Nervous Dyspepsia Mr George Bolen, Spry, Bruce Co., writes:—"I was troubled with nervous dyspepsia for some years, and after using nine boxes of Dr Chase's Nerve Food I felt better than I had for years. Dr Chase's Nerve Food is certainly the best medicine I ever used, and I say so because I want to give full credit where it is due."

The St John Exhibition has decided to offer handsome medals for choice industrial exhibits at their Big Fair Sept 1st to 8th. This will be an interesting innovation and will make the showing at St John bigger and better than ever.

The special features of the St John different from any former Exhibican afford to miss the St John Exhibition and the Railway Rates are the cheapest ever offered.

WIRE WOUNDS.

My mare, a very valuable one, was badly bruised and cut by being caught in a wire fence. Some of the wounds would not heal, although I tried many different medicines. Dr Bell advised me to use MINARD'S better, until after three weeks, the sores have healed, and best of all the hair is growing well, and is NOT WHITE as is most always the case in horse wounds.

The St. John Exhibition is the banner Fair in more ways than one. It is held first of any Maritime Pro-Aince Fair, the dates being Sept. 1st to 8th, but it is also advertised as "the Best Fair in Eastern Canada," and present indications are it will live up to this high standard.

Cholera and summer complaints are so quick in their action that the cold hand of death is upon the victim before they are aware that danger is near. If attacked do not delay in getting the proper medicine. Try a dose of Dr J D Kellogg's Dysentery Cordial, and you will get immediate relief. It acts with wonderful rapidity and never fails to effect a cure.

Setting the Heather on Fire.

In the report of a sermon delivered ford, in a flourishing community in this county, there are some things which should not go without comment. "Chat," the Hartland paper in its account, says :- "He," the speaker "advised the constitutency present to vote for a free public school system throughout Canada and to strive for the rebuilding for the cause of God in their several communities; and to elect a protestant leader in parliament to govern the affairs of the colony."

Mr Stockford is correctly reported he has certainly done no good by this remarks. He has merely added a fagot to the flame that should be quenched.

We have about as good a free public school system in Canada as will be found in any country Mr Stockford ever visited. The only regularly Clark's Canued Meats made from maintained separate schools are to selected meats-are absolutely pure be found in Quebec for the protec-It takes a wide awake devil to province of Ontario for the relief of the few Catholics living there. As TESTED BY TIME.—In his justly celebrated for electing a protestant leader in parliament, we will say in all seriousness that such advice is gratuitous and uncalled for. What would Mr Stockford say if some Catholic priest without pain, it has met all requirements were to advise his flock to vote only for a Catholic leader? Any man who uses the sacred office of the Christian and curative powers which place it in the Ministry as a cloak in stirring up religious prejudice, is not wanted in There is such a demand for space | this Canada of ours, be he protestant for Industrial Exhibits at the St or catholic. DIFFERENT HERE.

"Onlooker" in the New Freeman has published several articles recently which if they have any meaning at all, must be printed for the purpose of stirring up the Catholics of St John in order that they may secure a greater number of public offices. As the New Freeman is a class paper, and a very bright one at that, not much complaint can be made on the score of its doings, as it caters only to its own constituency. But be the conditions what they may Exhibition which opens Sept 1st and in St John, we do not think it well, closes Sept 8th would alone make it or in the interest of the New Freeman's friends, that any particular tion. what we have said in this particular. | matters were run on the principle of so many offices to each church according to population, many catholics would lose their situations. It is no use adopting a rule that works both ways. Let fitness be the sole test. If offices were to be distributed according to religion, what would the Baptists have to say? They are by far the most numerous religious denomination here, and are not kicking on account of having so few public positions, neither are the Methodists. Let this denominational claim to office on religious grounds be scattered to the four winds. We want none of it here.
