LET US SEE.

The St. John Sun says it remains true that the Solicitor General owes his seat in the assembly to the fact that one of his supporters hid the Court House bible. The Sun is away off in this conclusion. Judge Barker's finding proves that the negligence of the Sun's candidate was responsible for there being no contest. The learned judge could not understand why Simms did not secure or go out and get a bible while Boyer was on his way to the Court House. There was plenty of time to do this, but the petitioner employed it in doing nothing. This is evidence. What the Sun charges is hearsay and was not proven at all, there being no testimony whatever to the effect that any supporter of Hon. Mr. Jones had anything to do with the disappearance of the book. The Sun would do well to follow the wise example of the Press and make no editorial reference to the great failure on the part of the machine.

HAULTAIN'S FUTURE.

The intriguing, gerrymandering, obvious injustice and despotism of the Laurier Government may, for the time, unmake Hon. Mr. Haultain in Saskatchewan, but it will make him Premier of Canada. How few knew of him before this happened? Who does not know and respect him now?

The above quotation from the editorial columns of Saturday Night strikes one as being nothing more than the altogether overdrawn fancy of a narrow minded partisan. It is true that Mr. Haultain had some claim to a premiership. If it were necessary, or even thought good policy, to continue the former governor of the whole territories as chief executive of one of the new provinces, it might be taken as a natural inference that the premier of the northwest had some claim to the seals of office in either one of the new sisters of the union. Mr. Haultain, however, has been passed over and no person is bold enough to state or can substantiate a claim that Governor Forget has acted unconstitutionally in calling Mr. Walter Scott to the premiership in Saskatchewan. If Mr. Haultain should be able to carry the province against Premier Scott, then he will be in a position to become a national figure, and will easily rank as the real leader of the extreme and now dominant wing of the conservative party. But, as seems altogether probable, Mr. Haultain will remain in opposition, and Mr. Borden will rest in undisturbed possession of that \$7000 indemnity for an indefinite period. Haultain is undoubtedly a man of force, but he made the mistake of his life in unsuccessfully stumping London and Oxford against the government. Had he and Bennett been able to win those constituencies for the opposition, the western conservative leaders would have been famous. As it is, they staked all, and lost. The chance to retrieve their fallen prestige is but a slim one. We are inclined to think that the last of Haultain will be heard on the night of the first Saskatchewan local election.

Death of Councillor Wm. McDonald.

The whole town was shocked when it was learned at a late hour Tuesday night that Councillor Wm. McDonald had died suddenly of heart disease. The deceased gentleman was always apparently robust, and his death was totally unexpected. He was a prominent business man. Among other things he conducted the Grafton Brickyard, was local agent for the McCormick machinery, and had just completed arrangements for installing a grain crushing outfit. In politics he was a conservative with independent leanings, and in religion an adherent of the Presbyterian faith. He was also a member of the Royal Arcanum. He had been for some time a member of the County Council, and was known as a forceful representative. The deceased was never married.

All Aboard for the Capital.

The Fredericton Provincial Exhibition is now in full swing and we strongly advise all our readers who can afford the time to take a little run into the Celestial City. The trip will do you good, the place is beautiful in the extreme, and the show is simply the best ever put on in our province. Then the great horse racing is worth going a thousand miles to see. In addition to all the swift ones from Nova Scotia and the North Shore the following well known horses will start:—Roxie D, Nellie Brown, Annie Laurie, Brown Dick and Shamrock. Who wouldn't go to Fredericton just to see Shamrock perform in the 2.19 class, or witness the peerless Roxie D carry off the dough in the 2.35. All hands take a day off and see the show.

Dr. John Brittain Receives Appointment.

The many friends of Dr. John Brittain will be pleased to learn that he has been appointed Professor of Nature Study in the new McDonald College, the great educational institution which Sir Wm McDonald is erecting near Montreal. The college will open in about a year. The position is a lucrative and responsible one, and the genial Doctor is certainly the right man for the position as in science work he stands at the head of the teaching profession. During the present fall and winter Prof. Brittain will have charge of the Chemistry Lectures in the U. N. B. Next spring and summer he will take charge of Nature Work in the schools of this county, after which he will remove to Montreal to take up his new duties.

We wish them health and prosperity.
