

Then please read:—When we say we employ a "Checking System" we mean that every ingredient entering a prescription is carefully checked by two competent persons and labelled with the initial of person dispensing and checking same. Now this is not all bluff, but a method to actual operation and one we religiously observe—and the fact that this is the only drug store in the county employing two registered druggists should carry some weight with you. See that your prescription bears our "check label" and you can rest assured you are getting the ideal service. All we ask is a trial.

HOG PROFITS

The hog is a machine to make pounds of pork. In raising hogs for the market, the profit is rapid and healthy growth. Feeding to simply sustain life makes you no profit. A food that will fatten your hogs in the shortest time, and with the least waste, is the profit maker. To get the most good out of its food, the hog must thoroughly digest and assimilate it. It is this assimilated food that makes the pounds of pork. The addition of Clydesdale Stock Food will enable it to do this. It creates an appetite for a full ration. Many farmers seem satisfied to let the hog "root" for itself. There is no better money maker on the farm if given half a chance. Clydesdale Stock Food will enable you to get your hogs to the market at least thirty days sooner; this is money saved. Mr. A. D. McDonald, Jericho, Ont., says: "I fed it to six fattening hogs as a test and found the hogs that received Clydesdale Stock Food made a decided gain over those that received none." This is "WISE FEEDING." Don't neglect the "RUNTS", they can be made to grow, and be kept growing, by using Clydesdale Stock Food. It will also keep your hogs in such healthy condition as will enable them to withstand Hog Cholera the greatest menace to hog raising. Keep your hogs and pens clean by using Carboline Antiseptic; as hogs thrive better when clean. If not satisfied after using, your money will be cheerfully refunded by our dealers in your district namely:
