lose the opportunity of saying that The Sharples Tubular Separator Has No Equal.

Is an old adage, but we must not

WHEN WE SELL a Separator with rated capacity of 500 pounds per hour, you get what you pay for.

WE DO NOT have to cut off tubes or to enlarge the milk delivery to make them skim to their capacity.

WE DO NOT have to rebuild our Separators after they are in the hands of a purchaser in order that they may be what we claim. This work is done by the manufacturers who understand their business.

IN YOU BUY a Separator which the agent claims will skim 500 lbs per hour, and you find after using that it only skims 400 lbs, you have not got what you paid for.

Try the Sharples Tubular and you will buy no other.

We also sell Mc ormick Machinery.
