### ALBANI'S GREAT PIANIST.

Next Wednesday's Great Event. Plan Opens To-day.

Not until the Albani concert has come and gone into the past will the public realize what a really great opportunity has come their way. Not only will one of the greatest singers of modern times be with us, but also some of the most celebrated artists in all Europe, including Adela Verne, one of the finest living lady pianists. It is more than worth the price of admission to hear this great player. Miss Verne has just returned from a recital tour in Germany, and her success in Berlin was simply amazing, and everywhere she is proclaimed the coming pianist of England. All the other artists of the company occupy almost the same high rank, and without question the aggregation has seldom been surpassed in this country in point of excellence. What could be expected of Woodstock but that they would turn out en masse for such an event. Excursions are being arranged from Houlton and all neighboring towns, and hundreds are planning to drive in from surrounding country to be present for the great occasion. All intending patrons should secure their tickets at once, as the capacity of the hall is sure to be easily exhausted.

## The Magnet

Awarded Medal at Fredericton, N. B., and Diploma at Sherbrooke, Quebec.

There are a few important points a farmer should look into before buying a CREAM SEPARATOR, and one is the construction. If you would ask a mechanic what gear would last the longest, the worm or spiral, or the square gear, he would tell you the gear with no friction, as there would be no danger of it burning out. THE MAGNET has no oil bathes or oil tanks to clog or get foul, as the gear does not have to run in oil. The reason is plain. There is no friction, as the cog mesh together square. There is no separator made that can equal THE MAGNET, or ease of turning, ease of cleaning, and for strength and durability can't be beaten.

The P. R. Manufacturing Co. have decided to sell The Magnet Cream Separator the present season direct from their factory, cutting out the local agents commission, giving same to the buyer, bringing the price within reach of all farmers who want a first-class separator. Be sure to see the 1906 Magnet with strong square gear and bowl supported at the top and bottom, making it impossible for it to get out of balance.

We are in a position to fill the paper with testimonials from prominent farmers in Carleton Co. who are using The Magnet, the Separator that is built in Canada for Canadian farmers and has taken the lead at all the Exhibitions in the Maritime Provinces. Below are the names of a few prominent farmers who use The Magnet:

R. Hemphill, Northampton; J. J. Rogers, Northampton; Elmore Robinson, Northampton; Leonard Shipp, Lower Woodstock; Benoit, Kirkpatrick, Deber; John Y. Fleming, Deber; Archibald Scott, Glassville; Archie Pearson, Glassville; Thomas Watt, Richmond; C. C. London, Bellville.

If space would allow we could give over two hundred more names of farmers who have been using The Magnet over two years. It is not the cheapest that is always the best. We find in travelling among the people using separators that the farmers who bought The Magnet two years ago, paying \$80.00, are better satisfied than those that bought the cheap worm gear machine for \$35.00. Cheap goods are dear at any price. When you get The Magnet you are sure of the best, as it has been thoroughly tested. For prices and further information inquire of
