Beautiful pictures sent out for ad-

vertising purposes are frequently

marred by unsightly type which

makes the picture useless to the

recipient for anything but merely

transient purposes. It is gratifying, therefore, to receive, once in a while,

such a picture as we have just re-

ceived from the makers of "Royal

Household" Flour, in which the ad-

vertising is so obscured that one

does not observe it except by

scrutinizing the picture very close-

ly. It is a beautiful piece of color

work and every one who receives it

will regard it well worth framing

and will not be ashamed to hang it

in any part of the house. It pictures

two gentlemen sitting very comfort-

ly in a library, one of them is read-

ing to the other from a newspaper.

It does not take a great stretch of

imagination to suppose that the

paper is the "SENTINEL" and that

the reader is reciting to the listener

the interesting news which is always

to be found in these columns. On

the back page of the paper is an

advertisement of "Royal Household"

Flour, but it does not obtrude itself

upon one; and one has to come very

close to it to observe the lettering.

The original of this picture was

painted expressly for the Ogilvie

people, and is really a work of art,

deserving of being prized by any one who has the good fortune to receive

Every Two Minutes printing business when a young man and worked continuously at it

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S **EMULSION**

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

Death of Andrew Lipsett.

Fredericton, N. B., March 5-(Special)-Andrew Lipsett, proprie- ment but he did not foresee the tor of the Farmer newspaper and chief engineer of the Fredericton fire department, dropped dead on King street at 1 o'clock this after-

of genuine sorrow and regret. He tically made a new woman of me. I had not been in enjoyment of good health for several months, but his lillness was not serious enough to or troubled with constinution. illness was not serious enough to confine him to the house.

He was called out of the Methodist church this morning by an alarm of fire and while in discharge of his duty he inhaled some smoke which turned him sick at the stomach. After leaving the scene of the fire he repaired to the central hose station and remained there for half an hour. He complained of a lightness across the chest and looked rather pale, but evidently did not regard his condition as alarming.

A few minutes before 1 o'clock he started to walk up King street towards his home and when near the York Hotel he fell on the sidewalk and expired almost immediately. A physician was soon in attendance and expressed the opinion that

New members are being daily received into the order. The position of organizer has been offered to a prominent local man. His acceptance is eagerly awaited. The president now wears a very contented smile. It is hinted that a full ticket will be placed in the field at the next town election. The president will run for mayor, and the secretary will head the six candidates for the council. The treasurer may be promoted to fill a like service for the town. All the vice-presidents are expected to figure on the ticket. A prominent office holder in the Society has promised us a list of members for publication next week. Look ou for the list of wobblers if he sticks to his pledge.
