#### Hon. Clifford Sifton Resigns.

Hon. Clifford Sifton, minister of the Interior, has tendered his resignation to Sir Wilfrid Laurier as a protest against the government's proposed legislation for the Northwest. He is opposed to the separate school clause in the autonomy bill. It is interesting to observe that the three ministers against whom such a fierce outcry was raised by conservatives in the early days of the Laurier regime, Blair, Sifton and Tarte, have each resigned from the cabinet.

The *Sun's* splurge about the alleged Carleton County election outrage is really too foolish to demand attention. Sheriff Hayward, who is a thoroughly reliable man, has stated positively that it was after the legal hour when Mr Simms filed his nomination papers; he is corroborated by the deputy sheriff and solicitor general, and with such evidence as this the public simply laughs at the *Sun's* allegations of crooked work. Mr Jones, who is charged with complicity in the outrage, even requested the sheriff to accept Simms' papers although they were offered after the legal time had expired.

The above excerpt from the *Fredericton Herald* hits the nail squarely on the head.

#### Explanatory.

It having been rumored among prominent liberals that the deputy had stated that I voted in opposition to the liberal party at the federal election held last fall, I have taken steps to probe the matter to the bottom. The deputy returning officer has in the presence of witnesses emphatically denied giving any person any hint or intimation to that effect. I have voted the liberal ticket long before the parties who are making this cheap talk had a vote in the county.

To place the matter beyond dispute, the following affidavit has been made.

To whom it may concern:—  
I, John Wallace of the town of Woodstock do solemnly swear that at the election held on the third day of last November I voted for Frank Broadstreet Carvell.

#### Death of Mrs. Collins.

News of the sudden death of Mrs. J. T. Collins at her home in West Somerville, Mass. on Monday last came as a great shock to her many friends. She leaves a sorrowing husband and two daughters, Mrs. Claude Augherston and Miss Maud, a trained nurse; one sister, Mrs. (Dr.) Camber and three brothers, H. N. Payson of this town, Lemuel of Colwell, Me., and George of Massachusetts. The remains were brought here for burial. The funeral services took place yesterday afternoon. For the grief stricken relatives there is sincere sympathy felt by all.

#### Card of Thanks.

To the Editor of Carleton Sentinel:—  
I wish, through the columns of your paper, to thank the friends for their great kindness to me during the sickness and death of my wife.

A new political society has been started, known as the Ancient Order of United Woodchoppers. The local branch has already a large membership. Messrs Blair, Sifton and Tarte are Honorary Patrons of the Order. The local members are well known, but pending further additions to the list, we refrain from publishing their names.

A subject of interest to those who live on the north side of Main Street is whether the town council is willing to put down asphalt walks this coming spring from Payson's Corner to the town hall. The consensus of opinion seems to be in favor of the work being done at the earliest possible moment.

The Shamrocks were too much for the T O C club in the last game that took place between these young rivals. The score was 9-2. The line up was as follows:—S A C—T Gray, goal; C Brewer, point; J Sullivan, cover; W Lister, rover; A Atherton, centre; E Tabor, right wing; C Sullivan, left wing. T O C—R P Hartley, goal; C Jones, point; H Hayden, cover; B Britton, rover; C Sprague, centre; A Fisher, right wing; C Camber, left wing. The Shamrocks have won 3, lost 1 and tied one with the T O C boys.

C M Sherwood, Centerville, offers for sale at extremely low prices a quantity of second hand mill machinery, including 2 pair French burr millstones, 1 feed grinder, 1 buckwheat scower, a large number of wood pulleys all sizes, 1 good crane, 1 pair crane irons, 2 large millstone screws, set of new mill picks bought within a year and only used a few months, together with some other mill sundries. The most of this machinery, excepting the scouring machine, is in good condition, and the whole lot will be sold to get out of the way at much less than one quarter price. Also 2 motor wheels, 2 pair crown wheels and pinions to match, 1 shingle machine, together with a quantity of rubber belting, etc, all second hand.

#### A Conservative Surmise.

"When I hear a man boast that he is a conservative," said Thomas Taggart, chairman of the national Democratic committee, "I am reminded of a story told of William Travers, the stuttering joker once famous in New York.

"Travers went to the hall in which the Siamese Twins were first exhibited in this country. He gazed at them for a time as they sat with the bond of flesh that united them exposed to view. Then Travers, with his face as serious as an owl, remarked 'B-b-brothers I p-p-presume,'"

## FEED TO FATTEN

Steers are bought, raised, and fattened to make money; so just a few words as to how this profit can be made and, in many instances, increased. The increase in weight in steers, is due to the amount of food that is digested and assimilated, and the greater the amount digested and assimilated, the greater the increase in weight. In close confinement the feeding ration lacks the variety of the open field, therefore, the food must have the "salt, pepper and gravy" added; this is Clydesdale Stock Food. It stands for reason, that, like a human being, if the food is made more palatable by the addition of the "salt, pepper and gravy" it will eat more of the thing it likes because "it makes the mouth water." This is "wise feeding." Furthermore, it will do them more good because it not only helps to digest the food, but after it is digested, it helps the blood to take up or assimilate a large proportion of it. This is where the profit comes in by putting on extra weight, giving them a nice, fat, smooth finish that brings top market price. The feeding period can be shortened thirty days at least; this is money saved. The increase over and above the ordinary feeding increase is, easily  $\frac{1}{4}$  of a lb and over per day. You can stop feeding Clydesdale Stock Food at any time without injurious effects. If you find you cannot feed Clydesdale Stock Food at a profit your money will be cheerfully refunded by the dealer from whom you buy it. It is sold in your district by:
