

THE above picture of the man and fish is the trademark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe.

The cod fish became extinct, it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.

THE COUNTY COUNCIL.

(Continued from second page.)

Mr. Colpitts—There was a friend brought the money to me.

Coun Carvell—I look to me as if this was simply black mail.

Mr. Colpitts—If you are going to convict a man you must lay your information. I have had 14 years experience and I know that.

Coun Carvell—In the McMullen case do I understand you made a seizure of the liquor and then hauled it back.

Mr. Colpitts—I never did. I made a seizure. I supposed the whole building in which the liquor was, was on this side of the line. I found that one corner of the building only about two feet six inches was on the American side. This liquor was in that closet, on that side of the line. I had taken it out of the closet, the man says you have made a mistake you have taken the liquor from the American side. I can put the county to costs, if you do not put it back, if you put it back I will acknowledge the fine, and pay the fine and costs. I said to put it back. We cannot destroy liquor without service.

Coun Carvell—Do you cross the line?

Mr. Colpitts—Sometimes I do.

Coun Carvell—When the Act is properly I will support it, when it is not I will not. It is evidently run primarily to make money in this county.

Inspector Colpitts was heard. In the Wyman case we had 11 cases the law only allowed a second and ten first offences to be made. We could not put on a third. The law will not allow that in this case. I am very happy to say that I have reason to believe that he has gone out of business and is not selling a drop. There has been a change in the law. An amendment was made at the last session of

the house by which the penalty for the first offence is \$50 and costs or one month in gaol, 2nd \$100 and costs and months and the third 4 months and no option of a fine. Mr. Perkins had 10 cases, it went on for 9 or 10 weeks adjournment after adjournment, witness after witness, out of all the witnesses I think there were seven in all, there was only one who knew anything. The time before this in the case of Wyman we succeeded in proving 8 cases and he paid \$100 and the costs of the eight. The time previous to that we laid 12 cases against him and proved the whole twelve, and he paid \$800 and costs. When we start out with a case we do not know how many we can prove and so we lay a number of informations. Speaking of Mr. Bailey's remarks about drunkenness I would refer him to the difference between Carleton and Victoria counties, and at Canterbury, York, where liquor is almost openly sold. If it were not for the cases on the line this county would be pretty well dried up. As for the attorney Mr. Jones has assisted me in making out the papers and in advising on cases as well as in prosecuting at the trials. I admit making a mistake in putting my salary at \$300 instead of \$100 that was an error of Mr. Jones who made up the statement.

Coun Raymond—There is a report in circulation that one part went to a person in Hartland to settle instead of coming to you?

Inspector—A party came to me about Mr. Perkins saying he would plead to the case, the money was sent and deposited in the People's Bank at Hartland, and I got the money out of the bank in Woodstock.

Coun Raymond—Did you authorize any person to settle with any person for you?

Inspector—Yes, that was after the costs were acknowledged.

Mr. Carvell—At the time you settled you were holding your witness as a prisoner?

Inspector—Yes, I was. I had that witness in custody, but if he had refused to come I could not have forced him. I did not know what he was going to do when he got on the stand. This party said he would pay 8 cases costs and a little over and I thought I had better accept it.

Coun Carvell—I am told that you told this party that you did not want to put him out of business?

Inspector—I never said any such thing.

Coun Carvell—I was told this by two different men that your friend in Hartland told them so.

The Inspector—I want this council to know that I am very careful what I say, no man can say the last 14 years that I ever made such a threat. I have heard that is the current talk of the county.

Coun Williams—Do you believe every man you employ is a reliable man, there is Robert Crandemire skulking about the country, too lazy to work. I would not give much for that man's evidence. The Scott Act has been running for 20 years and now you have more informations and more convictions than ever before.

The Inspector—We have done more work on the lines than ever before.

Coun Carvell—How many cases were tried out in court?

The Inspector—Not many, a good many are settled out of court.

Coun Carvell—In the cases where it is settled does the law allow \$5 for the magistrate?

The Inspector—He could charge a little bit more than \$5.

Coun Bailey—I think the inspector should thank the committee for bringing this question up in order that he might explain. I have not a word to say if the Scott Act is carried out, and I think the inspector might be more careful of his evidence, by a more complete instruction to his detectives and witnesses.

The Inspector—With regard to the man signing a cross and against his name, it looks as if he got somebody to sign his name for him in the one case.

Coun Connolly—I believe we should thank the committee for the work they have done, and I am glad Mr. Colpitts has had an opportunity to make an explanation. I believe Mr. Colpitts is sincere in the work and I am satisfied with the work. I do not think the enforcement of the act should be a matter of dollars and cents, it must be that where there is a deficit or profit.

Coun Phillips—Does the law allow the lawyer and the police magistrate to get their fees whether the case is tried or not.

STOMACH TROUBLE.

The Agonies of Indigestion Can Be Cured By Dr. Williams' Pink Pills.

All over the land there are people whose lives had been made miserable through the pangs of indigestion, who have been restored to the enjoyment of health through the use of Dr. Williams' Pink Pills. One of these is Mr. Wm. Moore, of Welland, Ont. Mr. Moore is the manager of the electric light plant in that town, and stands high in the estimation of the citizens. He says: "It is really a pleasure to speak in favor of Dr. Williams' Pink Pills. For four years prior to 1903 I suffered great torture from indigestion and stomach trouble. I could not eat solid food without experiencing great agony, and for over two years I had to resort to a milk diet. I had grown emaciated and was almost unfit for a live work. I was treated by doctors and took advertised medicines but without any lasting benefit. One day a friend told me to try Dr. Williams' Pink Pills. I began their use, but I must confess that it was without much hope that they would cure me. After taking a couple of boxes I could see an improvement, and this gave me encouragement. I continued using the pills until I had taken eight boxes, when I was completely cured and able to eat any kind of food I desired. I shall always praise Dr. Williams' Pink Pills, as they saved me from such misery as only a dyspeptic knows. I might add that my wife has also used the pills for troubles that afflict her sex, and has been fully restored to health."

Bad blood, poor blood, watery blood, is the cause of nearly every ailment that afflicts mankind. It is because every dose of Dr. Williams' Pink Pills make new, rich, red blood that they have such wonderful power to cure such ailments as indigestion, anaemia, rheumatism, neuralgia, St. Vitus dance, heart troubles, kidney and liver troubles, and the special ailments of woman, young and old. But you must get the genuine pills with the full red color. Dr. Williams' Pink Pills for Pale People, on the wrapper around each box. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Mr. Colpitts—The magistrate can get their fees whether the case is tried or not, but the lawyer is only paid for his services, but there is a great deal of work required from him outside the court.

The Inspector—If there is no objection by the council after my explanation, I would like the report of the committee to be changed a little.

Coun Phillips—I would say he has cleared up the matter about Wyman, and I am perfectly willing to cut out that part of the report.

The report of the committee was then adopted as amended.

Coun Williams on the committee in Dr. Brown's bill reported that they had gone into the matter and recommended that Dr. Brown's bill of \$120 be paid at \$100. (Coun Raymond dissented from finding the committee.)

On motion that the report be accepted.

Coun Gibson (Kent) moved that the matter stand over till June.

Motion seconded.

Coun Williams—Dr. Brown has treated the overseers of Kent with consideration, he has come here with his bill and a sworn statement. He claims that he made a straight agreement with the overseers and they agreed to pay him.

Coun Gibson (Kent) Dr. Brown ought to notified this council so the overseers could make a sworn statement.

Coun Gallagher urged that the matter stand over till June for further consideration.

Coun Carvell did not see what would be gained by having the matter over. Dr. Brown has said that it was at the request of the overseers he brought his bill here.

Coun Raymond—There is some evidence that has not come out, there seems to be a difference as to the trade made between the doctor and the overseers.

Coun Gallagher was told that the overseers said they would pay the bill if it was lawful for them to pay it. Millie Gee was a minor and her father

recently received \$175 in fire damages.

Coun McDonald would vote to pay the bill. The doctor has acted fair and honorable.

Coun Jameson—I understand the bill is to be paid by the parish warden, the claim being on the parish.

Coun Gibson (Wicklow) We wanted as a committee to do what was right. The doctor's bill was \$120 and when he came down to \$100 we agreed to do that.

Coun Phillips (Peel)—It appears the poor masters were well aware that Dr. Brown was going to bring this matter up.

Coun Bell (Richmond) thought it was too bad for Dr. Brown to remain out of his money.

Coun Bell I think the bill should be paid some way or other.

The amendment that the matter lie over till June was lost and the original motion that the bill be paid. Carried.

Moved that the Scott Act inspector's salary be the same as last year.

Coun Bailey Since last year the inspectors have been employed by the town. With the salary he now gets from the county I think he should give his whole time to the work in the county.

The Inspector—I think I gave the county good service last year.

Coun Connolly—Did you require to neglect any duties outside to attend to the work in town?

The Inspector—I do not think there was a dollar's difference.

Coun Raymond—Whether there is a surplus or not the act should be rigidly enforced. Motion carried.

Dr. Rankin and Rev. F. J. McMurray on behalf of the Hospital Board were heard.

Dr. Rankin explained that whereas the reputation had generally come before the board asking for assistance, that was not so on this occasion.

The board appreciated the generosity of the council and he was here with Rev. Father McMurray, who had proved a worthy successor on the board of management to Father Chapman, to explain the condition of the hospital in which they were so much interested.

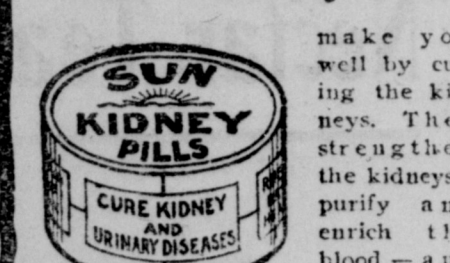

Dr. Rankin then quoted figures from the printed report showing that the hospital is, under its present management, thriving, being managed on thoroughly business principles, and growing in favor among the people. There was some talk of making a move to have Victoria county join in with this county, so that at the expiration of the present lease, when it was necessary to get into larger quarters, as it might be, the burden would be shared by the up river county.

Rev. Father McMurray also spoke of the generosity of the council. To alleviate the sufferings of the sick always appealed to the sympathies of all good men and women. It must be satisfactory then to the councillors to feel that from the showing of the report and from the excellent reputation this hospital had, it was an institution, in every way worthy of their support. He thanked the council for the general

Kidney Trouble and Good Health You Can't Have

When the kidneys are sick, the whole system is sick. Instead of throwing off Uric Acid, the weak kidneys retain it—the blood absorbs it, and whisks it to all parts of the body. It is Uric Acid that causes headaches, dizziness, nervousness, swollen hands and feet, rheumatism, loss of sleep and appetite, that so many suffer with.

"Sun" Kidney Pills

make you well by curing the kidneys. They strengthen the kidneys—purify and enrich the blood—and put the whole system in a fresh, invigorated condition. For all Kidney and Bladder Troubles, Rheumatism, Headaches, Nervousness and Female Troubles, "Sun" Kidney Pills never fail.

ALL DEALERS. 60c A BOX.

donation and was sure that the council in the future would not be less generous.

On motion—Coun Williams a vote of thanks was passed to the delegation from the Hospital board for their attendance and interesting addresses.

Bills ordered paid.

William Dibblee—\$115.00

Costs 23 cases Scott Act.

W. P. Jones \$35.00.

Coun Raymond—The 19th century has been termed by great financial prophets the century of the United States, the 20th century the century of Canada. I have a resolution to move in regard to the mail service.

He then read a resolution as follows:

Whereas the mail service of any county adds to or diminishes its business possibilities according to its efficiency, therefore it is of the greatest importance that a young and growing country such as ours that is striving in competition with the world for its share of trade should have the best possible mail service.

And while we have noted with pride the improvements which have been made in said service from time to time, yet we are of the opinion that a very great improvement can be made in the mail delivery, therefore Resolved, that this municipality of Carleton should give a free rural mail delivery, and further, we are of the opinion that such service can be given by a very little additional cost to the present system, namely by cancelling small post offices and increasing delivery towns.

I therefore move Mr. Warden that you name a committee to draw up a petition memorializing the federal government to grant the prayer of this resolution in view of the fact that the same be also sent to the P. O. Inspector Dr. Colter, St. John.

Coun A. C. Bell seconded the resolution. Carried, and following com-

Soaps Containing Injurious Chemicals Eat Dirt but they also Destroy Clothes

You've probably used soap that cleaned your clothes quickly but have found out afterwards that it had destroyed them.

Sunlight Soap

is guaranteed to be absolutely pure, containing no ingredient that will injure the delicate fabric.

It washes equally well in hard or soft water without boiling or hard rubbing. Follow the directions on the package and you will have a more successful wash with less labor.

Your dealer is authorized to refund the purchase money to anyone finding cause for complaint.

mitter appointed, Couns Raymond, Bell (Richmond) Bailey.

The payment of the parish clerks charged to the several parishes was then respectively moved and carried.

Wilmot \$2, Peel \$2, Wakefield \$1, Simonds \$3, Wicklow \$2, Woodstock \$2, Aberdeen James Miller paid for his services for 1904-02, Northampton \$2, Kent \$2.00.

\$1.20 overpaid tax was ordered refunded to William A Taylor.

Simonds Parish Clerk, Brighton ordered paid \$2.

For Parish Kent, following persons be paid on roads:

To John Ryan \$28, Daniel Dugan \$21, Morris Price \$7.50.

The various parish lists of officers were then confirmed.

Road Commissioner Wicklow paid as follows: C. W. Gee \$15.75, H. L. Olmstead \$5.10, C. J. Kinney \$5.11, John Reid \$22.11.

Richmond—J. R. Merrieth \$10.95, Hugh Dalling \$12.22.

Aberdeen—John Nixon \$5.50, Alfred Rowley \$2.21.

Parish of Woodstock, Arch Plummer \$20.00.

Wilmot—Fred Anderson \$0.11, J. E. Long \$2.50, A. C. Gibson \$1.91, Charles Murphy \$0.55.

Wakefield—Norman Hoyt \$6.25, J. R. Mallory \$23.87, Judson Briggs \$50.01.

Following amounts ordered assessed for poor in various parishes: Peel \$120, Richmond \$300, (\$2.50 pd R. Irvine for last year's services), Wicklow \$350, Woodstock \$600, Aberdeen \$200, Wakefield \$600, Kent \$100, Wilmot \$50, Brighton \$50.

Assessors and collectors of parishes paid the same as last year except when special motion to the contrary was made. Revisors to be allowed the same amount of money as last year.

On motion of Coun Connolly seconded by Coun Bradley and passed, That \$30 be assessed on Brighton, 28 to pay Gilbert Stockford for land damage for (Continued on sixth page.)

YOUR EYES TELL THE STORY

Sparkling, bright eyes indicate vigor and health. Drooping, weak and watery eyes show some internal ailment which in ninety cases out of one hundred is a weak heart. When the heart becomes weak, the blood thickens and moves sluggishly and the organs become diseased for want of a proper stimulant. Some invariably trace these ills to a weak heart.

DR. AGNEW'S HEART CURE has saved the lives of many heart troubled people. It gives strength and health to the body through its action on the heart and relieves the severest attacks in thirty minutes.

Mrs. Mary Johnson, Georgian Island, Ont. writes: "Send a bottle of Dr. Agnew's Heart Cure as quickly as possible. I have used it before and it is the best Heart Cure I ever tried. It gives relief in ten minutes and is excellent for Stomach and Nerves."

Dr. Agnew's Liver Pills 40 doses 10 cents, are not only the cheapest, but best pills made.

During the twelve months ending the 30th ult the export of gold from the Cape showed an increase of nearly £2,500,000 over the corresponding period of last year.

We Offer \$1,000

For a Disease Germ That Liquezone Can't Kill.

On every bottle of Liquezone we offer \$1,000 for a disease germ that it cannot kill. We do this to assure you that Liquezone does kill germs.

And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Liquezone its worth to humanity; a worth so great that, after testing the product for two years, through physicians and hospitals, we paid \$100,000 for the American rights. And we have spent over one million dollars, in one year, to buy the first bottle and give it free to each sick one who would try it.

Acts Like Oxygen.

Liquezone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is an absolutely certain germicide. The reason is that germs are vegetables;

and Liquezone—like an excess of oxygen—is deadly to vegetable matter.

Liquezone goes into the stomach, into the bowels and into the blood, to go wherever the blood goes. No germ can escape it and none can resist it. The results are inevitable, for a germ disease must end when the germs are killed. Then Liquezone, acting as a wonderful tonic, quickly restores a condition of perfect health. Diseases which have resisted medicine for years yield at once to Liquezone, and it cures diseases which medicine never cures. Half the people you meet—wherever you are—can tell you of cures that were made by it.

Germ Diseases.

All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma—Anemia—Bronchitis—Blood Poison—Bright's Disease—Bowel Troubles—Coughs—Croup—Consumption—Diarrhea—Dysentery—Hay Fever—Influenza—Jaundice—Lancet—Liver Troubles—Measles—Neuralgia—Migraine—Nervousness—Pneumonia—Quinsy—Rheumatism—Scarlet Fever—Scrofula—Syphilis—Skin Diseases—Stomach Troubles—Throat Troubles—Typhoid—Typhus—Zoster.
