WOODSTOCK, SATURDAY, JUNE 24TH.

A Perfect Fit!

The assurance of a stylish, properly made garment, means much to the successful business man—his appearance having had something to do with his success. The quality of the material as well as his close attention. He is not satisfied with the one, he will have both.

IT PAYS TO
DRESS PROPERLY.

Besides you owe it to your friends that your personal appearance in the matter of dress is not neglected.

W. B. Nicholson,
Importing Tailor.

Agent for Dr. Deimel Linen-Mesh Underwear. Best in the world.

News from the Country.

Andover.

Mrs Geo T Baird and Mrs Frank Saddle left on May 30th for a trip to England. Mr Baird accompanied them to Montreal from where they sail via C. P. R. steamer.

Rev G Alder and family left here on Thursday to reside in Woodstock, where Mr Alder is to be curate for Archdeacon Neales; the family made many friends while here who are sorry to see them leave.

An entertainment or rather a birthday party in aid of the Methodist church parsonage fund was held in Beveridge's Hall Saturday evening the 27th and the sum of fifty dollars realized; a very interesting little programme was carried out.

Miss Hazel Kilburn from Carleton Co is the guest of Miss Gertrude Tibbits.

Invitations are out for the wedding of Miss Bessie Larlee, Perth, to Mr Palmer O P R brakeman to take place early in June.

Mr and Mrs Wm Hoyt have returned from Edmundston and reopened their house again.

A MacKenzie spent Sunday in Andover with his family.

Miss Mae Waite is at Arcootook Jet nurse to Mrs D Hopkins who is very ill with nervous prostration.

The horse of Dr Earle took fright from the circus posters and backed the carriage with the doctor and Capt Earle over the bank down into river, doing a good deal of damage to the carriage but the occupants and horse escaped uninjured.

Miss Bessie Scott is home again for the summer vacation.

X. Y. Z.

Benton.

Michael Kelly, the blind orator Grand Lecturer of the S of T delivered his very enthusiastic temperance lecture in the Baptist Church on Monday evening. Rev Mr Hudson was present and opened the meeting by Scripture reading and prayer.

A very large and attentive audience were present. Mr Kelly's remarks and his strong temperance sentiments will not soon be forgotten.

The Episcopal Church has received a coat of paint which has improved the appearance of the exterior of the neat edifice.

Arscott & Co have announced their intention of removing their tanning business from here. The news is received with much regret by residents.

Murchie's drive has got in and the mill has on a night crew. Both day and night the logs are being changed into lumber. The crew will saw part of the season at Deer Lake.

The farmers have about finished their seeding.

X-RAY.

Carl Beck, M D, Professor of Surgery in the New York Post-Graduate Medical School and Hospital, visiting surgeon to St Marks Hospital and the German Poliklinik Hospital, speaks concerning the x-ray as follows:—

The discovery of the wonderful rays was not a mere lucky hit, but represents the result of indefatigable scientific research. That electric induction obeys the same laws as those governing the diffusion of light waves and that the speed of transmission of the electric waves is equal to that of the light waves has been proved before Rontgen.

Hertz of Bonn found in 1892 that these rays penetrated gold leaf. His experiments were continued by Leonard his assistant but it was reserved for Rontgen to lift the veil.

The proofs of the great usefulness of the rays in surgery as well as in medicine are now overwhelming, especially in the better understanding of fractures a revolutionary metamorphosis has taken place. It was not an agreeable feature of the rays that they soon told most impolitely how often we have erred in the true recognition of the various fracture types.

For those surgeons, however, who soon appreciated the incalculable value of one of the greatest discoveries of all times, the increasing capacity of recognizing their own errors has become a continuous source of scientific satisfaction, which found its culmination in the blameless results of cases "Oursights," says Addison, "is the most perfect of all senses," and the small flock of Thomases who imagine, that by virtue of their own especially developed palpatory talent, they can do as well judge any fracture without the aid of the Rontgen rays will not escape in share the fate of anti-septicians and of obstructionists in general.

In internal medicine the rays are also more and more appreciated to their full value. For the expert they prove to be of incalculable service in the diagnosis of many obscure ailments. Besides their diagnostic properties the x-rays exert undeniable therapeutic effects. It is marvellous that many affections, previously recognized as incurable, yield promptly to this treatment.

Fractures and dislocations are shown as they really are in life. Accuracy takes the place of ignorance and doubt and painful manipulations cease to be necessary for diagnostic purposes. Even the most skillful experts in fractures are unable to deny that there are a large number of bone-injuries, the character of which could formerly not be recognized on account of the swelling of the area involved or of the obscurity of the symptoms. The number of cases of fracture formerly mistaken for contusion or distortion was enormous. It is in such a case that a simple glance with the fluoroscope furnishes the most precise evidence.

County Council Meeting.

The regular June meeting of the County Council of the Municipality of Carleton will be held at the Court House on TUESDAY the twentieth day of June next, at 10 o'clock in the forenoon.

Dated this Thirtieth day of May, A. D., 1905.

J. C. HARTLEY,
Secretary-Treasurer.

"Oh, doctor," exclaimed a rheumatic patient, "I suffer dreadfully with my hands and feet." "But, my dear sir," rejoined the physician, "just think how much inconvenience you would suffer without them."

Ayer's

Why is it that Ayer's Hair Vigor does so many remarkable things? Because it is a hair food. It feeds the hair, puts new life into it. The hair

cannot keep from growing. And gradually all the dark, rich color of early life comes back to gray hair.

"When I first used Ayer's Hair Vigor my hair was about all gray. But now it is a nice rich black, and as thick as I could wish."—MRS. SUSAN KLOPFERT, Tusculum, Ala.

Put a bottle of Ayer's Hair Vigor in your medicine chest.

Prepared by J. C. Ayer & Co., Lowell, Mass.

Gray Hair

FOR THE

Hay-Making Season.

NOTICE.

SEALED TENDERS, marked "Tender for Consolidated School Building, Florenceville," will be received by the undersigned Trustees until Thursday, the 15th day of June, 1905, till 6 o'clock, p. m. for building, heating plumbing and painting a School Building, according to plans and specifications to be seen at the office of any of the undersigned Trustees.

Two tenders are required—One tender for a Brick Building according to plans and specifications and another tender for a Wooden Building according to plans and specifications.

Each tender must furnish with tender two approved sureties of One Thousand Dollars each, who will become responsible for the entering into and the faithful performance of the contract according to said plans and specifications.

Not obliged to accept the lowest or any tender. Work to be commenced as soon after opening of tenders as possible.

R. F. SMITH,
J. N. PERRY, Trustees.

D. W. ROSES,
Florenceville, N. B., May 25, 1905.—31-21

Notice to Farmers.

•••

We expect to resume our business of Slaughtering Lambs this season as usual at Houlton, Me. We shall buy our lambs by the pound, weighing them when taken away, which has proved very satisfactory.

We shall continue to pay more for ewes and wethers than we do for buck lambs. We advise weighing all lambs before selling by the head to see if we do not offer more by the pound for good lambs than they will bring by the head.
