

"Pinto" Shell Cordovan

Used in H.B.K. Mitts, Gloves and Moccasins—tough as whalebone, flexible, soft, pliable, scorch-proof, wind-proof, boil-proof, crack-proof, tear-proof, rip-proof, cold-proof, almost wear-proof—certainly the greatest leather ever used in mitts and gloves.

Like buckskin it is tanned without oil, unlike buckskin it is not porous, it is wind-proof—will outwear three buckskins.

"Pinto" Mitts and Gloves never crack or harden, never get soiled, are always warm, pliable, soft and comfortable.

Sold at all dealers but never without this brand:—

For Piles.

Sample mailed free.

Humphreys' Homeopathic Specific No. 23, in use over 40 years, the only successful remedy. \$1 per vial, or special package for serious cases, \$3. Sold by Druggists, or sent prepaid on receipt of price. Humphreys' Med. Co., William & John Sts., N. Y.

A little girl, daughter of a prominent Liberal in Ontario, and who has been taught to pray for everybody, recently startled her mother one evening by her devout prayer, as follows:—"Now, O God, take care of yourself; for if we lose you, we shall only have Laurier left to take care of us, and he is not doing as well as papa expected he would do."

MESSRS. C. C. RICHARDS & CO., Gentlemen,—Last winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of La Grippe, and I have frequently proved it to be very effective in cases of inflammation.

Yours,
W. A. HUTCHINSON.

The man who borrows money often borrows trouble.

The rose is red, the violet's blue—and so is a man when his nose comes due.

The majority of our mistakes would never be noticed if we did not call attention to them.

A Jurymen who appeared before Sir James Hannen in a London courtroom recently was in deep mourning and claimed exemption from service on the ground that he was interested in a funeral that day at which he desired to be present. "Oh, certainly," said the courteous judge, and the man walked sad-faced away. "Do you know the man you exempted?" asked the clerk. "No," said Sir James, "He is an undertaker," was the reply.

As a Convalescent Food.

Mr Wyman N. Thomas, Omphah, Addington Co., Ont., writes:—"My wife had congestion of the lungs along with other troubles, and became very weak and run down. By the use of Dr Chase's Nerve Food she was made as strong and well as ever. Of course I had a doctor, but she was weak, and it was Dr Chase's Nerve Food which built her up."

Father (showing off his baby boy to bachelor friend)—Well, what do you think of him? Fine boy, isn't he?

Bachelor Friend—Yes, very fine boy; but he's bald. But then (glancing at the father's bald head), children are not satisfied now-a-days unless they can begin where their fathers left off.

Use Lever's Dry Soap (a powder) to wash woollens and flannels,—you'll like it.

A lady entered a railway station not a hundred miles from Edinburgh the other day, and said she wanted a ticket for London. The pale looking clerk asked—"Single?" It ain't any of your business," she replied. "I might have been married a dozen times if I'd felt like providin' for some poor shiftless wreck of a man like you."

Minard's Liniment Cures Garget in Cows.

Lord Roberts on the 20th ult., unveiled a memorial tablet at the Staff College, Camberly, to 27 officers who fell in the South African War. He referred to Spion Kop, and expressed the opinion that had Major-General Woodgate been spared a little longer the result of that eventful day would probably have been different. He received his mortal wound at a time when the leadership of a very determined man was most necessary.

A London paper asserts that "in their native wilds," the people of Fife are known as "Whistlers," not on account of their musical proclivities, but because their country takes its name from a very highly-pitched musical instrument, between which and a "whistle" the Caledonian ear distinguishes little difference. This will be news to Fifers.

"HOTEL FOR SALE."

A new and modern equipped Hotel, Heated by Hot water, Lighted by Electricity, Up-to-date Bath and Sample Rooms, First class stable, and all other modern conveniences. Good business already established. This is an opportunity to make easy money.

I have also three Private Dwellings for sale and others to let. I have recently sold two Farms and the purchasers to-day would not take \$1000.00 for their trade. I have yet Three for sale.

Don't wait, the property must be sold and sold cheap and on easy terms.

J. W. Astle, General Insurance and Real Estate Agent, Woodstock, N. B. 3mos-3.

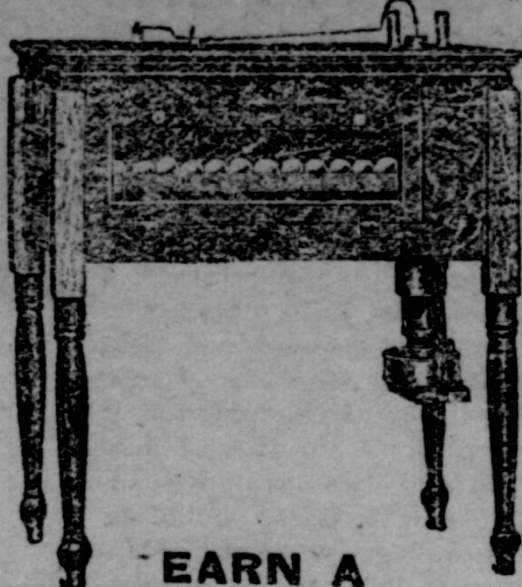

IT IS DANGEROUS

to neglect Catarrh. Severe and fatal cases of Pneumonia, Bronchitis and Consumption, all develop from what many people term an insignificant attack of Catarrh. The mind becomes dull and stupefied, you cannot think clearly, you cannot sleep well. All food tastes alike, your senses of taste, touch, hearing and seeing are all affected. Catarrh envelops your entire system. It is a dangerous malady, why delay treatment. Nip it in the bud with

DR. AGNEW'S CATARRHAL POWDER It gives instant relief, and positively cures the severest cases after a short steady treatment.

Rev. F. J. Frey, 20 E. North St., Buffalo, writes: "I am pastor of the Maple St. Baptist Chapel in this city. I have used your Dr. Agnew's Catarrhal Powder, and it has done wonders for me. Refer the public to me as to the worth of this remedy. It has cured me of the worst form of Catarrh."

Dr. Agnew's Ointment relieves in a single night eczema, tetter, salt rheum and all skin diseases. Price 3c.

EARN A Comfortable Living WITH A Chatham Incubator

Poultry raising with a Chatham Incubator is a very profitable and easily managed occupation. Unless you want to go into it extensively it need take but very little of your time. Government reports show that the demand for chickens in Canada is greatly in excess of the supply and Great Britain is always clamoring for more. That means a ready market and good prices for chickens.

You cannot raise chickens successfully with a setting hen. She is wasting time setting when she should be laying. While she is hatching and brooding a few chickens she could be laying five or six dozen eggs. The percentage of chickens she hatches is much less than that produced by the Chatham Incubator.

It will pay you to own a Chatham Incubator.

Chatham Incubators contain every improvement of science in incubator construction that has been produced. They are made of thoroughly seasoned wood, with two walls, case within case. Between these walls mineral wool is packed forming the very best insulation. Each piece of the case is mitered and grooved and screwed, making the whole as solid as a rock. Chatham Incubators are equipped with scientifically perfect regulators which are an infallible means of regulating the temperature.

No cash to pay until October, 1905.

We will start you raising poultry for profit with a Chatham Incubator without one cent of money from you until next Fall. That means that you can take off seven or eight hatches and make considerable money out of the incubator before the first payment becomes due.

We couldn't make this offer if we were not certain that if you accept it you will get complete satisfaction, if we were not positive that the Chatham Incubator will pay you a handsome yearly income.

This is a straightforward offer. We make it to show our supreme confidence in the Chatham Incubator. We want you to accept this offer as we are sure of the satisfaction our Incubator will give. Every machine we have put out so far has made other sales in the same neighborhood.

Our offer is to send you a Chatham Incubator at once, freight prepaid by us without one cent of cash from you. You make your first payment in October, 1905. The balance to be paid in October, 1906, or if a Cash Buyer you get it cheaper. Could any offer be fairer or more generous?

Write us to-day for full particulars of our offer and I mention this paper. Don't put it aside for another time as this special proposition may be withdrawn at any time.

The Creation of a New Province.

Ottawa January 17—Premier Haultain and Hon Mr Bulyea of the Territorial Government, have closed their conferences with Sir Wilfrid Laurier on the question of autonomy for the North-west Territories. Mr Bulyea, who is Commissioner of Public Works for the Territories, said last evening:

"Our proposition is before the Government and has been for some time. We ask for the creation of the Territories into a province and a subsidy of 80 cents per head of population, the same as other provinces. We also desire to secure Dominion lands, so that we may be able to augment our revenue. Any arrangement which might now be made would not of course be permanent. Our present population is about 400,000. Five years from now it may be double that number, when a readjustment would be necessary or great injustice would result. We have no school question on our hands and do not expect any. Protestants and Catholic teachers qualify before they teach in the public or separate schools. In some instances where the ladies of religious orders desire to give instruction they have qualified at the normal school. If the Government should decide there must be two provinces that is their affair, but as I have already said, we only ask for one.

FROM THE SUNNY SOUTH.

To the Editor of Carleton Sentinel:

Forsyth, Ga., Jan. 17th, 1905.

I have just taken in your contents of the 13th inst., and have been amused, instructed and entertained. Office seekers still squabbling; the political pot still boiling—a good way to cleanse and purify is to boil and skim until all the dross has been removed then you can rely on what is left as pure, so perhaps you had best keep shovelling in the coal and let the pot boil until all the dross is removed and wise and good government holds the reins in your grand old town and county. I don't mean to say the administrators for 1904 of your town are guilty of intentional wrong, but sometimes "Little foxes creep in and spoil the vine." Sometimes good men are sidetracked by sharp designers and thus good men are caught in bad company, as the yankee soldiers in Sherman's raid told me while I pleaded my own cause hoping to save my mill and tannery from being burned, "you are in bad company," so my property went up in smoke like hundreds of others who were found in his way on his famous march through Georgia to the sea.

I am sorry to see the son of my old friend, Wm Lindsay, appears to be on the wrong side of the political fence in New Brunswick. I refer to your mayor. I want to invite him to quit his errands and come over and join the progressive side—a side that means push and success and up to the times and keeping pace with the twentieth century stride. I don't remember which side his father took but I think he was a liberal. If he was his good boy has somewhat changed the wise man's proverb, "Train up a child in the way he should go and when he is old he won't depart from it". However this man is not old yet so we can't tell but he may change before hoary hairs adorn his brow. God help all erring men as well as women to face about and get on the right track to success and glory.

I have been reading the SENTINEL I suppose for sixty years and its teachings, together with my sainted father's example and zeal for the liberal party during his long life, gave me such a training that the Bible injunction is sure confirmed in me, and is there to stay as long as there is a plank left of the old ship, and my head keeps above ground.

I hope I have not said too much nor lost a friend. I want to love all mankind but I do not like some peoples actions, theories or religion. You see at long range I can afford to be a little saucy.

We are having some quite cold weather in Georgia; we have had ice several days and the temperature has been as low as seventeen above zero. That makes a Georgian draw his coat close and tie down his car-pads, but this scribe is never troubled with cold ears but they are a little dull of hearing for a boy of my age.

Cotton still keeps dropping and farmers are organizing for self defence but the bears hold the reins yet; we hope relief will come in some way soon for business is depressed.

ONE OF YOUR OLD BOYS.
