THE CARLETON SENTINEL, WOODSTOCK, N. B., AUGUST 4, 1905.

----- Colds are the most danger ous of all forms of discase. A neglected cold leads to Bronchitis, Consumption, Pneumonia. "Coughs" are the result of irritat-ed bronchial tubes. "PSYCHINE" cures coughs by removing the irri-tating particles and healing the inflamed membrane. It is a germicide and destroys the tubercle germ. It is a tonic that strengthens the lungs, the liver, and tones up the system. It makes for better health in all conditions of humanity. Get strong and the cough will dis-appear. "PSYCHINE" makes weak people strong. It cures coughs of the most obdurate kind and breaks up a cold in a few hours.

GREATEST OF ALL TONIOS

TRADE RETURNS.

The total trade of Canada, as shown by statistics prepared by the Customs Department, for the year ending June 30 last, has increased a quarter of a million dollars. The trade of the country is now double what it was in 1896. There was a falling off during the past year of over eight millions in domestic exports, and about two millions in foreign exports, as well as a reduc-tion of about three-quarters of a million in coin and bullion, but this was a little more than made up for in

consumption. It is noticed that the export of domestic manufactures for last year was \$1,250,000 in excess of the provious year. The produce of the mine showed a decrease of about one million and a half dollars, and agriculture of about eight millions. The total aggregate trade of the Dominion, on the basis of imports for consumption and domestic exports, was \$465,228,307, compared with \$464,981,972 for 1904, or an increase of about a quarter of million dollars. A summary of the tende for the two

Deafness Cannot be Cured

Driver Should be Mastered Before Brassie, Cleeks, Irons and Mashie Come.

Harry Vardon, the four-time with ner of British golf championsh and once of the American, is with a new book, "Complete Golfo Here are some excerpts from it : "The man who has never stood

"The man who has never stood up-on the tee with a sturdy rival hear him and driven a perfect ball, the hands having followed well through and finished nicely up against the head, while the little white meets in the distance, after skimming the earth for a time now rises and sears upward, clearing all obstacles, and seeming to revel in its freedom and speed until at last it dips gracefully back to earth again—I say that the man who has not done this thing has missed one of the joys of life. "There are two mistakes to which the beginner is much addicted, and to them is due the unhappy circum-

to them is due the unhappy circumstance that in so many cases he never gets his club handicap down never gets his club handicap down to single figures. My earnest advice to the biginner is to undergo the slow process of tuition for nothing less than three months, and prefer-ably more. It is a very long time I know, and it may seem painfully tedious work, simply knocking a ball backward and forward for all those months, but if he does not accent my backward and forward for all those months, but if he does not accept my suggestion he will have harder things to try his patience during many years afterwards, while, if he takes my advice, he may be down very near to scratch at the end of the first year, and he will be very thankful that he spent the period of probation as he did. "A golfer's swing is often made for good or ill in the first week of his experience. His first two days of practice may be of the greatest im-portance in fashioning his style. If, when he takes his first few swings, he

when he takes his first lesson or two and makes his first few swings, he has a bail on the ground before him which he is trying to hit, all his thoughts will be concentrated on what appears to him to be the neces-sity of hitting it—hitting it at any cost. But if he has no ball before him he will surely learn to swing his club in exactly the way in which it ought to be swung. His whole mind will be concentrated upon getting every detail of the action properly regulated and fixed according to the advice of his tutor, and by the time

OABINET TIMBERS.

That stalwart Ottawa paper the Free Press, has this to say of W. S. Calvert, M. P .:-

M. P., who is his senior in point of service, Mr. Calvert is one of the few Ontario members seriously mentioned as a possible successor to the 25th, £15,000. Ministers who must shortly retire from the Cabinet. He is the most ber of tickets issued the first day. popular member on the Liberal side 39,000. of the House.

It is no secret that the ex-Minister's pension, though talked of for a long time, was agreed to by all the £40,000. members with the idea of facilitating Uabinet construction. "The kindly regard or memory in which the Tuppers are held may have had something to do with it," was what a Conservative member cynically observed.

Mention is made of nearly every member of Parliament by his local admirers for the possible vacancies, but Messrs. Calvert, Campbell and R F Sutherland are the Ontario members seriously mentioned.

The whole month of August is open for state-guessing by the newspaper editors. No changes will be made until the fall, and even then it is not likely that they will all be made at 000.

once. STEADILY ADVERTISED.

A Good Range, Given Proper

nge, naving been first placed on the market about three years ago. During that time its makers have advertised in the best weekly papers to a very large extent, with the result that the Pandora is well known from one end of Canada to the other. The advertising of course, has been backed up by a high class, modern article. The present series of ads explain a few of the leading virtues of the Pandora range, and doubtless every woman wanting a good stove will examine this famous range be-

Here Are Some Figures.

For those who like figures, here are a few :--

Number of vehicles passing "Mr. Calvert is the chief whip of through a main road out of London the Liberal party in the House of one day (July 2nd), cycles 4,000; Commons. With Archie Campbell, motor vehicles 600; electric trams 400; horse vehicles 200.

> The Canadian North-West. HOMESTEAD REGULATIONS.

Any even numbered bection of Dominion

Lands in Manitoba or the North-west Terri-

tories, excepting 8 and 26, which has not been homesteaded, or reserved to provide

wood lots for settlers, or for other purposes,

may be homesteaded upon by any person who is the sole head of a family, or any

male over 18 years of age, to the extent of one-quarter section of 160 acres, more or

ENTRY. Entry may be made personally at the local land office for the District in which the

land to be taken is situate, or if the home-

steader desires he may, on application to the

Minister of the Interior, Ottawa, the Com-

missioner of Immigration, Winnipeg, or the Local Agent for the District in which the land is situated, receive authority for

some to make entry for him. A fee of \$10

HOMESTEAD DUTIES.

during the term of three years. It is the

practice of the Department to require a

settler to bring 15 acres under cultivation,

but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their ac-commodation, will be accepted instead of

(2) If the father (or mother, if the father is deceased), of any person who is eligible

to make a homestead entry under the pro-visions of this Act, resided upon a farm in

the vicinity of the land entered for by such

person as a homestead, the requirements of this Act as to residence prior to obtaining

patent may be satisfied by such person re-siding with the father or mother.

(3) If a settler was entitled to and has

obtained entry for a second homestead, the

requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of

(4) If the settler has permanent resid-

ence upon farming land owned by him in the vicinity of his homestead, the require-

ments of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant

o indicate the same township, or an ad-

joining or cornering township. A settler who avails himself of the pro-

visions of Clauses (2), (3) or (4)-must culti-vate 30 acres of his homestead, or substitute

20 head of stock, with buildings for their accommodation, and have besides 80 acres

The privilege of a second entry is re-

stricted by law to those settlers only who

completed the duties upon their first home.

steads to entitle them to patent on or before

Every homesteader who fails to comply

with the requirements of the homestead

law is liable to have his entry cancelled,

Should be made at the end of three years. before the Local Agent, Sub-Agent or th

Homestead Inspector. Before making ap-

plication for patent, the settler must give six months' notice in writing to the Com-

and the land may be again thrown open for

the cultivation

the first homestead.

substantially fenced.

the 2nd June, 1889.

A settler who has been granted an entry for a homestead is required by the provi-sions of the Dominion Lands Act, and the

is charged for a homestead entry.

Thousands Write to Mrs. Pinkham, Lynn, Mass., and Receive Valuable Advice Absolutely Confidential and Free

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions in regard to her private ills. even when those questions are asked by her family physician, and many

continue to suffer rather than submit to examinations which so many physicians propose in order to intelligently treat the disease; and this is the reason why so many physicians fail to cure female disease.

This is also the reason why thousands upon thousands of women are corresponding with Mrs. Pinkham, at Lynn. Mass. To her they can confide every detail of their illness, and from her great knowledge, obtained from years of experience in treating female ills, Mrs. Pinkham can advise women more wisely than the local physician. Delle Emerentienne Montreuil, of 114 Latourelle St., Quebec, Que., writes:

Dear Mrs. Pinkham :-

"I suffered for eight months with what the doctors called prolepsus, which caused great weakness all over my system, with faint dizzy spells. I kept growing weaker and weaker. I tried several medicines which they claimed would cure my trouble, but nothing was of the least benefit until I tried Lydia E. Pinkham's Vegetable Compound, and this helped me so rapidly that I could hardly believe my good fortune. I would gladly have paid \$25.00 for that first bottle, for it started me on the road to health, and five bottles cured me. "I am most grateful for my splendid, robust health, and shall certainly recommend the

regulated and fixed according to the advice of his tutor, and by the time he has had two lessons in this way he will have got so thoroughly into the natural swing that when he comes to have a ball teed up in front of him he will unconsciously swing at it in the same manner as he did when it was absent, or nearly so. "He should continue practice dili-gently with his driver until he gets these good long balls nearly every time, sternly resisting the tempta-tion even to so much as look at any of the other nice new clubs that he has got in his bag, and whose mys-teries he is exceedingly curious to investigate. It may take him a week or a fortnight to master the driver, but he should do it before he gives a thought to any other club. "When he can use his driver with confidence he may take out his new brassie and go through the same process with that, until he feels that on a majority of occasions from a fairly decent life, he could depend upon making a respectable brassie shot.

"After the driver and brassie it will be like a new game when he comes to try cleek shots, and in the same way he will persevere with the cleek until it is evident that he real-ly knows how to use it. Next it will be the turn of the iron, and so in due season he will be able to practice with the driver, the brassie, the cleek and the iron. The mashie will follow, and then the five of them together, and at last he may have an afternoon on the green trying his skill with a putter and listen for the first time to the music of the ball— no such music as this to the golfer's ear, though it consists of but a single note—as it drops into the tin and is holed out at last.

Boston ministers have decided to unite and invite Rev Dr J Wilbur Chapman to visit that city next January, and hold evangelistic meetings. The idea is to have a big city campaign, such as was conducted last year in Pacific coast cities.

Hunting Foxes With Eagles.

fore buying.

The hunting of foxes with eagles takes place among the Kirghese in the southwest district of Siberia in the autumn and early winter, when tions connected therewith, under one of the

the foxes' coats are ruddy and perfect. The eagles are powerful birds, of such weight that a small wooden support is carried by the eagle bearer. A well grown bird of more than usually flerce temperament will occasionally kill a wolf. Directly any game is seen the birds make their flight and swoop down with great precision.

"One of these birds has to my knowledge," writes our correspondent, "killed seventeen foxes in six weeks. I can vouch for this killing of foxes by eagles, for I personally took photographs and saw the whole sport from beginning to end.

"Years ago I wrote a letter to the Field, telling how foxes swarm up small pine trees in Florida when a 'kill' appears imminent. I have frequently seen them do so, but I was politely told what an Ananias I must be."-London Sphere.

Desbarats Advertising Agency.

We have received a copy of the newspaper Directory issued by the above well-known concern. The book contains the latest aud most reliable information concerning the newspapers of Conada, together with many original maps. One of its main features is a fairly complete list of the manufacturers in every place where papers are published. The book is neatly gotten up, nicely printed on heavy calendered paper aud is altogether a credit to the enterprising firm. The Desbarats entry. Advertising Agency is known all over Canada as one of the leaders in their line. They have our best wishes for their continued successes.

Ten new men will be sent to the missioner of Dominion Lands at Ottawa of Far East this fall as YMCA secre-

Vegetable Compound in glowing terms to all my friends and acquaintances, for it is de-serving of all the praise I can give it."

Mountains of proof establish the fact that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for restoring women's health.
