## TOWN COUNCIL.

The Town Fathers met Monday night, the full board being present. The Town Treasurer's Report was received, showing a bank credit balance of \$325.29.

Wm Dibblee, P. M., presented his report for the past quarter showing \$14 imposed in fines.

On motion of Coun Leighton, seconded by Coun McManus, the sum of \$14 was ordered paid the Methodist Church Corporation, being a refund of the amount wrongfully assessed upon the Church during five years for a strip of land in Wellington Ward. This was the Henry Upham lot, bequeathed to the Church on condition that a branch Church be erected thereon within three years. As this proviso was not fulfilled, the property reverted to Mr Upham, and the Church therefore continued paying the taxes upon a piece of land it did not own. Ex-Mayor Lindsay being present, was heard in the matter, and explained the transaction to the satisfaction of the Council.

Coun Dunbar brought up the matter of salary to be paid the pumping Station Engineer after the taking over of the street lighting by the Dam Company. He presented tenders as follows:—Albert Worth, \$80 per month; Harry H Jones, \$80 per month. The tenders were referred to the Water Committee.

The Mayor suggested advertising the 25 Town Lights and the Dynamo for sale. This was agreed to. On motion of Coun Leighton, seconded by Coun McManus, \$5000 in bonds will be issued, for permanent repairs. The receipts thereof are to be deposited to the credit of "Special Improvement Account."

On motion of Coun Leighton, seconded by Coun Fields, the water rate for the Armory was fixed at \$25 per annum.

## STRONG TESTIMONY

"If the Grand Trunk Pacific comes down the Valley of the St John it will be due wholly to the efforts put forth by Mr Carvell"—Hon Frank J Sweeney, Surveyor General, in Graham's Opera, Nov 30th.

JUST THE THING THAT'S WANTED.—A pill that acts upon the stomach and yet is so compounded that certain ingredients of it preserve their power to act upon the intestinal canals, so as to clear them of excrement, the retention of which cannot but be hurtful, was long looked for by the medical profession. It was found in Parmelee's Vegetable Pills, which are the result of much expert study, and are scientifically prepared as a laxative and an alternative in one.

Catarrh of the nose and throat, should lead you to at least ask us for a free trial box of Shoop's Catarrh Cure. Nothing so surely proves merit as a real, actual test—and Dr Shoop, to prove this, earnestly desires that we let you make that test. This creamy, Snow White healing balm, soothes the throat and nostrils, and quickly purifies a foul or feverish breath. Call and investigate, GARDEN BROS.

## WELL DESERVED.

Mr F B Carvell M P deserves well of his party and Friday night's demonstration at Woodstock in his honor touched the key note of the general regard for him that is felt throughout New Brunswick.

Mr Carvell's rise to political prominence has been rapid and is the result of his ability and his indomitable pluck.

He won his way to the legislature and to parliament against heavy odds, he has achieved a splendid position among his fellow members at Ottawa and his political future is full of promise.

On the platform at Woodstock, Friday night, he had the support of two other valiant and popular young Liberal politicians, in the persons of Surveyor General Sweeney and Solicitor General Jones, and the demonstration appears to have been a singularly enthusiastic and successful one. ## "The Blood is the Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It cures and purifies the blood, thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

## Very Consistent, as Usual.

The Press takes the SENTINEL severely to task for printing the truth about some of its conservative friends. In the very same issue our righteous contemporary publishes, with approval, a scurrilous article from a provincial daily, grossly libelling a prominent member of the town council. Isn't that just like our Janus-headed contemporary?

## CAW, CAW!

The Press serves itself a tempting dish of crow in its last issue over the petition seeking the closing out of the bonded warehouse at the Line.

Mrs Slipp, president of the W O T U very effectively answers the base insinuation that the petition was sidetracked.

See page 3 of Monday's Press.

Howard London has enrolled for a course at the Houlton Business College.

Some fifteen years ago, a wandering Hindu drifted, Heaven knows how, to British Columbia. Being alone, he was not feared or considered a dangerous alien, but quietly allowed to work out his own salvation. This he proceeded to do. The wages which he received were, to his mind, fabulous. Being industrious and saving, he gathered together what in his native land would be enormous wealth. Then he went home to India with his wonderful tale of the land of gold and with a few thousand dollars to show as tangible proof that he was telling the truth. The heavens have begun to work. The Hindoos are coming, four hundred on the last boat and eight hundred on the next one. The British Columbians, already abundantly supplied with orientals in the shape of Japs and Chinamen, are threatened with a new invasion.

They don't like it, but just how they are going to stop it is not quite clear. The Hindoos are British subjects. Any steps to restrain their movements within the Empire will have to be accounted for to the Imperial authorities. The movement, of course must be stopped so far as British Columbia is concerned, but before the necessary steps can be taken there will be three or four thousand of those people on the Pacific coast, to add to the racial difficulties with which it is already afflicted. What can the government, under the circumstances, do about it? They are British subjects. If they know anything about farming, the government might appease the wrath of the British Columbians by inducing these Hindoos to occupy some of the many vacant lands in the Maritime Provinces. It might be worth the while of the Government to enquire into their character as settlers and take steps to direct the immigration of the Hindoos from British Columbia to New Brunswick. Anyway the British Columbia people don't want them in their province, and for that matter don't want any foreign class to come into their domain.

A guest who had just registered at the Shirley Hotel, says The Denver Post, was approached by a boy with a telegram. It had \$1 charges on it.

"What?" said the guest, before opening it. A dollar charges? I won't pay it. Anybody who cannot pay for his message when writing me is certainly a cheap one. Wait a minute. I'll just let you report this uncollected and the sender may pay charges."

At that he tore the envelope open. As he read a smile settled on his face, and, pulling a dollar from his pocket, he handed it to the boy. "It's all right," said he. Then he threw the message on the counter. "Read it?" he said to C I Newton, the clerk. The message read:

"Papa's little girl sends him 50 bushels of love and wishes he was home to kiss her good night. Nellie."

Did you every think—that the man who takes an Endowment Policy with the Manufacturers Life, receiving at the end of a specified period all he has paid in, as premiums, with interest, has actually had free insurance during the continuation of the policy?

The Leader in its issue of last week contains a vicious and would-be humorous attack upon the Minister of Railways. Will Mr Morrissey, who sought a liberal nomination in 1904, repudiate the article? As chief proprietor of the paper it is up to him to stand by the attack, or proclaim his disapproval of it. If he were a Liberal in 1904 he should be one now. The party is the same today as it was two years ago.
