Pretty Watches

For

Pretty Girls.

Board of Works Jan 02

Nothing nicer for a sweet girl graduate, whether she be a college one or one from her own mother's school of domestic science, than a dainty little watch. We have some that would be just the thing, and will part with them

\$10 and up to \$40.

PEACE.

Portsmouth, N. H., Aug. 29.—The peace conference arrived at a complete accord to-day on all questions and decided to proceed to the elaboration of a treaty.

The Japanese practically yielded everything. They accepted the Russian ultimatum. No indemnity, and a division of Sakhalin without payment of redemption money. The Japanese yielded interned warships and limitation of naval power.

The delegates will be called in afternoon session and the actual work on the preparation of the treaty will be begun.

This is the first and only Russian victory in the whole war. To have secured such easy terms after the humiliating reverses to which Russia has been subjected, is indeed marvelous. The Japanese were certainly anxious to stop the war else they never would have executed such a complete backdown.

Mr. Hayward's Letter.

Percy R. Hayward, until recently a teacher here, is now preaching at Upper Gagetown. He writes as follows, under date of Aug. 24th, to the *Intelligencer* :—

Upper Gagetown, N. B.—I am enjoying the work here. I have the Baptist and Free Baptist churches. They are not as strong in spiritual life as is desirable, but our heart has been gladdened to see two make the decisive step for Christ, and others are awakened to a renewed sense of their responsibilities and privileges as God's children. We are praying that the District Meeting may be a season of spiritual refreshing to all.

P. R. HAYWARD.

Mr. Hayward is an earnest young worker in the Master's Vineyard.

Monday at the Range.

Danger and Death.

The grim monster is lurking along the river front. For all we may know the poison from the town sewers is being carried right up to the intake. Everyone knows the frightful condition of affairs, but all seem alike helpless. What can be done to avert a typhoid epidemic which is practically sure to come unless the river rises three or four feet? The water from the creek, carrying the pestilential sewage runs up above the island. Some of our wisest and best informed citizens say on days when the wind is blowing up stream, the sewage goes right up to the intake, and therefore poisons the whole water supply of the town. It should be possible to have the right channel dredged or a break-water built on the Grafton side to divert the channel to the western side of the island. If neither of these courses be pursued the intake should be moved a considerable distance up stream.

Opening of the Schools.

The town schools re-opened on Monday with a fairly good attendance. At the College school Miss Neales once more takes charge of grade IX after her year's leave of absence. Miss Smith succeeds Miss McLeod and Mr R Ernest Estabrooks takes the position formerly held by Mr P R Hayward. At Broadway the only change is the employment of Miss Howe in place of Miss Balloch, resigned. The town schools are under very good instructors. Miss Wetmore of Clifton is here to take charge of the Sloyd School. Dr Brittain will take the nature work until the early winter, when he will return to the University as lecturer in Natural Science.

Had to Stay Home.

The SENTINEL acknowledges with thanks the receipt of an official invitation to attend and take part (that of a spectator we presume) in the inauguration of the new province of Saskatchewan. As the distance between here and Regina is very considerable and the walking not overly good we were unfortunately unable to accept the kind bid from the prairie capital.

John Greer of Maxwell, York Co., was in town Wednesday. He came up for a new threshing machine.
