For Anaemia You Must Have Iron AND ANYONE CAN USE IRON, AS IT IS COMBINED WITH OTHER INGREDIENTS IN

NERVE FOOD.

Anaemia or bloodlessness is indicated by paleness of the lips, the gums and the eyelids, and is most frequently found in girls

and young women. Other symptoms are deficient appetite, impaired digestion, irritable temper, short-aess of breath, dizziness, faintness, headache, easily fatigued, depression and despondency.

The blood is lacking in the life sustaining

power which is necessary to the proper working of the bodily organs, and can only be restored by the use of iron, as any quali-physician will tell you.

But iron alone cannot be taken into a

weakened stomach. In Dr Chase's Nerve Food iron is combined with certain nerve restoratives in such a way as to be easily assimilated into the blood and thus afford immediate and lasting benefit to the system.

And more than this, Dr Chase's Nerve Food, through its action on the nerves, sharpens the appetite and aids digestion, so that help is also afforded in deriving the

"My sister Eva was also in very poor health so we began the use of Dr Chase's Nerve Food and continued the treatment for seven months. During that time I gain ed about thirty pounds in weight and am as much as I did and we believe their is no treatment for pale, weak girls so good as Dr Chase's Nerve Food."

Hon. Mr. Blair Has Again Resigned.

Toronto, Ont, Oct 25-Hon A G Blair has resigned the position of managing director of the Henderson Roller Bearing Company, Toronto. To a correspondent Mr Blair said: -"In August last I intimated to my fellow directors my wish to retire, because the position was one which took me a great deal from home and it was out of the question for me to move to Toronto. Moreover, I had a serious attack of grip which incapacitated me for some time, and prevented me from giving that attention to the duties of the office which I deemed to be necessary. The verbal intimation I gave was afterwards followed by a written resignation."
