### JOTTINGS.

Capt W B Marshall, D.B.A., St. John, was in town Wednesday on official business.

The Perry Patent Steel Sleigh Runner is for sale at the Woodstock Carriage Company's shops, Woodstock, N. B.—31-19.

After the first of next month any stray dog found floating around the streets minus the official tag will be liable to a dose of cold lead without further notice.

Miss Ethel M Gamble of Marysville has been appointed matron of the Carleton County Hospital. She graduated from the Victoria Hospital two years ago, and comes highly recommended.

Before the Telephone Inquiry Committee Senator Thompson and Dr Stockton gave the cheering information that the Bell monopoly did not control the N B Telephone Co. This is news.

Principal Perkins of the Hartland High School is called upon to mourn the loss of his mother. Her death took place on Sunday last at her home in Queens Co. The deceased lady was in her 85th year.

It is announced from Fredericton that Wm Burns, recently appointed junior in the Bank of Nova Scotia in that city, now in the hospital suffering from typhoid, will upon recovery be transferred to Woodstock.

There is no saving in sending your orders to outside concerns. We can print your wedding invitations, calling cards and almost anything you need in our line at lower prices than you can get in other places.—tf-18.

It is again reported that the Bank of Montreal is about to buy out the St Stephen's Bank, and that negotiations are on foot tending towards amalgamation of the Bank of New Brunswick and the Peoples Bank of Fredericton.

The general opinion in Montreal is that Thomas Fyche will retire from the Merchants Bank next month to take a seat on the Nova Scotia Bank's board of directors. The amalgamation of the Royal and the Merchants is expected in the near future.

The SENTINEL wants a good active correspondent at Centreville, Lakeville, Royalton, Richmond Corner, Avondale, Glassville and a few other busy centres. Any person willing to act in that capacity in any section would do well to send his or her name to the office for particulars.

The N B Telephone Co is installing a new Kellogg switch board in their St Stephen exchange. All that is necessary in order to call up Central is to take the receiver off the hook. Why not put in such a system in Woodstock? We can stand plenty of improvements without grumbling.

The Carnival is sure to have a most successful ending this year. The event will be more elaborate than ever. The committees will need larger appropriations than previously given, and in order to make everything come out right it will be necessary for the business men and citizens generally to contribute liberally. Already the finance committee has nearly \$550 to its credit. Without much effort eight or nine hundred dollars should be forthcoming at once. The town treasury is scarcely able to donate anything, although the town fathers might go so far as to guarantee that no bills will be allowed to remain unpaid.

Among the visitors in town Tuesday was Mr Hugh Montgomery of Richmond Corner. His many friends were pleased to see him looking hale and hearty. The SENTINEL was especially glad to enjoy a few minutes with him in friendly conversation.

## Beware of Imitations of the Celebrated DIAMOND DYES.

The Manufacturers of Crude and Weak Dyes Offer Premiums to Druggists and Dealers to Sell Them to Unsuspecting Women.

Diamond Dyes have a most enviable past and present history for successes in home dyeing. Their fast, rich and fashionable colors have made them the most noted home dyes in the world.

The imitation and crude dyes made and sold for the immense profits they bring the makers of such trash, only result in dire destruction to useful and expensive goods requiring recoloring. These adulterated dyes may be tolerated by some sections of our Indian population, but wise, prudent and cultured women select Diamond Dyes when they need pure, full and brilliant colors for home dyeing.

The proprietors of Diamond Dyes are not obliged to offer premiums to druggists and dealers who sell their dyes. Our progressive retailers, whose chief aim is to sell their customers the best dyes, do not ask for special inducements to sell Diamond Dyes; they are satisfied with the profits they make on their vast and daily increasing sales of Diamond Dyes.

It is the manufacturer of the common and crude dyes who is obliged to offer a few paltry cents per dozen to storekeepers to get them to intro-

duce and push their deceptive dyes. It is not the retailer of the common dyes that should be paid by the manufacturers, it is the unfortunate women, who, after using such dyes, find their dresses, skirts, jackets, capes, blouses, ribbons and other materials ruined forever.

Diamond Dyes give the ladies a choice of 48 colors, thirty-two for wool and silk and sixteen for cotton and all mixed goods, each dye guaranteed to do its special work.

Makers of the adulterated dyes deceive people when they tell them that any one of their dyes will color and kind of fabric. Such a statement is stupidly false.

It is asserted by the ablest color chemists that the Diamond Dyes are the only correct and reliable colors for home use, and these experts hold that the theory of special colors for wool, silk, cotton and mixed goods, is the true and correct one.

Seeing that imitation and crude dyes are sold by some dealers, ladies who ask for the Diamond Dyes should see that the name "DIAMOND" appears on each package. Remember, "It's easy to dye with Diamond Dyes."

### JOTTINGS.

Fred D Snider of the I X L Store left for his home in Moncton by Wednesday morning's express. He will be absent about a month. During his vacation the store will be managed by Mr Snow who recently arrived from Baltimore.

The Woodstock Woollen Mills Co are doing an immense business buying wool. They pay cash, and give the highest current rates. Any person having wool to dispose of would do well to write the Company as satisfactory terms and prompt payment may be expected.

W A Gibson, manager in this province for the Imperial Life, was a guest at the Carlisle on Tuesday. Mr Gibson is one of the most successful insurance men on the road. He always takes some applications when he visits Woodstock, and generally manages to place a few of the fat ones at that.

Plans have been completed for the Florenceville Consolidated School building, which will be two stories high with a basement. The playroom will be in the basement, as well as two furnace rooms, a fuel room and boys' toilet. The first floor will contain lavatory, principal's room, intermediate, manual training and cloakrooms. The second floor will have girls' toilet, cloak and teachers' rooms, and an apartment where household science will be taught. The heating will be done by means of hot air.

Word has just been received that the full bench of judges have decided in favor of the Sharples Co in the suit brought against the people who were making the Unede Separators. This latter machine is an infringement on the Sharples' patents and now that the makers of the Unede must go out of business the price of the Sharples machines will soon be restored to something like the old figures. Messrs Dow and Esey the Carleton County agents for the Sharples people have some machines on hand which they bought before the suit was decided. They secured the advantage of low prices. Any person who wants a machine at a low price should write, telephone or telegraph either of these agents without delay.

### GENERAL ELECTION COMING.

There are several signs of an early general election in the United Kingdom. The Right Hon Joseph Chamberlain said in a speech recently that a general election was now imperative, and that the Unionist Government had gained nothing through its delay in appealing to the country. Premier Balfour also delivered an important speech in which he strongly defended the conduct of the Government on all the important questions which had engaged attention. He said nothing about an early general election, but he evidently wished to put the Government right in the eyes of the country before one did take place. It was clearly an electioneering speech, and a strong one, but though he maintained that the country will not turn out the present Government by returning a Liberal majority at next election we believe it will. There is no special wrong-doing, or even short-coming, which can be charged against the present Government, but there are, nevertheless, unmistakable indications that the majority of the electors have got tired of it and wish a change. This desire for a change will be rather increased than allayed by the fact that, so far as we can see, there will be no stirring issue before the electors. Mr Chamberlain's much talked-of tariff reform will not form an issue, for it has not yet been submitted to Parliament in any form, and cannot be so now before it adjourns; and Premier Balfour has said that it can only be considered by the next Parliament. With that out of the way the only issue before the country will be one of approval or disapproval of the general conduct of the Government, and that will concentrate into simple questions of expense and taxation. When you have resolved to kill a dog one stick is as good as another; so that will do, though the Government is no more to blame for the high taxation necessary than the Opposition is. It would appear, however, as if the question of Home Rule for Ireland will be dragged into the contest, and as the Liberals seem still divided regarding that, it is just possible it may again blast the hopes of the Liberals and save the Unionist Government. As Premier Balfour is not undertaking any Parliamentary business that he cannot finish within a month it is thought Parliament will probably be dissolved in June.—Scottish American Journal.
