

THE GREATEST ARTIST VISITING CANADA USED THE GERHARD-HEINTZMAN PIANO.

Mme Lillian Nordica, at her recent Concert at Windsor Hall, Montreal, used a Gerhard-Heintzman Piano, and it was pronounced perfect in every respect.

The W. H. JOHNSON CO., Limited,
7 Market Square, St. John, N. B.
Are Sole Agents for this Celebrated Piano for the Maritime Provinces.

WOODSTOCK WOODWORKING COMPANY, L'td,

Rev. J. C. Berrie Pleases.

The Orillia (Ont.) Times, April 14, says: "Rev. John Charlton Berrie, of Jacksonville, N. B., President of the New Brunswick and Prince Edward Island Conference, preached the anniversary sermon for the Woman's Missionary Society last Sunday. He is a preacher of exceptional ability, and delighted the congregation which gathered to greet him. On Monday night another large audience assembled to listen to his lecture, 'Some of My Acquaintances, Where and How They Live.' For an hour and a half he described the beautiful scenery, climate, industries, resources, people, etc., of New Brunswick and Prince Edward Island. He gave a most interesting account of the work of the various denominations, giving full credit to all for the work accomplished. Mr Berrie is a man of fine presence, ripe scholarship and culture; he has made a most favorable impression, and won the sympathy and good will of all who were privileged to hear him and make his acquaintance. It was a treat Cold-water people will not soon forget. The W. M. Society are delighted with the success of their anniversary."

A Resolution of Sorrow.

The church wardens and vestry of St. Luke's church passed the following resolution:—
That we, the members of this corporation, desire to express and put on record our deep feeling of sorrow at the death of our late friend and fellow member of the church in this parish, Mr Richard Cluff. During the many years of his life spent in this community he won and maintained a character for uprightness, peace-loving and useful citizenship. He was for many years a most valued member of this corporation, always helpful in the advancement of the church's interests. He was a regular and devout communicant and a liberal supporter of the church to the utmost limit of his means. We would extend our heartfelt sympathy to Mrs Cluff and other members of his family in their time of deep bereavement.

Pilgrimage to St. Anne de Beupre.

On the twenty eighth of June, prox., a specially arranged Excursion will leave Woodstock for Quebec, St. Anne de Beupre and Montreal, and all who can should take advantage of the cheap rates offering to enjoy an outing both pleasant and instructive.

While it is especially intended as a Pilgrimage to the famed shrine of St. Anne de Beupre, the general public are given the advantage of the low rates to the above mentioned places, and doubtless a very large number will avail themselves of the golden opportunity.

The fare for the round trip to Quebec and St. Anne's is only \$7.50, and ticket is for one week.

For those desiring to return via Montreal the fare is \$10.50, but tickets this way are good for 10 days.

Watch for further particulars. Meantime make up your minds to see the most historic city in Canada, Old Quebec, and the great shrine of St. Anne de Beupre.

CANADA'S ABILITY TO FEED.

Dominion Statistician George Johnson writes: If Manitoba took a strip of land five miles on each side of her existing railways it would give an area of 14,000,000 acres, which at the average yield of 18.65 bushels per acre, would yield 260,000,000 bushels of wheat, which is more than Great Britain ever imported in one year. If we took the 2,100 miles of railway in the Northwest, beyond Manitoba, there would be another 14,000,000 acres, which would give in all 280,000,000 bushels of a surplus. Taking actual results, in 1902 the yield of 2,000,000 acres was 53,000,000 bushels of wheat. Four times that acreage would give all that Great Britain required and 20,000,000 bushels over.

VANCOUVER LETTER.

The increase of the revenue tax from Chinamen coming to the Dominion of Canada from \$100 to \$500, which came in force on the 1st day of January, 1904, will doubtless be of more benefit to the thousands of Chinamen already in Canada than to anyone else as the greater part of the work done by them in B. C. and other places will not be done by white labor. In the west end of the city alone there are over 100 employed as servants doing house work. Mr Skein, secretary of the Board of Trade, told me that they were more reliable and trustworthy than any white labor, and of the latter there are scarcely any that will take such a position, as they can get better situations at something else. The Chinamen do the greater part of the work in the canneries, and they are now demanding about 30 per cent. more wages than they have been getting. There has been only one payment of the \$500 tax since the law came in force and then not by one of them, but by the C P R Co., who had a number of them in bond from the United States waiting for the arrival of the Oriental steamer to transport them back to the Flowery Kingdom. They were corralled in a car on the siding when one of them had occasion to go into the water closet but had no occasion to come back, as he has not been seen since by any of the officials. Chinese are quick to learn and in learning will follow their teacher very closely. A lady in Victoria was teaching a young Chink to make bread; as she was mixing the dough she noticed her stove was smoking as the pipe was foul. She rubbed the dough off her hands and with his help she took down the pipe and cleaned it, after which she continued mixing her bread. A few days after, on going into the kitchen she found Johnnie, who had commenced mixing the bread, in the act of taking down the stove pipe. She explained 'My goodness, what are you doing. 'I do jus' missie did,' he said. Another time she was teaching him to make cake. She broke an egg into a saucer and put it into a pan; the next one was bad and she threw it into a slop pail. She had such an experience with him making bread, she watched him very closely in the cake business.

8 Cents

Eight cents a pound is what a young woman paid for twelve pounds of flesh.

She was thin and weak and paid one dollar for a bottle of Scott's Emulsion, and by taking regular doses had gained twelve pounds in weight before the bottle was finished.

Eight cents a pound is cheap for such valuable material. Some pay more, some less, some get nothing for their money. You get your money's worth when you buy Scott's Emulsion.

We will send you a little free.

SCOTT & BOWNE, CHEMISTS,
Toronto, Ontario.
50c. and \$1.00; all druggists.

ness. He went all right with the first egg and the next one was good, but before she could stop him—wch! it went in the slop pail.

It is wonderful the number of new buildings that are being erected in this city. Last year there was expended over \$1,300,000 in buildings; some of them are rented before they are finished, and about all are occupied when completed. The prospect for the coming summer is excellent, and if the carpenters and others do not become dissatisfied and go on a strike, no doubt it will be one of the best seasons ever experienced in Vancouver. The new warehouse on Evans, Coleman & Evans' wharf just completed is the largest on the Pacific coast. The building is 500 feet long and 75 feet wide; there are no supporting posts in the interior of the building as the roof is constructed on the truss plan.

At the annual meeting of the Maritime Provinces Association the following officers were elected for the present term: President, John Johnston; 1st vice president, Captain D A McInnes; 2nd vice president, J M K Letson; 3rd vice president, L C De Wolf; T B Crosby was re-elected secretary, R Capetick assistant secretary and Miss Kate Burpee pianist. A vote of thanks was extended to Mr Crosby and Miss Burpee for their services during the last term.

Mr Leslie G B Lawson, city clerk of Moncton, N B, who arrived here about the first of this month in company with Mr J S Magee, mayor of Moncton, died on the 15th inst. In 1897 the deceased was appointed city clerk of Moncton, and until his present trip had not taken a holiday. Shortly after Mr Lawson arrived here he became somewhat irrational and was removed to the Burrard Sanitarium. Deceased leaves a wife and one child, who, with her mother were on their way out here, and left Montreal on the day he died. A message was sent to North Bay, Ont., to intercept them. Mr Magee took charge of the remains and left on the Atlantic express on the 17th inst for Moncton. The Venerable Archdeacon Pentreath, Honorary president of the Maritime Provinces Association, held a short service at the undertaker's parlors. The Association placed a fine spray of flowers on the casket, and a large number of the members followed the hearse to the depot. Mr Magee was much pleased with the city and its surroundings. He said he would never forget the kindness the members of the Maritime Provinces Association bestowed upon him.

RAMBLER.

KNOCKOLOGY.

(From Mahin's Magazine.)

Knock not at all. He that knocketh shall himself be knocked, and with a much heavier hammer withal shall he be knocked than that wherewith he himself did knock.

Yes, if in his advertisements he knocked his competitors, even with a tack hammer, the public shall rise up and knock him with clawhammers and sledges. Yes, verily, they shall maul him with mauls.

The Carleton Sentinel, the oldest provincial weekly, with its large circulation, is invaluable to advertisers.

She—To think that you once declared that you would love me as long as you lived! And now, hardly married a year, and you care nothing at all about me!

He—But, you see, when I told you I would love you as long as I lived I wasn't feeling very well, and I really didn't think I should live long.

The Morning After

NOTICE TO FARMERS!

We expect to resume our business of slaughtering Lambs this season as usual. We shall buy our lambs by the pound, weighing when taken away, which has proved very satisfactory.

We shall continue to pay one cent per pound more for ewes and wethers than we do for buck lambs. We advise weighing all lambs before selling by the head, and see if we are not offering more by the pound for good lambs than they will bring by the head.

Shouting Isn't Proving

In the matter of the so-called Catarrh Cures: Others brag and promise; we perform and prove.

Dr. Agnew's Catarrhal Powder is a powder put in the nostril, not in the mouth. It is not a remedy but the cure, and the healing effect is felt at once. The breath will come freely, filling the system with a new vigor. Colds and Catarrh are relieved, and headache fully cured in ten minutes.

Catarrh of twenty years' standing cured in a few days.

Hon. George Taylor, the well known politician, of Scranton, Pa., writes: Effect of Dr. AGNEW'S CATARRHAL POWDER can truly say was magical. First application cleared my head instantly. I used it according to directions, and I have not had the slightest symptoms since.

Dr. AGNEW'S LIVER PILLS make even a big liver a long liver. For dullness of the skin, eruptions, languor and bowel irregularities, every pill is as good as a physician, although they cost only ten cents for forty doses.
