Mars Hill.

I wish to say a few things through the columns of your paper to the Primitive Baptist people at large. We tried to introduce the principle and subject of Foreign Missions in our denomination since our yearly

meeting and we have met with some success in that work, but we failed to meet with our executive and consequently there has not been anything definitely accomplished and I want all members of conference to attend this quarterly meeting that will be held at the Union Church, Mars Hill, Oct 7th 1905 at 10 a. m. and especially our executive. Our missionary goes to her field of labor in Central America the last of November and if we are going to take hold of this work and help her it is time now for to decide this question. For my part I want our people to have some part in this good and noble work for I believe that God has called us as a people to work in this field, and give our sanction and what help we can to this noble and christian woman. I ask now that the members of our churches and any others that have any interest in this mission work to see your friends and neighbors and collect if you can some few dollars and send it to me I want some money to give sister Ridge before she goes back to her field and I positively urge this and pray God that you will respond as christian men and women, now you that are interested don't be afraid to speak to the people and with the best light and ability God can give you. This principle of missions is on my soul and I cannot shake it off and if you that are interested in it will give me your support I will agree to take the hardest part of the battle with strong hopes in winning in the end permanently establishing in the hearts of our people this great and glorious part of our gospel mission. Now brothers and sisters don't think me crazy or outside our treatise of faith for I am only trying to bring our duties properly before our people and when this is done I am sure of favorable results. Now all I want you to do is to pray about this matter and then decide for there is not much possibility of doing the wrong thing when we ask our Heavenly Father's direction.

Sister Ridge has been in the great work that has been going on through this county during the last few months where we have been eye witnesses to the greatest and largest revivals that ever was known in Aroostook County. About eight or nine hundred have been reclaimed and converted, 350 have been baptised and the men, women and children that are now standing and giving praise to God is simply wonderful. We can hardly grasp and believe our eyes but such is the reality of things here from three to six hundred have been the regular congregations in the last eight weeks. Rev E W Henyon with his staff of workers is largely guilty for the great and notable victory and I hope that they will be guilty of doing just such a glorious work in the church in N B soon. Now brethren come to the quarterly meeting if possible, we have some vital questions at issue and do not neglect them is my prayer.
