WHEN DOCTORS FAILED

Dr. Williams' Pink Pills Brought New Health and Strength.

From The Post, Thorold, Ont.

Mr. Reuben Lindsay, a fruit grower at Sidgewick, Ont., is one of the best known men in the section, having lived in the village or its vicinity all his life. All Mr. Lindsay's neighbors know that about a year ago his condition of health was very serious.

To use his own words he "began to go to pieces—was all wasting away." When a reporter of the Thorold Post called on Mr. Lindsay recently, he found him again enjoying the best of health, and when asked what had wrought his cure, he replied very emphatically "Dr. Williams' Pink Pills; they did for me what medical treatment and other medicines failed to do. In the spring of 1903, I continued Mr. Lindsay, "I grew so weak that I could hardly move about. My appetite completely failed me, and I seemed to be wasting away to a mere shadow. I grew so weak that I could not work, and could scarcely look after my horses without resting. I doctored with two or three good physicians, but got no permanent benefit. In fact they seemed doubtful as to what my trouble was. One said liver trouble, another kidney disease; but whatever the trouble was it was rapidly using me up. A neighbor who had used Dr. Williams' Pink Pills with benefit advised me to try them, but I felt somewhat skeptical. However, I was finally induced to try them, and before I had finished the second box, I could note an improvement. I continued using the pills until I had taken some twelve boxes, when I was again enjoying robust health—in fact I have no hesitation in saying I believe Dr. Williams' Pink Pills saved my life. Remembering my former unbelief in these pills, I gladly give this testimonial, in the hope that it may induce some other sufferer to try this great, health-giving medicine."

Other ailing people will speedily find new health and strength through a fair use of Dr. Williams' Pink Pills. Every dose sends new, rich, red blood coursing through the veins, and that is the reason these pills cure anemia, neuralgia, indigestion, liver and kidney trouble, rheumatism, and all other diseases having their origin in poor or watery blood—including the special ailments that make the lives of so many growing girls and women of all ages miserable. See that the full name "Dr. Williams' Pink Pills for Pale People" is printed on the wrapper around each box. If in doubt you can get the pills by mail at 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams Medicine Co., Brockville, Ont.

COMING TO CANADA.

Why Settlers From the United States Migrate to the Canadian West.

The St. Paul Farmer, a leading agricultural paper of the United States, says in a recent issue: "Again this year, as for the last four or five years, hundreds and thousands of farmers from the Middle States are moving into the Canadian West. If anything the movement has opened earlier this spring than usual. During the month of February, 200 tickets were sold from points on the Atchafalaya, Topeka & Santa Fe Railway system, to Western Canada via Minneapolis and St. Paul. The little town of Norton, Kansas, which has only 600 people, sent 70 of them into Manitoba and the Canadian Territories last month. These farmers are leaving land that is worth \$20 to \$300 an acre and are coming here during the next few years will be as good as, or better than they were in Oklahoma a few years since. Spent land and may be homesteaded in Western Canada or bought for a few dollars an acre, land that will multiply in value in the next five or ten years."

"If you question the thousands of people who are now passing through the St. Paul gateway on their way to their new homes in Western Canada, they will tell you that they are going into Canada simply because they can still get cheap and fertile lands. So great has been the demand for the famous hard lands of Western Canada during the past few years that it is a fact that the Canadian Pacific land department at Winnipeg has sold about five million acres. In addition to these sales it must be remembered that there have been large sales by other companies and that about five million acres of Government land has been homesteaded yearly."

There is no doubt that these new settlers will do well. Practically all the farmers in Western Canada who have come from the States are doing well. Many are making their fortunes. With wheat a dollar a bushel and land at from five to ten dollars an acre they can produce 20 to 30 bushels of wheat per acre. It is not difficult to understand how these people will "get rich quick" in the best sense of the phrase."
