FARM FOR SALE

In Northampton 2 1/2 miles below the Wood-
stock bridge. This farm contains 450 acres of
land well watered and wooded with hemlock,
hardwood and spruce, with a nice bunch of
sawing pine, five barns, good house, water
running in barn and house, good orchard,
large intervals. Would make two good
farms. Cuts 750 or 80 tons of hay. There is a
winter road running across the centre of
these lots 2 miles from the river. Thousands
of cords of bark and wood are hauled on this
road every winter.

PURCHASE OF HORSES IN CANADA FOR THE IM- PERIAL ARMY.

A great deal of misunderstanding
having arisen concerning the objects
of the Imperial Government in send-
ing officers to this country to pur-
chase horses, or rather to see if
horses suitable for the British Army
can be purchased, the following
short summary of the position should
prove of value. This statement may
be regarded as absolutely correct
and authoritative.

First and foremost, the demands of
the British Army in peace time can
be easily met within the four corners
of the United Kingdom. That de-
mand is not large, and may be taken
as a normal one of 2,500 horses an-
nually, rising to certain years to
possibly 3,500 of all kinds and classes.

There is an idea abroad, and cer-
tain ministers and statesmen in this
country have brought it forward and
may be considered responsible for it,
that if the Imperial Government will
purchase annually a fixed number of
horses, say from 300 to 500, in Canada,
a great stimulus will be given to
horse breeding generally, and to
breeding of the military type of
horse in particular.

Failing in with this idea, the Imperial authorities
are anxious to put it to the test, and
for reasons of their own, they fully
recognize the advantage that will
accrue to the Empire from the open-
ing up of a large and limitless mar-
ket that can be drawn upon to meet
the immense demand that will be
created in time of war. The real
question then that has now to be an-
swered by the practical experience of
purchase during the next few
months, is, can suitable horses be
procured, and at an average price
that will, when the horses are landed
in England, favorably compare with
that paid for remounts throughout
Great Britain and Ireland?

The average price paid in England
is an open secret; it is £10, or say
\$8.00. The cost of freight and insur-
ance will certainly not exceed an-
other \$50, leaving \$150, or possibly
slightly more, to be paid for the
animals selected on a given spot.
Higher price can be paid for horses
of special color and type, such as
horses suitable for officer's chargers
and Household Cavalry. It is there-
fore obvious that Canada is on its
trial as to its ability to supply a
suitable horse for Army.

It is, further, of more importance
to Canada than to anyone else that,
as the horses purchased will be re-
garded in England, as well as in this
country, as typical, it will be in
every way a great misfortune if
those sent home are of a cheap and
quality that will engender a belief
that the Canadian horse is of an in-
ferior type. Such a belief will prob-
ably do more harm to Canadian
horse breeding and the reputation
of Canadian horses than anything
else.

Two classes of horses are to be
bought. 1st. Riding horses, fit for
heavy and light Cavalry, from say
15 to 18 hands. 2nd. Draught
horses fit for being driven postillion,
with Horse and Field Artillery. The
latter must not be less than 13 1/2 lbs,
15.2 to 15.3; hands in height, 15.5 to
16.5; active, and with good shoulders
enable them to move fast and even
to gallop, when required; the age
should be from 4 off to 6 years. In
all cases the British Government
require horses with short backs,
good shoulders, plenty of bone and
distinct evidence of quality.

In the case of riding horses, those
with a near cross of the Thorough-
bred are most likely to take the eye
of the inspecting Officers.

The British Army Officers are
in possession of detailed specifica-
tions, showing the exact type and
qualifications of the horses required.

Lord Dufferin's Gallantry.

"T. P." recalls the following en-
tertaining anecdote of Lord Dufferin,
in illustration of his ready wit: Lord
Dufferin was describing to Queen
Victoria the extraordinary feat of a
man who, he said, had leaped
twenty-one feet. Nobody believed
the story. "But," said Lord Dufferin,
"I myself have leaped fifteen
feet." "That is as far as the end of
the table is from Miss—," observed
the Prince Consort, referring to an
attractive young girl on Dufferin's
right. "If, sir," responded Dufferin,
"Miss— were on the other side, I
could leap a foot farther."

AFTER TEN YEARS.

Mr G. L. Stephenson, of Peterborough,
says: "For over ten years I suffered con-
stantly with Piles, first itching, then Bleed-
ing; pain almost unbearable; life a burden.
Tried everything in vain till I used Dr
Leonhardt's Hem-Roid.

"I had taken but a few doses when I be-
gan to notice an improvement. I decided
to keep on, and now after using three boxes
I am glad to say I am completely cured. My
general health has also greatly improved.
It gives me great pleasure to recom-
mend Hem-Roid to all sufferers with Piles, and I
feel convinced that what it has done for me
it will surely do for them."

A \$1,000 guarantee goes with every box
of Hem-Roid. Price, \$1.00, all Druggists,

Easter at the Carlele.

C. J. Tabor of the Carlele Hotel
gave a splendid Easter Dinner. The
spacious dining room recently re-
novated, repainted and repapered,
was artistically decorated with
palms and cut flowers. At great ex-
pense the genial proprietor has
made his house known as one of the
best hotels in the country. The
Easter menu was elaborate. The
dinner is spoken of as one of the
finest ever put on by any hotel in
the province. The Carlele is always
right up to the mark.

A Fish Story.

Boston, April 24—The grandfather
of all codfish, the biggest one ever
brought into Boston within the mem-
ory of the oldest fisherman, was
landed at T wharf by the fishing
schooner E. A. Hooper of Gloucester.
The fish weighed eighty-five pounds
after being dressed, and must have
weighed about one hundred pounds
when captured. It was almost six
feet in length.

The fish was taken near Halfway
Rock, off Marblehead, yesterday
afternoon. One of the dorymen got
a terrific yank on one of his lines
when the big fellow took hold, and
after vainly struggling with the
monster to get him up from the
depths the man hauled one of his
mates to come to his aid. The two
fishermen each took a long pull and
then both pulled together, and this
hove the cod to the surface and he
was successfully gaffed into the
dory.

Entirely Due to Ignorance.

"Yes," said little Perkins, "I've
learned jiu-jitsu."
"Have you, now," said an admiring
chorus. "Wonderful science, isn't it?"
"It is. What is more," he continued,
"I had an opportunity a few weeks
ago of applying an enormous hooli-
gan fellow one night; but I didn't
mind. I just remembered what I'd
learned, and I applied the 'willy-
nilly grip,' which means that you
grab your victim by the right elbow
and the left ear, and, thanks to jiu-
jitsu, you can lead him wherever you
like."

Excellent. That was splendid.
"It would have been, but the hooli-
gan didn't know jiu-jitsu, and so he
picked me up, dusted me against a
lamp-post till I thought every bone
in my body was broken; then he
took what he wanted from my
pockets at his leisure and left. But
I'm not a bit discouraged; you see,
that fellow had never studied jiu-
jitsu; if he had, he would have
known that my hold rendered him
powerless."

A SPRING TONIC.

Dr. Williams' Pink Pills Makes
Strength for Summer.

Every man and woman in Canada
needs to take medicine at this season
of the year. They must have new
rich blood to build them up to bear
the trying heat of summer. Dr. Wil-
liams' Pink Pills are the greatest
spring tonic in the whole world.
Every dose makes new, rich blood—
vigor, energy, life. They transform
weak, weary, anemic girls into
healthy, graceful, well-developed
women. They make debilitated men
strong, lusty and energetic. They
give worn, despondent women new
health and comfort. They do this
every time they cannot fail. After
a course of Dr. Williams' Pink Pills,
every man and woman can withstand
the summer's heat free from back-
ache and headaches, weakness and
despondency. Mrs. M. A. White,
Seal Cove, Que., says: "I cannot
praise Dr. Williams' Pink Pills too
highly. They have not only made a
new person of my self, but have been
of inestimable value in my family. I
always keep the pills in my home
and the result is I have no doctor's
bills; nor have I any delicate boys
or girls, as the pills keep them strong
and healthy. I constantly recom-
mend the pills to my friends, and I
always hear good words from those
who use them."

Dr. Williams' Pink Pills do not act
upon the bowels; they do not bother
the stomach; they do not cause
they simply make new, rich blood,
and thus cure all the common
ailments of life. But you must get
the genuine with the full name Dr.
Williams' Pink Pills for Pale People,
on the wrapper around each box.
Sold by all dealers everywhere or by
mail at 50 cents a box or six boxes
for \$2.50 by writing The Dr. Wil-
liams' Medicine Co., Brockville Ont.

Season of Red Glen.

Red Glen, champion sire of the Maritime
Provinces; sire of Lady Glen 2:15; the fastest
and gamiest race horse ever bred in this
eastern country and that has more races to
her credit than any other equine in the lower
Provinces, and I am quite positive that
Glen 2:15, holds second honors in this
one greatest essential.

Any trotter or pacer that cannot go out and
win the big end of the purse is only a bill of
expense to its owners. Every horseman in
this country knows that the Red Glen stock
is the best money winning stock in this
country and no one expects to get a race horse
that can go out and win the big end of the
money you will most assuredly have to pay
for Red Glen as a sire of a great sire of Red
Glen; hence have not the great speed pro-
ducing properties as Red Glen, being the
mighty Red Wilks, the greatest son of the
mighty George Wilks. Red Wilks has 178
sons and 69 grandsons, including Ralph Wilks 2:20,
which was the world trotting record for six
years. About 100 sons of Red Wilks have
sired over 600 performers, including the
mighty John H. Gentry, 2:00, world's record
for four years; Chas. H. H. 2:01; June 2:07;
Bert Oliver 2:01 and many other fast ones
that could not be mentioned in this space.
The only Red Wilks stallion in the
world that has a faster record than John
H. Gentry, 2:00, showing that through Red
Wilks has been produced the second fastest
equine in this mighty Wilks family.

Red Glen will stand as usual at the stable
of his owner, on Connel street, Woodstock,
N. B. Condition of service: Season of 1905,
\$20, cash or 3 months note, at first service.
Sires coming from a distance will be kept
on hay for one week free of charge.

Sunlight Soap is a well made Soap

The making of soap is no longer a chance mixture of miscellaneous
fats. Expert chemists carefully watch and test every step in the
making of

Sunlight Soap

The fats and oils must be perfectly pure and at every stage of the
process the soap must come up to Sunlight standard. That is why it
cleanses your clothes perfectly, makes your blankets soft and fluffy,
does not destroy your most dainty linens or injure your hands.
Sunlight Soap washes equally well in hard or soft water. Your dealer
