D. POTTINGER, General Manager, Moncton, N. B., June 20th, 1906.

**THE BEST Fire Insurance**

IS that which gives PERFECT SECURITY at the most equitable rates. The Non-tariff Companies, which I represent, have more paid up capital in proportion to risks involved than any other Companies.

They do not take hazardous risks, and can therefore do a safe business at lower rates than other Companies can.

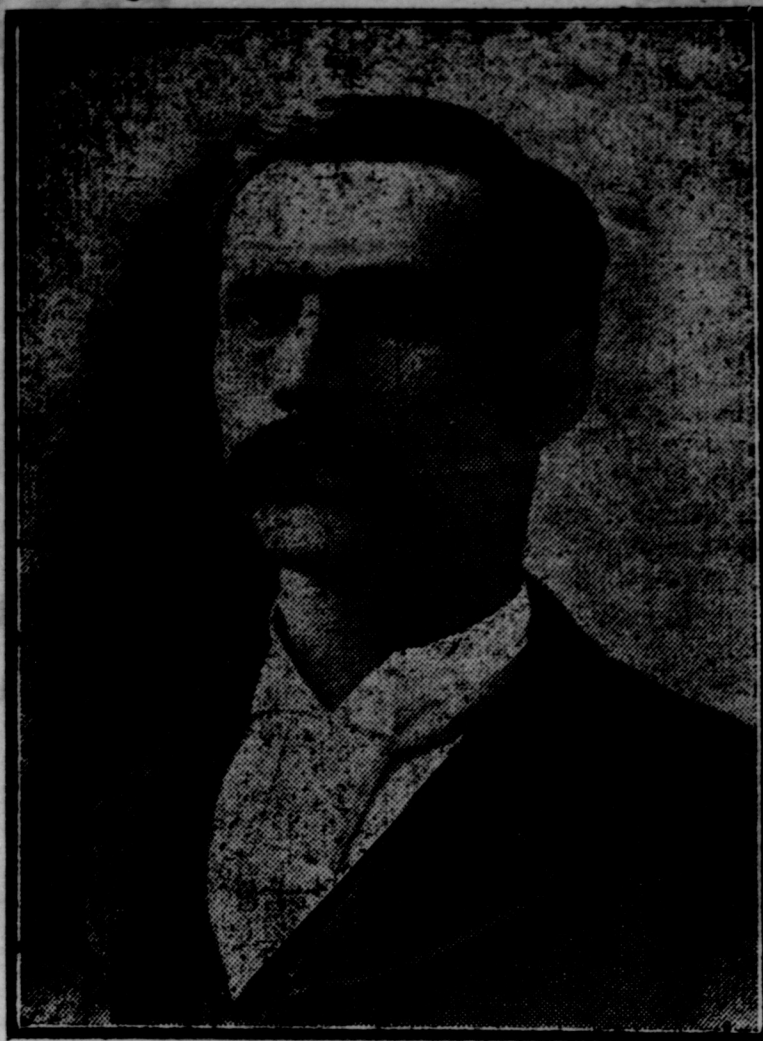

These Companies are noted for equitable adjustment of losses and prompt payments.

Many of the best business men in the Dominion, and in this County, insure in these Companies. They are the safest and best.

**GEO. L. HOLYOKE,**

District Agent.

Woodstock, N. B., June 23, 1906.—17-26.

**The New School Inspector.**

Mr Nelson W Brown, B. A., who at a meeting of the board of education Wednesday afternoon was appointed inspector of schools for district No 7 succeeding Mr H V B Bridges now principal of the Normal School, will assume his new duties almost immediately.

Mr Brown's territory includes: In the county of Kings, all districts west of the River St John. In the county of Queens, the parishes of Petersville, Hampstead, Gagetown and Canning. In the county of Charlotte, the parishes of Clarendon, Dumbarton and St James. The county of Sunbury. The county of York, except the parishes of Stanley, Southampton, Canterbury, North Lake and McAdam.

The new inspector was born at Middle Southampton, York Co, in 1868, and is therefore 38 years old. He is the youngest son of the late Squire Brown and a brother of the late Hon C P Brown, provincial secretary of Manitoba.

Mr Brown began his early education in the schools at Southampton and coming to this city and entering the Normal School the fall of 1882, he obtained second class the next June. He taught for a couple of years at Central Hampstead and returning to the Normal School he took a first class license in 1885. Then teaching for a number of years he returned to this city and took the High School course under Dr Geo R Parkin. He took the senior matriculation examination at the University in 1888, and graduated from that institution in 1891.

He has taught in all kinds of schools including the common, superior, high and grammar schools almost continuously since he first came to Fredericton in 1882.

Recently Mr Brown has been residing on his farm at Middle Southampton, where he dispenses a generous hospitality, and where he enjoys a large degree of popularity, taking an active interest in all that pertains to the welfare of the people.

Mr Brown while not a bitter partisan, has always taken a deep interest in political questions, and on many occasions has rendered his party good service on the stump. He is a Liberal, and a public speaker of much eloquence and force, but has discussed the issues of campaigns without giving offence to his opponents. His application for the inspectorship had the support of many Conservatives as well as Liberals, and the congratulations he has received on securing the position have come from both political parties.

Mr Brown is the possessor of a happy home circle, and he is essentially domestic in his tastes. Ten years ago he was married at Hopewell Cape, Albert County to Miss Bishop, youngest daughter of Mr George Bishop of that place, and they have three children, a boy and two girls.—Herald.

Mrs. John C. Gibson of Brooklyn, N. Y., is a sister of the Inspector, and Geo. W. and Jas. A. Gibson of this town are nephews.

**Our Southern Friend Writes Again.**

If you don't think it is hot in Georgia just get into Dr Thomas' baloon and sail down here. They used to tell me when I first came to Georgia that August was the hottest month in the year, but I find there is but little difference in the heat of the three summer months. Our peach crop has been very much cut by too much rain; a large part is rotted on the trees. From this and lack of transporting facilities by the railroad I presume that from forty to fifty per cent of the crop was lost. Corn in Georgia as a rule is good, but cotton is spotted. Some sections the prospect is fairly good and in other parts it is a bad prospect and quite a number of fields are thrown away, so much rain that it could not be cultivated and hence it has been turned over to the mercy of the grass and weeds. The crop has a yellowish cast from excessive rain, yet with all these disadvantages we hope to make some cotton. This scribble may go through to pay his taxes this year, and to buy the mistress a new bonnet. I am glad it has become the style for ladies to go without hats in Georgia especially at church at night. It is so much pleasanter to sit behind ladies with only the cover on their heads that God has given them than to be shut off from view of the preacher by those immense spreads, like most of the upper tens choose to wear. At our prayer meeting the other night there was but one lady that had on a hat and I reckon if she been a regular church goer she would have been posted and left her hat at home. I hope the ladies will excuse me, for it is my nature to see what my eyes behold and I think they will just so I don't it.

I see your City fathers are still wrangling and some of the papers are thrusting little sharp thorns at the other but they don't seem to hurt seriously neither Jones, Carvell, nor the liberal government. How Heaven-like it would be if all news papers that are the mouth piece for the people would beat their thorns into pruning shears and spears into cultivators, nor muzzle the or that has produced such prosperity in the Canadians as the liberal party has

in the last ten years. Let government alone. Speak well of the bridge that takes you safely over. I am not alone in saying that Canada has the best government in the world, but Carleton County is short in one thing, enterprise. They should either get every body to be good, or build a new courthouse, so that that judge won't have to eat his words, and hold court in the old shack again. You see if you get every fellow black and white, male and female to be good, you won't need that new courthouse nor so many expert lawyers nor so many officials to execute the laws. Your laws, as a rule are good, but in order to make them effective you need brave good men and honest men to execute them. Thus your fields will bring forth according as you work them, and the Scott Act will flourish like the sugar maple and your fields bring forth skipping lambs, in abundance, and your herds fat veal (would relish a piece to-day) and your swine herds would swarm with little grunners, and your children would play unharmed around the rat hole. Don't you see what a feature lies out in the world of possibilities before the good. I don't mean before one good and ten bad, but an unadulterated all good. I wish this joy could come not only to New Brunswick but to Georgia as well. How we need it here. Our state is ablaze with potatoes. There is only five candidates in the field for governor, and four of them are hitched to one end of the whipple-tree against the one on the other end, and we hope and believe the one Hoke Smith will set them all back with all their combined forces, money, trusts, and railroads. Smith is seeking reform, God grant he will find it. We need it as much as you needed it in 1896. Now whether Smith succeeds or not we expect to live as long as the mule brays and the hens lay. But just now the hens seem to have gone into a labor union, and are on a strike, but we hope when the corn crop is gathered they may be willing to make terms.

Cotton has begun to open some, but none of this scribble has done so. It is only the good farmers whose cotton is responding to his ability as a producer. But not so in my little farm. I am a sort of imitator of a good tiller of the soil.

I see nothing about the location of that railroad yet. Hope it won't be long before it will be located through the valley of that noble St John River.

I often wonder what has become of that poor fellow who had so many pieces of glass taken from his eye. It would seem as though that doctor had developed a real glass mine in that poor man's eye. He must view this green world with a single eye now.

More anon.

E T MALLORY.

**WHY GIRLS ARE PALE.**

They Need the Rich Red Blood Dr William's Pink Pills Actually Make.

Three years ago Miss Ellen Roberts, who holds the position of saleslady in one of the leading stores in Halifax, N. S., was a pale delicate looking young woman, who then lived at home with her parents at Amherst, N. S. She complained of general weakness and loss of appetite. Her blood was thin and watery and she grew thinner day by day until she looked almost a shadow. Her cheeks were sunken, all trace of color had left her face and friends feared she was going into a decline. "I had no energy," says Miss Roberts, "and suffered so much from the headaches and dizziness and other symptoms of anaemia that I felt I did not care whether I lived or died. One day, however, when reading our local paper I read a testimonial given by a young girl in favor of Dr Williams' Pink Pills, and as her symptoms were almost identical with my own I determined to try this medicine. Before I had used the second box I began to find benefit, and I continued taking the pills until I had used seven or eight boxes, by which time I was fully restored to health." To-day Miss Roberts looks as though she had never been ill a day in her life, and she has no hesitation in saying she owes her present energy and health to Dr Williams' Pink Pills.

Bad blood is the cause of all common diseases like anaemia, headaches, paleness, general weakness, heart palpitation, neuralgia, indigestion, and special ailments that only womenfolk know. Dr Williams' Pink Pills cure these common ailments because they make rich, red health-giving blood, bracing the jangled nerves and giving strength to every organ in the body. Do not take any pills without the full name, "Dr Williams' Pink Pills for Pale People," on the wrapper around each box. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from the Dr Williams' Medicine Co., Brockville, Ont.

There can be no doubt of quality with the Hewson trademark to guide your buying. Look for it every time.

**SHIVERING IN THEIR SHOES.**

The opposition organ seems to be laboring under a misapprehension. From the tone of the leading editorial in Monday's issue we would infer the financial critic of the opposition has been either inspiring or submitting matter for the fireside journal. Certainly all the earmarks are there. For the benefit of our two opposition members and those who may be of a similar frame of mind we will state, not officially of course but merely from all signs amounting to anything, that we will have another session before dissolution, and Messrs Smith and Flemming will each be able to draw another \$500 for their services. Let these worthy gentlemen subsidize. They will have a session's grace, for which they should be thankful. As to to comment in the Press concerning an alleged caucus of government supporters, all we have to say is that half a dozen friends of the Solicitor may have called upon him on the date named, but as to patronage, they had nothing to say.

**SUPPORT**

SCOTT'S EMULSION serves as a bridge to carry the weakened and starved system along until it can find firm support in ordinary food.

Send for free sample. SCOTT & BOWNE, Chemists, Toronto, Ont.

**NEWS FROM THE WEST.**

Winnipeg, Man, Aug 12.—The worst drowning accident in the history of Winnipeg occurred last evening. A party of eight persons were going down the Red River to River Park in a gasoline launch to join some friends at a picnic, and when only about one hundred yards from the landing, and in sight of the friends to whom they were waving a salute, their boat ran on a sunken pile and was overturned. Five out of the eight were drowned, the other three being rescued by two boatmen, who happened to be near.

Those drowned were: Myrtle, Ethel and Ernest Brown, children of City Clerk C Brown; Miss N Thompson, daughter of J Thompson, undertaker, and Miss White. Mrs Brown, mother of the three drowned children, and A Foxwell, and P Williams were rescued by boatmen in an exhausted condition just as they were sinking. The two men were indifferent swimmers, and were not able to render any assistance to the children. Mrs Brown was resuscitated with difficulty, but owing to the shock and exposure her recovery is doubtful.

Word comes from Wood Mountain that the bodies of the two little Hoffman girls, aged 9 and 11, who wandered away from their home while going after horses, on May 20 last, have been found by a sheep herder in Porcupine Creek, some forty miles from their father's ranch. They must have lived for days and finally died of starvation. Their father left for Wood Mountain yesterday to bring the bodies home. At the time of their disappearance, search was made for several days and their tracks traced for miles without result.

As previously announced, Mr J M Courtney, Deputy Minister of Finance, has resigned his position, and his resignation is to take effect on the first of November. It is understood that Mr Fielding has decided to promote to the Deputyship a member of the present staff, Mr T C Boville, who has been in the Department for nearly a quarter of a century. Provision was made at the recent session of Parliament for the appointment of an Assistant Deputy Minister. For this place it is understood that the gentleman chosen for this position is Mr Henry T Ross, barrister, of Bridgewater, N. S., who is at present acting as secretary for the Insurance Commission. Mr Ross is a Nova Scotian barrister of seventeen years standing. Mr Boville who is to take the position of Deputy Minister, is a son-in-law of Mr W N Silver of Halifax.

Minard's Liniment for sale everywhere.

**JOTTINGS.**

The Woodstock District Meeting will be held next week at Lakeville. There will be exercises covering two days, Wednesday and Thursday, 22nd and 23rd inst. A splendid program has been prepared under the direction of the new chairman, Rev E C Turner of Jacksonville. Interesting papers will be read by Rev M Squires of Andover, and Rev R G Fulton of Woodstock. It is expected that each circuit will send its full representation. The Lakeville folk are indeed hospitable, and all the visitors will be well looked after.

The Town Council has done very well in its selection of revisors. James Brewer is a man who should discharge the duties of the office without prejudice, and the same is true of E J Clarke. The town fathers acted wisely in giving both parties representation, something that has generally been overlooked in the past. For seven or eight years we have had only conservative revisors appointed by the Council. Joseph Fewer is chairman.

At Friday's session of the Council, Mayor Munro accepted Coun Leighton's motion, and the same was carried unanimously. In receding from his former untenable position, the Mayor acted wisely. We give His Worship credit for thus placing himself in line with the preponderance of public opinion, and the usage of all well-regulated deliberative assemblies. We trust we shall have no further occasion to "call down" our chief magistrate, who in the main, is a level-headed and capable official.

**Biggar Ridge.**

The home of Mr and Mrs Charles Hayden was gladdened by the arrival of a boy.

Charles Rowley wears a broad smile lately—it's a girl. Basha Biggar has returned from Jacksonville where she has been spending the last two weeks visiting friends and relatives.

Maude and Inez Grey were the guests of Iva and Charlotte Somerville recently.

Angus McCormac has returned from the far west.

Myra Biggar is visiting friends and relatives at Bristol.

Laura Biggar is staying with her sister, Mrs Moody Brooker at Riverbank.

Fred Redstone and wife and Will Glass and wife of Mars Hill spent a few days visiting relatives here.

The painter is busily engaged painting the interior of the church. We hope the church will be completed this summer.

A pie social was held at Foreston on the 11th inst for the benefit of our church.

James Lawson still continues ill. MOTHER'S DARLING.

**DR. A. W. CHASE'S 25c. CATARRH CURE...**

is sent direct to the diseased parts by the Improved Blower. Heals the ulcer, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever, Blower Catarrh and Hay Fever, Blower Medicine Co., Toronto and Buffalo.

The impression is growing in political and railway circles, that Mackenzie and Mann are negotiating with the Dominion for subsidies of land and money to aid them in the immediate construction of the railway to Fort Churchill on the Hudson Bay. The probabilities are that at the next session of Parliament an effort will be made to secure the renewal of the old Hudson Bay Railway charter, which has expired. The Canadian Northern will have a line built to Cumberland, a short distance from the northwest corner of Lake Winnipeg by the time the snow flies from that point to Fort Churchill is four hundred miles. There have been rumors of a big railway deal in the air for some time and a line to Hudson Bay is probably what is on the tapis.

**HAVE YOU PILES?**

Dr Leonhardt's Hem-Roid is an internal Remedy that entirely removes the cause of Piles, and cures to stay cured any case, no matter how long standing.

If you have Piles, and Dr Leonhardt's Hem-Roid will not cure you, you get your money back.

A thousand dollar Guarantee goes with every bottle of Hem-Roid sold. If you want a perfect and permanent cure, ask for Dr Leonhardt's Hem-Roid, the guaranteed Remedy.

All druggists, \$1.00 or the Wilson-Pyle Co., Limited, Niagara Falls, Ont.

**Wanted.**

A girl at the Royal Cafe. Apply to T. V. MONAHAN.
