MRS. FRANCIS RANKIN.

Katherine, wife of Francis Rankin of Huntly Lodge, Grafton, died Tuesday morning after an illness of some weeks, in the 66th year of her age.

Mrs Rankin was the eldest daughter of the Rev Dr Donald. She was born in Scotland and at an early age came with her parents to the city of St John where her father was pastor of a Presbyterian church. She leaves a husband, one son Dr W D Rankin of Vancouver and two daughters, Misses Marion and Catharine, living at home. Mrs Robert Thomson of St John is a sister and Mr William Donald of New York a brother. Mrs Moorman of Truro and Miss Lynda Donald of New York are half sisters and there are four half brothers living in the United States.

Mrs Rankin was a particularly charming personality. She was well read, bright and intellectual, a most entertaining companion, and was respected and beloved by all who had the pleasure of knowing her. She was a devout member of the Presbyterian church and beside contributing generously to its support she devoted much valuable time to the furtherance of its welfare.

The deceased's son Dr W D Rankin of Vancouver, B C, arrived on the day following her death. The funeral services yesterday afternoon were attended by Rev G D Ireland.

Death of Mrs McCain.

The death of Mrs James McCain occurred at the Florenceville Hotel, on Saturday, January 20th. For more than seven months Mrs McCain had been an intense sufferer from an internal cancer. In June last she had undergone an operation at the hands of specialists in Boston, but while it afforded relief for a time and promise of betterment, the disease returned to result only in her death on the above date at the age of 48 years.

Mrs McCain was a great sufferer, but her suffering she endured with marked patience and fortitude. She was a member of the Methodist church and lived a consistent christian life. She leaves to mourn their loss a husband and daughter, besides an aged mother, sisters and brothers and a large circle of friends. Her remains were interred in the Union Cemetery, Mattawankeag, Me.

Here's A Bit of News

That should interest you if you care to make a fine saving in a Clothing purchase.

We won't carry our stock if we can possibly avoid it, and it is at this season that we cut prices all to pieces—small pieces. Spring Goods are already beginning to arrive and we need the room.

As we are reorganizing our business, to take effect March 1st, we would respectfully ask all parties indebted to us to kindly settle up their accounts during February.

John McLauchlan,

The Leading Clothier and Haberdasher.

GENTLEMEN,—

Please give me your attention for one moment:

We have a large stock of Suitings and Overcoatings on hand, and rather than to carry them over and also to keep our help busy during the quiet winter, we are willing to clear them out at **ACTUAL COST** and some **SPRING GOODS AT LESS THAN COST** to clear. This is a bonifide proposition. These goods must go and the help must be kept busy, as to attain first-class help you must give them steady employment.

Call at once and you will be convinced that we do just what we advertise to do.

Gentlemen that admire nice fitting and stylish garments take heed and do not meditate too long.

Grafton, Feb 12, 1906.

Mr N S Dow:
Dear Sir,—The No 2 Tubular Separator which I bought from you a year ago has more than paid for itself in one season in a live cow dairy. We have made over 300 lbs more butter the past season than we did the previous year, although I believe our cows gave less milk this year just past. It skims absolutely clean, turns easy, cleans easy, has a low down supply can, and is all right in every respect.
Yours truly,

WM. HAYDEN.

Ferryville, Feb 8, 1906.

Mr N S Dow:
Dear Sir,—The Sharples Tubular Cream Separator No 3 that we got from you last spring has given us entire satisfaction. We were using the creamers in spring water, and I think there were times we got scarcely more than half the cream. The Separator has entirely overcome this. The Tubular is very easy to clean, as I can do it in five minutes. The machine has run every day since we got it and has never caused a minute's trouble.
Yours truly, MRS G ARTHUR GIBSON.

Northampton, Feb 8, 1905.

Mr N S Dow:
Dear Sir,—The No 4 Tubular Cream Separator we bought from you last year has been running steadily for six months, giving good satisfaction. It requires much less work than either the creamers or pans. I am also satisfied we make a good deal more butter of much better quality.
Yours truly, MRS SIDNEY COLWELL.
