

Is your Coal Wasted or Used?

It is comparatively easy to build a range that will make a lot of heat, but it requires the exact science of Pandora range building to produce a range that will use all the heat in the coal without waste.

A common range may burn twice the coal that a Pandora will, and yet do only half the work.

If you use a Pandora range you can be certain that your coal money is not wasted, but used.

The Terrible Telegram.

"The R. L. Borden three-ringed circus," is the picturesque way the Toronto Telegram describes the conservative Party in the West. The vitriolic Telegram places the blame for all its party's disasters on the devoted head of Mr. Borden. It refuses to see any merit in his Parliamentary work, or sagacity of his leadership. The crushing defeat in Alberta has aroused its enmity afresh. "Put none but Bordenites on guard," it says, "was the motto of the Tories in Alberta. Alberta is the home of many Canadians who would like to put Laurier out, but who would not like to put Borden in. These people could have been won over to the side of Provincial rights in a campaign that preached ideas and created issues."
