

## To Build Robust Health

start at the foundation of life and health. Assist your organs to do their work properly. Food and drink cannot nourish if your liver is not working right. Dyspepsia and Indigestion follow if your digestive organs are out of order. Constipation cannot exist if your bowels are free. A short course of Beecham's Pills will soon put you right and an occasional one will keep you so.

## BEECHAM'S PILLS

## NOTES FROM BENTON.

BY CALVIN GREEN.

Your correspondent spent two very profitable days in the above village. Among other things of note that have transpired during the week just passed are the following which I trust may interest your many readers:—

Thomas Carroll paid a flying visit to Woodstock last week in the interests of the Maritime Drug Co.

I also note that Bruce McElroy has made extensive repairs on his residence on Main street. Wm Day has placed a large ell on his residence. Fraser Veness has erected a wagon shed, and Mrs F Teed a new house. These buildings greatly improve the appearance of the village.

Franklin McNally, deacon of the Baptist church, has moved across the river in the house lately vacated by Mrs Addie Mullis.

Miss Lida Deakin, an enthusiastic worker in church and social circles, has taken a position on the nursing staff of the Woodstock hospital. Her sister Emma takes her place as organist of the Baptist church.

Gordon Turner, the popular clerk of D W Olts, who has been troubled of late with acute rheumatism, leaves next week for the Woodstock hospital to be under the direct care of Dr Griffin.

Harvesting is nearly complete as to grains. Potatoes and other vegetables are still in the ground. Fruit in the vicinity is reported an ample crop.

Fred R Blair, C P R operator here, has returned from a two weeks' vacation to Laundry Lake. He says extensive fishing operations are carried on there.

J W Speer of Calgary, Alta, was married on the 19th inst to Ella Wright youngest daughter of Alfred R Wright of this place.

I enjoyed last Friday evening with a pleasant fishing adventure on the shore of Eel river. It has truly been well named as one hour's fishing resulted in a good catch.

I visited the mill of Percy Grosvenor and found them sawing, daily on an average, 25,000 feet of lumber. The advantage given in loading at the depot forms an extra incentive to the operation.

One fault I found with the young people and that is their craze (must I say) for dancing. One evening a party set off on a journey of upwards of 15 miles for the sole purpose of meeting together in a social dance.

A funny incident occurred to Chas Marsten on Friday. While hunting up the pond he spied and fired at a deer succeeding in breaking its leg. Running up he jumped astride of the buck, which being still lively gave Charlie such a flip as to stretch him senseless on the grass. When he awoke the deer had disappeared. The laugh is on Charlie. What a fish story when he arrived without a bruise!
