

## A SPRING TONIC.

Something that will Make Rich  
Red Blood and Drive Out  
Disease.

All physicians are agreed that everyone needs a fresh supply of new blood in the spring. The reason is plain—close confinement in overheated imperfectly ventilated homes and work places, have clogged the blood with impurities. The liver is sluggish; the kidneys fail to perform their work properly. The impure blood is shown in a score of ways. You may only feel a little tired or easily depressed, but these are mere symptoms from which more serious trouble will follow. In other cases impure blood makes itself manifest in pimples and disfiguring eruptions, occasional headaches, a variable appetite, attacks of indigestion or rheumatism, pains in the back and loins. But whatever the trouble, there is only one sure way to get rid of it, and that is through the rich, red, new blood which comes from the use of Dr. Williams' Pink Pills. Every pill you take makes new, rich blood, braces the nerves, overcomes all weakness, drives the germs of disease from the body and gives you vim and energy to resist the torrid heat of the coming summer. Mr. Charles Saulnier, Corbier, N. B., says: "I was very much run down, and so weak I could hardly work. It seemed as though my blood was little better than water. I tried several medicines, but got nothing to help me until I began taking Dr. Williams' Pink Pills. It was simply astonishing how quickly these pills began to help me, and how much new life and vigor they put into me. They have made me as sound as ever I was."

Good blood is the secret of health and strength. The secret of good blood is Dr. Williams' Pink Pills. These pills do not act upon the bowels—their whole mission is to make new, rich, health-giving blood, which strengthens every organ, and every nerve and drives disease from the body. Don't take anything but the genuine pills, which have the full name "Dr. Williams' Pink Pills for Pale People" printed on the wrapper around each box. If in doubt, write the Dr. Williams' Medicine Co., Brockville, Ont., and the pills will be sent at 50 cents a box or six boxes for \$2.50.

There are two good rules which ought to be written on every heart—never to believe anything but about anybody unless you positively know it to be true; never to tell even that unless you feel it is absolutely necessary and that God is listening while you tell it.

## Stomach and Liver Troubles.

"I had itching piles for six years and the doctors told me there was no cure for me unless an operation. Dr. Chase's Ointment completely cured me in one week. As that was six months ago, and there has been no return of the old trouble I believe that the cure is a permanent one."—Mr. J. Mawor, Rodan, Man.

Harry—All right, I'll come this evening; I shall bring my father along.

Harriet—Bring your father! What for, for mercy's sake?

Harry—To entertain your father and keep him away from us.

Harriet—Oh.

## HON. W. P. JONES

Replies to Mr. Flemming, pays his respects to Mr. Smith, and Challenges them to face him at the Polls.

The order of the day being called Hon Mr Jones said: Before entering into a consideration of the financial affairs of the province in reply to the honorable member from Carleton I would like to refer to some length to the recent election in Carleton county in respect to which I have been attacked.

I feel that as this is the first opportunity that has been afforded of dealing with this subject, it is due to myself, to the members of the government and the members of this house that I should state fully what occurred in connection with the Carleton election, so far as the facts came under my own observation. This is the more necessary as it is a matter in regard to which false reports have been published.

The honorable member from Carleton, who spoke yesterday, was pleased to make certain reference to myself personally, and I thank him for them, but I understand that when the question of opposing me was referred to him his opinion was that I should be opposed if I could be defeated, but if not that there should be no opposition. In other words to defeat me if they could do it.

I may say that when my appointment as a member of government was made known it was well received in Carleton county. I had assurances from leading members of the opposition that they would give me their support. And I would like to say here at the outset that I do not think that the honorable member who spoke yesterday had anything to do with the candidature of Mr Simms. I fear that I can't say as much for his colleague whom I regret is not in his place.

When I returned to Woodstock after my appointment he was there endeavoring to work up opposition to me. I am told that he was at a meeting of the leaders of the opposition who decided that I was not to be opposed. Then he went to Mo-Arm Junction with two of his friends to meet the leader of the opposition and had a conference with him and he was told that I was not to be opposed.

On the Tuesday night preceding the election there was a reception in honor of the marriage of a gentleman in that town. Mr Smith was there and took occasion to congratulate me publicly on the fact that I had received the appointment of solicitor general. I have been informed that after that reception was over he retired to consult with some of his friends to see whether something could not be done to oppose me.

Mr Smith—There is no truth in that report.

Hon Mr Jones—Perhaps the gentleman will deny that Mr Simms' nomination paper was handed to Mr Boyer in the honorable gentleman's store.

Mr Smith—I don't know about that, but I know that I was asked to sign it and I refused and tried to prevent Mr Simms from running.

Hon Mr Jones—I am glad to receive the honorable gentleman's assurance on this point and to have my mind cleared up in regard to it. With reference to my own nomination papers I may say that they were handed into the sheriff by me the night before the nomination. Mr Simms came down the same evening

but he did not reach the court house until 11 o'clock the next day. I have been told that he was consulting with his counsel in the meantime. I have been told by a reputable citizen of Woodstock that before he went to the court house he said that there would be no election provided Mr Jones would accept his offer.

Mr Smith—The offer was not to use any money on either side during the election.

Hon Mr Jones—How could money be used when the offer was that there should be no election if I agreed to his terms. This statement has been published and Mr Simms has not denied that he made it.

Mr Smith—No one can say that Mr Simms offered to let Mr Jones go in without a contest.

Hon Mr Jones—You seem to be thoroughly conversant with all Mr Simms' movements and ideas. Let me say here that election or no election I am not asking and have never asked any favors from the opposition party. I court the fullest investigation into all the circumstances connected with this matter and if it can be shown that I was aware of any unfair methods in connection with this election I will not only resign my seat but my position in the government.

When Mr Simms got to the court house he began looking at his paper and examined it three or four times. Simms has stated the names of certain persons as being the only individuals in the court room when he arrived but there were several others present whom he has not named.

I had arrived at the court house sometime before Mr Simms and was sitting in the barristers' room. The Bible, to which reference has been made, was there at the time for I used it to swear the deputy sheriff to an affidavit. When Mr Simms came into the barristers' room I left it and went into the court room and remained there. The Bible was in the barristers' room when I left it. I have it from Mr Foster, the deputy sheriff, that Simms told him shortly before 12 that he did not know whether he would run or not. That statement was also published and has not been denied. I do not believe that he wanted to get his nomination papers in before 12 o'clock.

It was after 12 o'clock before Simms presented himself with his nomination papers and I know that an investigation will establish this fact. But while this is true I felt that it would be best not to allow him to have a grievance and I advised the sheriff to accept the nomination papers. The sheriff refused. The fact that I gave the sheriff this advice can be easily established and on my return home after the opening of the house an opposition man who was in the court house reminded me that I said to him at the time "I was sorry the sheriff had not taken his papers." Simms says that I examined his nomination papers and that I was sitting at the clerk's desk with two others. It can be easily proved that I did not sit near the clerk's desk. I did not examine the paper and it never was in my hands.

These misstatements on the part of Simms show that he was hardly conscious of what he was doing. I never saw a man in a greater state of excitement. With regard to the Bible or what became of it I know

nothing. The fact that Mr Simms appealed to the courts of course prevented the matter coming before the committee as it otherwise would have done.

Referring to the other matters I may say the gentleman opposite made a very good speech last evening and considering the weakness of his case showed great ability. The criticisms he made were mostly questions of bookkeeping. It may be that the present government, like all other human institutions, is not absolutely perfect in matters of judgment, but nothing has yet been shown against them that is dishonest.

The honorable gentleman made a point of the fact that the sum of \$10,000, the deposit for the Grand Falls water power, was placed among the receipts for the year in the auditor-general's report. Where else could it have been placed? It was placed among the receipts in accordance with the practice which prevails as to such items in the accounts of the dominion government, and of all other provinces, but it was kept apart from the current revenue of the year and did not interfere with the balance on the right side of the account, which showed a surplus of upwards of \$5,000.

If the honorable gentleman had looked at the other side of the page he would have seen \$13,000 of similar items representing money which the government had paid out, but which did not come within the ordinary expenditure.

Mr Flemming—As soon as this was pointed out to me I acknowledged my mistake.

Hon Mr Jones—Still it was a strange error for a financial critic who had given so much time to studying the accounts to make.

The honorable gentleman has complained that agriculture and education have not received proper attention during the past year. I fail to see why these few services should be considered of more benefit to the public than many others. The administration of justice is a matter that is certainly not second in importance to either of these services. The public health, the prevention of small pox, the provincial hospital and public works are all matter of equal importance, which demand the attention of the government.

All these services as well as agriculture and education are for the public benefit and we cannot afford to have them neglected.

Mr Jones answered in able manner other matters criticized by Mr Flemming and moved the adjournment of the debate.

## Nine Nations

Now Use Ligozone. Won't You Try It—Free?

Millions of people, of nine different nations, are constant users of Ligozone. Some are using it to get well; some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed. These users are everywhere; your neighbors and friends are among them. And half the people you meet—wherever you are—know someone whom Ligozone has cured.

If you need help, please ask some of these users what Ligozone does. Don't blindly take medicine for what medicine cannot do. Drugs never kill germs. For your own sake, ask about Ligozone; then let us buy you a full-size bottle to try.

## We Paid \$100,000

For the American rights to Ligozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Ligozone destroys the cause of any germ disease.

Ligozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gases—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the

most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Ligozone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

## Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.
