but after that to
the end of March the ranges were
covered with very deep snow; in
most sections a much heavier snow
fell than has been known for years.

Hay was comparatively short all
through the range country; there
was no old hay on hand and a good
deal of the 1903 crop had been dam-
aged with the heavy summer rains.

Speaking generally, the cattle are
in fair condition and few losses have
occurred; the she stock suffered
most and it may be estimated that in
consequence the calf crop will be
below the average.

There is no doubt that in certain
sections of the country, more espe-
cially on the Thompson, the cattle
business is too much of a specula-
tion to be healthy. If the past win-
ter had been of a similar character
to the previous one, a very large
proportion of the stock of that sec-
tion would have been wiped out.
The day is past when it is safe to go
into winter with 1 or 2 of a ton of
hay per head, per year, the reason
that, snow or no snow, by the time
January comes there is practically
no feed left on the lower ranges. In
this section a great area of the re-
cently leased lands will be fenced
in during the next year or two and
it will be possible to limit the stock-
ing of these ranges, but it will of
course take some time for them to
recover unless the seasons are very
favorable.

Beef is still low in price and from
present indications not likely to be
better than last year, if as high.

Horses are in good demand and the
heavier horses, viz., those weighing
from 1150 up, are realizing good
prices. Horses of this class go to
the Coast and more of them are be-
ing bred every year, mostly from
Kamloops and the district south of
there, and are worth at the present
time more money in B. C. than they
are in the Northwest. For this mar-
ket the lighter horses and ponies
have been shipped in increasing
numbers.

The Can. Pac. R. R. have given the
following figures of shipments from
points on the main line during the
year 1903. To Coast points: Horses
140. Cattle 9484. Hogs 2013. Sheep
400. To points East of Laggan:
Horses 1722. Cattle 130.

From these figures will be noticed
the comparatively small trade in
horses with the Coast. With the
Northwest including the shipments
by the Crow Line and from Golden,
not given in the above figures, prob-
ably 2300 horses were exported last
year.

The proposed legislation which
was unanimously asked for by the
recent live stock convention in Otta-
wa to assess all horses coming into
Canada from other countries at a
value of not less than \$75 per head,

will have, if enacted, a stimulating
effect on our export trade to the
Northwest, as their principal supply
of horses is from the United States.
From official figures no less than 26,
000 head were imported last year.

In regard to cattle, in addition to
the 9484 head given as shipped to the
Coast markets, in order to arrive at
the consumption of beef at these
points must be added the local sup-
ply and a total supply for about 4
months from the Northwest, as the
B. C. ranges hardly ship any beef
from February to the 1st of June.

The Kootenay trade is supplied
mainly from the Northwest with the
exception of the supply from the
country south of Okanagan Lake and
along the boundary. This will bring
the exports from B. C. ranges to a
figure probably between 10,000 and
11,000 head.

At the Coast the dairying business
has been very good, and the price of
butter high; during January and
February some of the creameries
were paying the patrons 32 cents per
lb. of butter fat.

The improvement of the heads is
very steady, and although no doubt
a vast number of cows should still be
weeded out, the average is a good
deal better than a few years ago.

The earrings worn by Italian wo-
men indicate the part of Italy the
wearers come from; the longer the
earrings the further south the origi-
nal homes of the women. In the
far north the ornaments are quite
short.

**Learn the Art
of Resting**

Rest is a True Food for the Body
and Strength for the Spirit.—Al-
most a Lost Art Now.

The absence of rest accounts for
much of the ill health, irritability
and despondency that we find every-
where about us. We can't eat our
pudding and have it, nor can we go
on wasting our energies without soon
reaching the limit of our reserve
power.

Better not let it go on this far.
Much wiser to take Ferrozone when
that tired, enervated feeling is first
noticed. Nervous collapse is avoid-
ed in this way. If you feel the need
of rest, but can't get it because of
overwrought nerves, nothing in the
world will do you so much good as
Ferrozone, which is noted for
promptly restoring perfect health in
just such cases as yours.

Perhaps you wonder how Ferro-
zone does this. The first result of
Ferrozone is a better appetite.
Everything you eat is digested and
properly assimilated. The natural
outcome of this is the formation of
pure blood the fundamental basis of
health. When the body is given a
new supply of blood the circulation
is quickened. This gives the weak
nerves something to feed upon; they
quickly lose their sensitiveness, and
your old irritable companions be-
come a help instead of a drawback.
Pretty soon you begin to feel the vim
and buoyancy that Ferrozone always
brings. Your strength increases,
you can work longer, toil harder,
sleep better than ever before.

If half the pale, nervous people
could only realize how beneficial
Ferrozone is, there would be a lot
more happiness in the world. No
remedy applies so directly to the
peculiar ills from which women
suffer. It is a specific for anemia
and brings a ruddy glow of health
to pale cheeks in a remarkably short
time. In all diseases arising from
impairment of blood or nerve tone
in cases where a tonic is needed to
stimulate appetite and digestion,
nothing is more helpful than Ferro-
zone. It replaces tiredness and lack
of energy by a reserve of force, and
maintains such a healthy condition
of the system that sickness is impos-
sible.

Every person, man, woman or
child who wants more strength,
more flesh, stronger nerves, purer
blood, should use Ferrozone. Price
