

## REASON No 22 WHY YOU SHOULD USE Red Rose Tea

Because of the care in Selection and Blending.

My agents in the east are expert tea tasters, and every lot of tea that is sent down from the Gardens has to pass their inspection. They take samples from the chests and carefully taste them, then if the tea is fully up to the Red Rose standard, it is accepted and shipped; if not it is rejected.

The most important test of all, however, is when the tea arrives here, as during the passage through the Red Sea, the very great heat often affects the Tea very seriously. Immediately on arrival, samples are taken from each lot and subjected to the most rigid tests, and only those teas which have retained all their original flavor and strength are used for Red Rose (the balance is jobbed off in bulk).

When blended and ready to be put into sealed packages, it is tested again just to make sure no mistake has been made in the blending; nothing is left to chance.

Will you test us by ordering a package?

### THE UMBRELLA.

An umbrella stood on one leg in the hall,  
His ribs packed together quite painfully tight,  
He stretched on tiptoe when folk came to call,  
But tried, when they went, to shrink out of sight,  
For fear lest his gold head might lure them from right.  
The thought that he tempted weak men to their fall  
Do not suit this cold-water umbrella at all.

### Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

The fact has been slowly brought out that plants, like animals, generate a certain degree of heat by their life processes, although the amount is relatively very small.

It is reported in the New York market that fully 70,000,000 more eggs were received in Manhattan during the last quarter than were received in 1904 during the corresponding period.

### Condition Powder For Fowls.

The following formula is recommended by one of the leading authorities on the subject: Powdered mustard seed, 10 ounces; powdered fenugreek, 8 ounces; powdered sulphat of soda, 2 ounces; capsicum, 1 ounce; table salt, 1 ounce; powdered carbonate of iron, 1 ounce; ginger, 1 ounce; black antimony, powdered, 1 ounce; fine ground bone, 1 ounce; cornmeal, 10 ounces. Reduce to a fine powder and thoroughly mix. Mix a tablespoonful with each quart of mash food. Give two or three times a week.—Reliable Poultry Journal.

### The Young Man Scored.

An elderly gentleman opposed to the use of tobacco approached a young man who stood on a street corner in Toronto smoking a cigar, and asked him severely: "How many cigars a day do you smoke?"

"Three," was the reply.

"How much do you pay for them?" he went on.

"Fifteen cents each," replied the young man, patiently.

"Do you realize," went on his inquisitor, "that if you would save that money, by the time you are as old as I am you would own that big building on the corner?"

"Do you own it?" inquired the smoker.

"No," was the response.

"Well, I do," said the youth.

### No Crowding Japan.

Why all this chorus of European powers imploring Japan to be lenient with Russia?

Great Britain hopes Japan will not ask too much.

The United States hopes Japan will not ask too much.

Germany hopes Japan will not demand so much money that Russia will be ruined by borrowing it.

But why shouldn't Japan ask in money all this war has cost her, and, in land, what she has won as return for the men it cost to take it.

If Russia doesn't like the cost of war, Russia should be more careful to avoid war. She invited this war by the way she acted in China since 1894, and now she should be made to pay for it if only as a warning for the future.

Germany took precious good care to levy heavy toll on France, and collected the money. There has been no war since, either.

Japan is entitled to fair play in these peace dealings, even if she is the victor. It is nobody else's business, especially not the Kaiser's.

### Clever Young Lady Artist.

Miss Florence Minard, daughter of Rev and Mrs Burton Minard of Fiskville is congratulated upon her successful achievement at the close of the year of the Rhode Island School of Design. Miss Minard was awarded the Art Club scholarship, for her sketch of "Girl with Tennis Racket."

She was in the sketch class, and her work on the sketch which won the prize was very highly commended by the teachers and scholars at the school. It is at present on exhibition in the exhibition hall of the school.—Providence Paper.

The young lady mentioned in the above article is a granddaughter of George Milbury Esq of Bath.

### Dishorning Calves.

The easiest and simplest way to remove horns is to use caustic potash on the young calf just as the embryo horns are appearing. One can get the potash sticks at any drug store. The little tender button should be wet and a little potash rubbed on the moistened surface of the horn points until sufficient caustic has been transferred to the moisture. It may be necessary to give more than one application, but the calf will not mind.—Professor C S Plumb in Rural New Yorker.

Cardinal Gibbons says that when girls go into politics they lose their freshness. The casual sufferer would be willing to see several girls he knows become politicians.

### WHAT WOMEN SUFFER.

At All Ages They Need Rich, Pure Blood to Secure Health and Happiness.

A woman needs medicine more than a man. Her organism is more complex, her system more delicate. Her health is disturbed regularly in the course of nature. If anything happens to interfere with that natural course, she goes through unspeakable suffering. In fact the health of every function and the happiness of every moment of a woman's life depends upon the richness and regularity of her blood supply.

That is the simple scientific reason why Dr. Williams' Pink Pills are worth more than their weight in gold to women of all ages from fifteen to fifty. These pills actually make the rich, red blood that brings health and happiness and freedom from pain to every woman. Mrs. Neil Ferguson, Asfield, N. S., says: "In justice to you, and in the hope that what I say may benefit other suffering women, I take pleasure in stating that I have found wonderful benefit from the use of Dr. Williams' Pink Pills. When I began using the pills I was so badly run down that I could scarcely go about; at times I suffered very much and felt that life was passing me by. Thanks to Dr. Williams' Pink Pills, I can now say I am enjoying better health than I ever expected to have again, and I can most heartily recommend these pills to other suffering women."

Dr. Williams' Pink Pills cured Mrs. Ferguson because they filled her veins with the rich, pure blood so necessary to the healthy and happiness of every human being. It is for this reason that these pills always cure such troubles as anaemia, neuralgia, heart trouble, indigestion, rheumatism, sciatica, St. Vitus dance, paralysis, kidney and liver troubles, and the special ailments of growing girls and women of middle age. You can get these pills from any dealer in medicine, but you should be careful to see that the full name, "Dr. Williams' Pink Pills for Pale People," is on the wrapper around each box. If you wish you can get the pills by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

To the Bishop's Taste.

The late Bishop Green on one of his diocesan visitations stopped with an old friend at Sewanee, Tennessee.

At the early supper of the South, always a most informal meal, the Bishop said he would have nothing but a dish of bonny-clabber, a little nutmeg sprinkled over.

"There ain't a bit of nutmeg in the house," exclaimed the maid when the request was repeated to her.

"Dear me," said the hostess, sotto voce; "go to Mrs. Darlington next door and ask her to lend me a nutmeg."

Mrs. Darlington also was "out" of nutmeg.

"Then go to Mrs. Harding, on the other side, we can't all be out at once, then bring the Bishop the dish quickly."

The hostess kept up a rapid fire of bright talk to cover the hiatus in the service until the maid had appeared with the desired dish.

"What an addition is the little sprinkle of nutmeg," said the Bishop; "what a fine relish it gives."

When the good guest had retired the mistress said to the maid,—"Go to the supply store the first thing in the morning and get nutmegs, and return the nutmeg to Mrs. Hardings and—"

"But Mrs. Harding was out of nutmegs too."

"Then where did you get any?"

"La, Miss, I was dat worried out dat I des tuck a wooden handle to a ole shoe-button an' grated it on."

And the Bishop had relished it. So much for the power of suggestion.—MARTHA YOUNG, in July Lippincott's.

LEIBIG'S FIT CURE

VOLUNTARY IMPOSITION.

General Sherman once had occasion to stop at a country home where a tin basin and a roller-towel on the porch sufficed for the family's ablutions. For two mornings the ablu-

tion of the household watched small boy the visitor's efforts at in silence under the unfavorable making a toilet when on the third able auspices, but with ill-fate, whisk-day the tooth-brush, now used and broom, etc., had been duly travel-

returned to their places in the hisler's grip, he could suppress curiosity no longer, so boldly put the question: "Say, Mister, air you always that much trouble to yo'self?" July Lippincott's.

### IN STRICT CONFIDENCE.

Women Obtain Mrs. Pinkham's Advice and Help.

She Has Guided Thousands to Health.—How Lydia E. Pinkham's Vegetable Compound Cured Mrs. Fred Seydel.

It is a great satisfaction for a woman to feel that she can write to another telling her the most private and confidential details about her illness, and know that her letter will be seen by a woman only, a woman full of sympathy for her sick sisters, and above all, a woman who has had more experience in treating female ills than any living person.

Over one hundred thousand cases of female diseases come before Mrs. Pinkham every year, some personally, others by mail, and this has been going on for twenty years, day after day.

Surely women are wise in seeking advice from a woman of such experience, especially when it is absolutely free.

Mrs. Pinkham never violates the confidence of women, and every testimonial letter published is done so with the written consent or request of the writer, in order that other sick women may be benefited as they have been.

Mrs. Fred Seydel, of 412 North 54th Street, West Philadelphia, Pa., writes:

Dear Mrs. Pinkham:—

"Over a year ago I wrote you a letter asking advice, as I had female ills and could not carry a child to maturity. I received your kind letter of instructions and followed your advice. I am not only a well woman in consequence, but have a beautiful baby girl. I wish every suffering woman in the land would write you for advice, as you have done so much for me."

Just as surely as Mrs. Seydel was cured, will Lydia E. Pinkham's Vegetable Compound cure every woman suffering from any form of female ills.

No other medicine in all the world has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound. Therefore no prudent woman will accept any substitute which a druggist may offer.

If you are sick, write Mrs. Pinkham, Lynn, Mass., for special advice. It is free and always helpful.
