

Centreville.

The Lord has been doing great things for us of late. May 27th I baptized fifteen candidates, eleven of whom were men, ranging in age from twenty-five to sixty years; six of them are heads of families. During the spring a great burden of souls has characterized our faithful membership. As we met together in our mid-week prayer meeting we set up our united petitions for the unsaved men of Centreville. A little later we put on special services. There was no effort to force the movement—just led by the Spirit. After the first week it was possible for Rev B Beatty to spend a few days with us. But as the work opened and the movement deepened we prevailed upon him to remain longer, so altogether he was with us two weeks. His faithful and fearless presentation of the truth carried deep conviction to many hearts. The revival continues. There are others. So quietly has the 'power' come upon us that some of the more emotional, and disinterested people about us have not yet realized that there has been a great revival of religion in our midst. Never in the history of this church has there been such a turning to the Lord on the part of the men. May God continue to richly bless His people everywhere.

"The Convict's Daughter" that comes to the Opera House Tuesday June 12th is in a great many respects a surprise to the public, for instead of the lurid melodrama that they expect, they witness a pretty story prettily told. The company this season is stronger than ever and "The Convict's Daughter" should not only repeat, but eclipse its former triumph.

NEW YORK WILL BE DESTROYED INSIDE OF ONLY TWO YEARS.

This is the Amazing Prophecy of Lee Spangler, Who Foretold the San Francisco Earthquake and other things.

New York is an ill-fated city like San Francisco. A destructive earthquake will come to it within two years. San Francisco was a wicked city. When I predicted last December that there would be a destructive eruption of Mount Vesuvius I also made the prediction that destructive earthquake shocks would visit San Francisco and other settlements on the coast.

It was communicated to me by the Lord that San Francisco was to be shaken to the earth and swept by fire because of its wickedness, but, ah me! San Francisco, with its opium joints, its gambling resorts, its dens of vice, its cosmopolitan mixture of vagabonds and rogues, is not to be compared to sinful New York, the worst city in the world for high crimes.

The real god of our fathers is no longer worshipped in the metropolis. The people there bow down to a new Deity—the Deity of the sordid and greedy, the hideous god Mammon!

Wall street is the centre for all

the high crime for which greed is responsible. There the schemes that are to rob and oppress the people are planned and set in practice by men who go unpunished because they have made themselves more powerful than the laws of their State and nation. But the mighty cannot escape the laws of God. The palaces that New York millionaires, with their ill-gotten gains, have reared will be shaken down upon their heads.

Light earthquake shocks will be felt on Manhattan Island from time to time. There will be disturbances in New York Bay and on Long Island. Then, finally, the great shock will come. Wall street will be laid in the dust. Skyscrapers will settle into the earth, and fire will sweep the island of Manhattan as it swept San Francisco. The Statue of Liberty will be thrown down like the great "Colossus of Rhodes," because it is a mockery.

The first earthquake shocks to visit New York will come as warnings from God, but they will not be heeded because the inhabitants—those of them who are in power—are too greatly steeped in sin. The earthquake area surrounding New York will be large. Many towns will be destroyed. There will be great distress. The rich oppressors will be the greatest sufferers. The poor, who are pure at heart, shall escape.

Mobs of hungry men and women will rove over the island taking from the rich, stripping the bodies of the dead and looting the ruined mansions.

All those churches in which hired sophists preach false doctrines—those churches where wealth reigns and the spirit of God is not—will be shaken down, never to be reared again, for they are false temples to a false god.

In the meantime, several terrific storms will sweep over New York City, causing much damage. There will be severe earthquake shocks in Spain within the next few months. The rivers of Russia are going to become dry and there will be great sufferings there from drought.

There can be no cheerful prospect when there is so much wickedness. These are the days of vengeance. Great disasters, mighty calamities are to visit the earth, because the end of the world is not far off.

Information Supplied.

Little Willie was being given that inestimable treat of childhood, a ride on the tramcar, and by and by the conductor approached. "How old is the boy?" he queried curiously. "Three," said his mother truthfully, and, as on that line children under five have not to be paid for, the conductor passed on. Little Willie pondered for a few moments, and then came to the conclusion that fuller information was required. "And mother's thirty-one, if you please!" he said politely.

Notice of Town Fire Limit.

To all persons whom it may concern:— You are hereby notified that the following is a copy of the by-law establishing a fire limit within the Town of Woodstock and all persons will govern themselves according to its provisions.

A LAW.

To Regulate the Construction of Buildings and the Materials to be used in the Construction Thereof Within Certain Districts of the Town of Woodstock.

Be it enacted by the Town Council as follows:—

1 All buildings shall be constructed of brick or stone with gravel or metal roofs which may be erected within the following described district in said Town of Woodstock, which said district shall be known as the Fire District. To include that portion of the Town north of the Meduxnaque bounded on the east by the Saint John river, on the west by Green street, on the north by Chapel street and Regent street, on the south by the Meduxnaque river; also to include that portion of the Town south of the Meduxnaque river, bounded on the north by the Meduxnaque, on the south by Park and Bull streets, on the west by Green street extending to the Meduxnaque, on the east by the River Saint John. The erection of frame buildings exceeding twenty five feet in height from the street level and the use of shingle roofs to be prohibited in the Fire District.

2 All buildings now situate within the limits of the above described district which may be destroyed partially by fire and the Insurance Companies pay a total loss shall be rebuilt of either brick or stone with gravel or metal roofs.

3 All buildings situate within the said district that may be partially destroyed or damaged by fire when a total loss is not paid by the Insurance Companies shall, when repaired, be covered with gravel or metal roofs, and no wooden buildings when so repaired shall exceed twenty-five feet in height above the street level.

By order of the Mayor.
