Finer Cake

and biscuit are made with Royal Baking Powder than in the old-fashioned way, with cream of tartar and soda, or saleratus and sour milk. The ingredients of Royal Baking Powder are most highly refined and absolutely pure. Royal is always uniform in strength, making the food evenly good and wholesome. No spoiled or wasted materials where it is used.

PATRONAGE.

The Ontario government is now in the hands of the Conservatives. The axe is falling right and left on the old government office holders. The decapitations are so numerous and uncalled for in most instances that even the Toronto News, the paper to which Whitney in a large degree owes his present position, is constrained to enter a protest. The previous to the rain. federal government cannot allow this wholesale decapitation to continue without enacting reprisals if it pays any attention to the wishes of its Ontario supporters.

WOMAN ATTACKED.

Fredericton, N. B., May 10-(Special)-Miss Nellie Corbett, aged fortyfive, was the victim of a dastardly outrage here last evening. She resides at Forest Hill, and while passing Somerville Place, Waterloo Row, on her way home about nine o'clock was approached from behind by an unknown man who struck her a vicious blow in the face. She was knocked down and partially stunned by the shock, but remembers that the man caught hold of her and dragged her in behind a fence. Her screams for help frightened him

When the woman recovered her senses she found herself lying near the driveway leading to Somerville Place in a pool of blood, which flowed from two deep cuts over her left ear. Although very weak, she managed to reach her home, and had Dr. Weaver called in. The physician says her condition is serious, but not necessarily dangerous. In additions to cuts on the head, the woman's right eye is discolored. It was quite dark at the time the outrage was committed, and the woman is unable to describe her assailand. The police are working diligrand. The police are working diligrand to the case, but so far have gently on the case, but so far have no tangible clue.
