

## GRAND DEMONSTRATION

In Honor of F. B. Carvell, M. P.

The friends of the member for Carleton are planning a great demonstration in honor of Mr. Carvell, to be given in the Opera House on Friday evening, the 30th inst., and taking the form of a public meeting, at which a complimentary address will be presented by the Chairman, ex-Mayor Hay, appreciative of the efforts that have been put forth by our member during his period as representative.

It is also expected that Hon. Wendell P. Jones, Solicitor General, will be present and deliver a speech. In addition an invitation has been extended to some outside gentlemen of prominence, among the number being the Surveyor General, Hon. Frank J. Sweeney of Moncton, who is well known as a splendid platform orator.

The efforts of an excellent general committee are being put forth to ensure a large attendance from all over the county. The members are as follows:—W. B. Nicholson, Reginald Dibble, Alexander Bell, Henry A. Phillips, Dr. Curtis, Albert Bell, G. Howells, Corbett, G. W. Jameson, W. J. Smalley, W. N. Raymond, Archie Scott and C. F. Gallagher.

The committee hereby extends a cordial invitation to all Mr. Carvell's friends throughout the county to be in attendance.

Haldimand County Councillor tells how Psychine cured his Lung Troubles

"I contracted a series of colds from the changing weather," says Mr. Bryce Allen, a well-known resident of Jarvis, Ont., and a member of Haldimand County Council for his district, "and gradually my lungs became affected. I tried medicine and doctors prescribed for me, but got no relief. With lungs and stomach diseased, nervous, weak and wasted, I began to use Psychine. With two months' treatment I regained my health. To-day I am as sound as a bell, and give all the credit to Psychine."

There is a proof of what Psychine does. It not only cures Colds and kills the germs of LaGrippe, Pneumonia and Consumption, but it helps the stomach, makes pure, rich blood and spreads general health all over the body. You will never have Consumption if you use

## AN INGENIOUS CRIMINAL.

Sir Robert Anderson, the former head of the Criminal Investigation Department, Scotland Yard, contributes some interesting stories of crime and criminals to the Daily Graphic. One is of a man who marked a millionaire as his quarry. This man rented a bedroom near the railway station from which the Dives he was stalking travelled daily to town. Well-dressed and well-groomed, he took his seat in the same compartment, attracting notice only by his apparent desire to remain unnoticed while he dealt with the paper he carried in a stylish handbag. One morning after a few such journeys he gave vent to his annoyance at having forgotten his keys. A stranger sitting in the opposite corner politely offered him his bunch in the hope that he would find on it a key to open the bag. But none of them would fit the lock. At the suggestion of the stranger (who, of course, was an accomplice) Dives then produced his bunch of keys, and a few seconds sufficed to enable the thief to take a wax impression of the key of Dives's safe. A few weeks later the safe was rifled, and before the crime was discovered the thief was across the Channel with his booty.

Then there was the genius who claimed that he could double the weight of gold, and was entrusted with \$100,000 by a city firm with which to test his scheme. He stipulated that no one but himself should ever enter the laboratory provided for the purpose of the experiment, but he ostentatiously submitted to a rigid search after each of his daily visits. One Monday morning he failed to put in an appearance, and when after an interval the laboratory was opened, the tanks in which the \$100,000 had been deposited were found to be empty. A letter posted in territory that knew no extradition treaty brought a full disclosure of the plot. A "Gentlemanly" sort of letter it was, expressing regret at the credulity of his victims, and congratulating them that the loss of \$100,000 was of small account to them. The thief explained that the handsome walking cane which he invariably carried was the biggest sovereign purse ever manufactured, and every time he visited the laboratory he filled it with coins.

NASAL CATARRH  
AFFECTS HEARING.

MR. R. J. ARLESS.

## FINDS RELIEF IN PERUNA.

Mr. R. J. Arless, 401 City Hall Ave., Montreal, Quebec, is an old gentleman of wide acquaintance, having served thirty-eight years in the General Post-office of Montreal, a record which speaks for itself. Concerning his use of Peruna, Mr. Arless says:

"I have been afflicted with nasal catarrh to such a degree that it affected my hearing."

"This was contracted some twenty years ago by being exposed to draughts and sudden changes of temperature."

"I have been under the treatment of specialists and have used many drugs recommended as specifics for catarrh in the head and throat—all to no purpose."

"About three years ago I was induced by a confrere in office to try Peruna."

"After some hesitation, as I had doubts as to results after so many failures, I gave Peruna a trial, and am happy to state that after using eight or ten bottles of Peruna I am much improved in hearing, and in breathing through the nostrils."
