ISSUER OF MARRIAGE LICENSES.

BITS OF NEWS.

F B Carvell M P started for Ottawa by Monday night's express to resume the work of the session.

Hon Wendell P Jones went to St John Monday morning to attend an important meeting of the local government.

Hon Senator King and George McAvity have been appointed members of the commission that will manage the Central Railway.

F R Perry, D P A of the C P R, came to town to attend Monday night's Carnival meeting. Next day he went to St Stephen.

Monday evening a young chap named Deboe living at Upper Woodstock was out playing on a raft. He fell off and was drowned. The body was not recovered.

Building operations on what is known as the Connell lot are likely to boom. L E Young, R N Loane and A F Garden are credited with an intention to erect residences.

The Fredericton City Council will receive tenders up to the fifteenth instant for the lighting of the town streets. There has been considerable trouble caused by the dismissal of the recent engineer, Mr McGinn.

An important fact for visitors to keep in mind this year is that in connection with the Carnival there will be a Lodging Bureau. Upon application to the proper parties, sleeping accommodation may be had by those unable to get a bed at the hotels.

The people of Carleton County will positively enjoy this year's Carnival. For some time past efforts have been made to secure the services of a competent and reliable balloon performer. The sports committee at Carleton County are anxious that this time there will be no hitch or failure.

A largely attended meeting of the stockholders of the Peoples Bank of Halifax was held Tuesday morning at the head office of the bank. It was almost unanimously voted to accept the offer of the Bank of Montreal. The latter bank will take over the Peoples about the first of June.

There are many harmless lunatics in the Provincial Asylum. In future greater care will be taken to exclude all save those who are dangerous. It is now necessary to secure a permit from the medical superintendent before any insane person may be admitted. The harmless insane must be looked after by the municipalities.

The fall exhibition at Centreville will be held this year as usual. The fair at this thriving town is always good and promises to be even better this year than ever before.

The C P R express from Halifax bound for Montreal ran off the track near Evan's siding between Sackville and Dorchester Monday afternoon. The engine and several cars left the rails. Luckily no one was killed. The engineer was buried in three feet of mud under the engine, but was dug out alive and almost uninjured.

Geo L Holyoke has taken the local agency for the Anglo-American Fire Insurance Co. Mr Holyoke is well known as a successful agent and will no doubt secure a large amount of business for this flourishing company. Being a non-tariff organization it accepts good risks ten per cent cheaper than other companies will quote.

Arthur L Slipp is one of the keenest disciples of Isaac Walton. Our young legal friend visited the Keswick Lakes last week and caught no less than 102 beauties, some of which weighed fully a pound. Arthur says fishing is far more fun than reading Blackstone. While away he saw three moose, a couple of deer and small game galore.

The funeral of Hon James Sutherland was held on Saturday at Woodstock, Ontario. Ten thousand people were in the procession. Premier Laurier sat alongside the casket during the service and sobbed bitterly throughout. The late Mr Sutherland was Sir Wilfrid's most intimate personal friend in the cabinet, and the one above all others to whom he ascribed the chief credit for the magnificent results in the past three general elections.

It is announced from Ottawa by a generally reliable correspondent that the surveys through the centre of this province have demonstrated the existence of a route on which the gradients and curves are not much in excess of the requirements. The local board of trade as well as the Fredericton board should lose no time in sending strongly worded resolutions in favor of the Valley Route. The member for Carleton may be depended upon to do everything in his power to secure the road for the valley. He is working for the valley might and main. The people would do well to give him their support and do it quickly.

Please Explain.

We are quite surprised that the Press should allow such scurrilous statements in its columns as are found in the issue of Monday last. The opposition organ seems to have acquired the habit of slinging anything that may come along in the shape of mud. With respect to politics it displays nearly as much discrimination as one finds on the part of an ordinary sewer. Nothing is too bad for it. The Press waits over the fact that all the members from Quebec voted for the Autonomy Bill. It says this is significant. "Significant of what?" We feel constrained to ask, and request the Press to explain, or in the event of its failure to stand convicted on the charge of inciting race and religious feeling. Why did the Press not refer to the solid Nova Scotia or the solid British Columbia? Was it because these provinces are English and are largely Protestant? Did the Press single out Quebec because its inhabitants are overwhelmingly French and Roman Catholics? The Press is on slippery ground when it touches the race and religious cry.

Carnival Organization.

At a well attended citizens meeting in the town council chamber Monday evening steps were taken to complete the formal organization of this year's carnival. His Worship Mayor Jones was unanimously chosen chairman and last year's Treasurer, J S Creighton, was re-elected. N F Thorne, secretary of the last two carnivals declined further service, and the appointment went to J P Maloney. Committees on Finance, Music, Parade, Sports, Advertising, Reception, Transportation and Billposting were struck, and much important business transacted. There will be another general meeting on Monday evening next at 8.30 when the committees are expected to report.

That N. B. League.

The New Brunswick Base Ball League has all the earmarks of an organization destined to live but a short time. There are only three teams in the league, and even these cannot agree on anything. The president, Mr J. Douglas Black, sporting editor of the *Gleaner*, is a vigorous writer and good organizer, but seems to have difficulty in keeping in line with the St John end of the league. There has already been a lot of trouble over the schedule. It is too bad that Moncton has not entered a team. With four clubs represented there would have been less prospect of a squabble over the games for the holiday.

MANITOBA.

The news from Manitoba is rather disquieting. Premier Roblin seems to be a rather moderate stamp of politician who would be inclined to take matters as they come without striving to stir up unnecessary strife. Unfortunately he is surrounded by some unscrupulous and designing colleagues who do not scruple to put in operation anything that would seem likely to give them personal or political advantage. Chief among these is Hon. Robert Rogers who desires the Manitoba legislature to annul the school settlement of 1897. It is sincerely hoped that wiser counsels will prevail.

Trouble in Tory Ranks.

Mr. R. L. Borden is greatly annoyed over the course taken by Messrs Monk, Bergeron, Ames, Lewis, Pringle and the other conservatives who voted with the government against his amendment to the Autonomy Bill. The Ontario conservatives breathe all sorts of threatenings against these revolvers. As Mr. Monk has been Borden's right hand supporter the conservatives are particularly indignant.

Annual Meeting.

The Fourth Annual General Meeting of the shareholders of the Union Telephone Co. was held at Florenceville on Monday, 8th inst. There was a large attendance. The accounts for the year were passed and considerable important business transacted. The company is in a most flourishing condition. Hon. Geo. T. Baird, H. L. Ross, Dr. P. M. Brown, G. Lev White and Dr. D. W. Ross were elected Directors. Dr. I. B. Curtis of Hartland was chosen Auditor in succession to Dr. Estey, who has removed from the province.

Local and General.

Chas Clare has the contract to finish the interior of the Baptist church at Grand Falls.

Mr and Mrs Bruce White spent Sunday in town the guests of Mr and Mrs G A White.

Perry Fitzgerald has opened a boot and shoe store at Bath. M A Tompkins in charge.

Andrew Myles returned Tuesday evening from a business trip to several provincial towns.

Chicago is still in the throes of a great teamsters strike affecting nearly all kinds of business.

Hay is retailing at about \$11 per ton. Oats are scarce. Farmers have been receiving from 13 to 50 cts per bushel.

Sheriff Hayward is asking for tenders for the stock in trade, book debts and mill property of Crain Bros.

Edwin K McKay, provincial manager for several large fire insurance companies was in town this week.

Sackville is happy. Fire insurance rates there have been reduced twenty per cent. Come here, Mr. Clinch.

A very rich find of placer gold is reported from the Yukon. It is said to be the richest ever discovered in that region.

Premier Tweedie and Attorney Gen Pugsley have been to Ottawa. They are asking for an increased provincial subsidy.

It is generally supposed that Prof Morrill of Houlton will be engaged to do several new and improved aerial stunts for the summer carnival.

Marshal Oyama has made some recent advances. General Linevitch, the Russian commander-in-chief does not seem disposed to stand his ground.

The business men of the town are practically unanimous in agreeing to give their employees a whole holiday on the 24th. This is what should be done.

P P Brennan of St John who recently bought the Misses Commins' business and residence at Bath, has opened the store and is doing well in the new venture.

Lost.—Between post office and Colpitts' store, Lower Corner, a black silk belt with buckle of Oxide Silver, set with stones. The finder will oblige loser by leaving same at this office.

Fred Laforest of Edmundston spent a couple of days in town this week. Mr Laforest and wife are mourning the loss of one of their children, a bright young daughter who recently died in a convent where she was being educated.

Admiral Nebogatoff's squadron is said to have joined Rojevsky's fleet. The combined Russian divisions are now thought to be making northwards to meet Togo's ships. The Vladivostok squadron seems to be fitting in and out of that port.

"In promulgating your esoteric cogitations or articulating superficial sentimentalities and philosophical or psychological observations, beware of platitudinous ponderosity. Let your conversation possess a clarified conciseness, compact comprehensibility, coalescent consistency and a concentrated cogency. Eschew all conglomerations of flatulent garrulities, jejune babblement and assumed affectations. Let your extemporaneous despatches and unpromulgated expatiations have intelligibility and vesavious vivacity without redomtade of thesaurical bombast. Sedulously avoid polysyllabic profundity and pompous proplexy."

A report from Montreal is as follows:—"A well known Liberal was asked as to the following rumors with regard to approaching political changes. He said that they were all in accordance with his advice direct from Ottawa, and he mentioned other changes more startling than these, which need not be mentioned just now: Hon R W Scott, Secretary of State, to withdraw, to be succeeded by Hon R Lemieux, the Solicitor General. Hon Charles Fitzpatrick the Minister of Justice, will shortly be appointed to the Bench, and this Portfolio will be filled by Mr A B Aylesworth, K C, of Toronto. It is well known that Hon Raymond Prefontaine is anxious to become Minister of Public Works, which Portfolio he will now receive, owing to the death of Hon James Sutherland. The office of Minister of Marine and Fisheries will be handed over to Hon O S Hyman, Minister without Portfolio, the latter gentleman to be succeeded by Mr Robert Bickerdike, M P, as Minister without portfolio."

A Camborne Letter.

Well here goes hit or miss. This comes under the head of new business with me, but I thought I would give the folks back home a slight description of this burgh. Camborne is situated on Fish River in the Selkirk Range. It lays in a hollow and you have to get on your back to see the sun. There are two streets one to go up on and the same one to come back on, four houses, a post office, school house (with three pupils) and six saloons. What do you think of that? The only excitement we have here in winter is snow slides. It certainly is a grand sight to see a mountain of snow and ice from two to four miles long and two wide come tumbling down the mountain sweeping everything in its path. I might just mention that A W Dickinson, our prominent lumberman, took from one of these slides one million feet of timber which had been swept from the side of the mountain.

Well we are having summer weather here now. Vegetables are growing fine. And say talk about bears there were three grizzlies walked through town yesterday. This scribe had a bird's eye view of them from the top of a big stump. I certainly kept their tails in sight.

M B McCollum, promoter and mining expert, is making a summer circular tour on Goat Mountain.

A W Dickinson has a contract for ten million feet of timber on Fish River.

W A Hayward is driving four horses for E J Branford & Co. Go to it Bill.

Well it is getting late and coal oil costs fifty cents a gallon.

A FISH EATER.
Camborne, B. C., May 1st 1905.

First Band Concert.

The 67th Regt. Band under the leadership of Percy N. Hall will give the first of their weekly open air concerts on the square on Tuesday evening next. The band has improved wonderfully since last summer and their concerts will be a source of much enjoyment to the citizens this season. Following is the program for Tuesday evening:—

March.....Northern Belle
Overture.....Mosaic
Duet.....Alice Where Art Thou
(Trombone and Cornet.)
Seranata Cubana.....Enito
Polka for Bass.....Chromatic
Waltz.....In That Home So Far Away
Characteristic Dance.....Lively
Mottetots
March.....Richmond Bee
God Save the King.

Lyon Abroad.

George S Lyon, Olympic Golf Champion, is now in England getting ready for a try at the Championship of Britain. Lyon is a Canadian who learned the game long after he reached the years of manhood. He has held the Canadian Championship. His Olympic championship was won last summer at St Louis.

The city council of St John will call for tenders for the erection of a new wharf and warehouse at a cost of \$600,000.

**FOR
FOUR
BATH**

A trifle of Toilet Water added to the bath is refreshing and stimulating. We have a good variety to choose from.

Sea Baths at home are always possible by use of the purified sea salt we sell. Obtained by evaporation from sea water. A great help in overcoming the lassitude of spring and summer.

No one who has used a bath brush regularly can question its value. We have a nice line of the latest and best kinds.

Sponges in great variety and a vast assortment of bath soaps.
