

Sunshine Furnace

The "Sunshine" furnace and "sunny" ways are synonymous.

The cold, dreary winter days can be made cheery and warm with a pure, healthful heat if you have a "Sunshine" furnace.

Is easier to operate, cleaner, uses less fuel and "shines" in many other ways over common furnaces.

Two shakers are used to shake the heavy, triangular-shaped grates. This just cuts the work of shaking down in half, besides being easier on the furnace than the old one-shaker style.

Sold by enterprising dealers everywhere.

IMPURITIES IN THE BLOOD.—When the action of the kidneys becomes impaired, impurities in the blood are almost sure to follow, and general derangement of the system ensues. Parnelee's Vegetable Pills will regulate the kidneys, so that they will maintain healthy action and prevent the complications which certainly come when there is derangement of these delicate organs. As a restorative these Pills are in the first rank.

Eld Joshua Denton will preach at the Adventist Church Wednesday evening July 11th 8 p. m.

Tired all the Time.

Mrs. GEORGE BEATTIE, Carr's Brook, Colchester Co., N. S., writes:—"Last spring I was very much run down, felt tired all the time, and did not seem to have life or energy enough to do my work. Three boxes of Dr. Chase's Nerve Food did me a world of good, and made work a pleasure to me. I have not had occasion to use any medicine since, and have recommended Dr. Chase's Nerve Food to all my friends."

CH Merritt & Co have once more started up after the fire in the old stand, and are now turning out better work than ever. The public will do well to call on them.

ITS POWER GROWS WITH AGE.—How many medicines loudly blazoned as panaceas for all human ills have come and gone since Dr. Thomas' Electric Oil was first put upon the market? Yet it remains doing more good to humanity than many a preparation more highly vaunted and extending its virtues wider and wider and in a larger circle every year. It is the medicine of the masses.

Boston, June 23.—District Attorney Moran, who is a Democrat, has appointed John S. Richardson, a Republican, assistant district attorney. When making his campaign last fall Moran promised that after his election he would appoint a Republican to his staff of assistants.

Portland, Me., June 15.—The Georgia, a product of the Bath (Me.) iron work, proved herself the fastest battleship in the American navy by maintaining a speed of 19.28 knots an hour for four hours on the official endurance run and acceptance trial off the Maine coast. This record exceeds by .06 knots the true speed of the New Jersey, made off the New England coast, March 20.

No person should go from home without a bottle of Dr. J. D. Kellogg's Dysentery Cord in their possession, as change of water, cooking, climate, etc., frequently brings on summer complaint, and there is nothing like being ready with a sure remedy at hand, which oftentimes saves great suffering and frequently valuable lives. This Cordial has gained for itself a widespread reputation for affording prompt relief from all summer complaint.

Despatches from Norway say that many of the visitors who went to Trondhjem to see King Haakon crowned seized the opportunity to make a cheap excursion to Hell. This startling news is latter qualified by the information that Hell is a beautiful summer resort about twenty miles from historic Trondhjem. The quality and number of its permanent population are not given.

Minard's Liniment Cures Distemper.

Pains in the Chest.

MR. JOHN CLARK, Port Hope, Ont., states:—"Last winter I was so bad with a cold that I could not speak above a whisper, and had great pains in the chest. A friend advised me to try Dr. Chase's Syrup of Linseed and Turpentine and one bottle cured my cold which I believe would have proven very serious if I had not used this medicine."

Chatham News.—When a lawyer cannot make his own will so that it cannot be contested and a solicitor when called is unable to guarantee that a document, as drawn up by him, will assure the testator's wishes being carried out, why, apart from wishing to help their family to escape the legal tangles incidental to dying intestate, do men make wills at all?

A CURE FOR RHEUMATISM.—The intrusion of uric acid into the blood vessels is a fruitful cause of rheumatic pains. This irregularity is owing to a deranged and unhealthy condition of the liver. Anyone subject to this painful affection will find a remedy in Parnelee's Vegetable Pills. Their action upon the kidneys is pronounced and most beneficial, and by restoring healthy action, they correct impurities in the blood.

LETTER FROM THE SOUTH.

Forsyth, Ga., June 20th, 1906
To the Editor of Carleton Sentinel:—

I wish to correct two errors printed in my letter of 6th inst. Error first—you made me say that wife and I got one fish each but it should have been one bite each, had your statement been the facts quite likely we would have been encouraged to have stayed to the fish fry, but we didn't.

The second error makes me say in the last clause of the letter that people get married get corned and go dead. It should have been people marry, get born and go dead. So a little upright dash on the left of the c as it appears in my number makes a great change in the word. I reckon of the few who may chance to read it, will wonder what corned people means. Well in this case it don't seem to mean anything. But we might name two or three kinds of corned people. For instance there are many men and women not (gentlemen and ladies) who get corned up on corn whiskey; some over tax a weak stomach, over a plate of roasting ears they so are corned, and many through pride sow corn seed in tight shoes which is sure to bring a full crop. This scribe knows this fact from sad experience. When I felt I was from under a father's control I planted this crop and got a full yield, but when I got old enough to have sense to wear a shoe big enough I had and now have comfort at the lower extremities. When will parents and children learn a little common sense! E. T. MALLORY.

P. S.—I am anxiously waiting the report of that railroad committee; hope they will report on the right location—through Carleton County.

MARTYRDOM DESCRIBED

Kingston Man tells how he Suffered and How he was Released.

CHAS. H. POWELL. Many who are now suffering from this complaint will be glad to learn from Mr. Powell's story that there is hope for the most stubborn case. He continues:—"I was induced to try Anti-Pill by reading the testimony of some one who had been cured of constipation by it. I had suffered for eighteen years and had taken tons of stuff recommended as cures but which made me worse rather than better. Doctors told me there was no cure for me." Dr. Leonard's Anti-Pill is for sale by all Druggists or by The Wilson-Fyle Co., Limited, Niagara Falls, Ont.

Mr. Powell will verify every word of these statements.

THAT TINY BABY.

All the New England papers are full of articles about the tiny baby born to Mr. and Mrs. Harry Tessier of Cambridge, Mass. This is what *The Boston Journal* has to say:—

"Probably the tiniest mite of humanity alive in the world today is the girl baby weighing less than a pound and a half, born to Mr. and Mrs. Harry Tessier of 388 Columbia street, Cambridge.

The baby is now in the baby incubator at Wonderland, Revere Beach, and the doctors yesterday reported to the anxious mother that the child was still alive and doing finely. They have every hope of saving its life.

Mrs. Tessier talked with a *Journal* reporter yesterday and said softly: "Wasn't it splendid that we could put our baby in such a place as that incubator. Dr. A. D. Shea, who is a physician, said that was the only way to save its life, and I let him take it there, though at first it was awful hard to let him go. They tell me that my baby is doing well and that there is a chance to save it. Oh, I hope that that is true."

The tiny baby, less than seven inches long, lies quite still and warm in its blanket at the incubator, and seems to be using all its tiny energies in an effort to breathe and live. It scarcely moves its tiny limbs at all as yet."

Dr. Shea is a native of Grafton, N. B.
