

## New Knows That CONSTIPATION Can Be Cured

"Fruit-a-lives" also look away that severe pain in the kidneys.

No cathartic, purgative, pill, powder or salt will cure Constipation. "Fruit-a-lives" will. Cathartics and purgatives do not act on the liver. They irritate the lining of the bowels. This irritation does make the bowels move, but it so tires and inflames the muscles that they won't act again until irritated by another dose of purgative. Bile from the liver is the only thing that makes the bowels move naturally. "Fruit-a-lives" don't act on the bowels at all. They tone up and invigorate the liver—enable the liver to send more bile into the bowels—and make the liver so strong that it will do this regularly every day. And bile is nature's only purgative.

### Testimonial of A. McBain, Ottawa, Ontario.

Chronic Constipation and Kidney disease Cured by "Fruit-a-lives."

To Fruit-a-lives Limited,  
Bank St., Ottawa, Ont.  
OTTAWA, Aug. 14th, 1905.  
"I was a great sufferer for years with what seemed to be incurable constipation, and I tried every known remedy and several physicians but all the pills and medicine I took seemed to do me harm. I was advised to try 'Fruit-a-lives' and I can truthfully say they have absolutely cured me. I was also affected with a nasty pain over my kidneys while the constipation lasted and 'Fruit-a-lives' have entirely

cured that pain also. My stomach also was in bad shape, my digestion was poor, with sour eructations and belching wind and 'Fruit-a-lives' cured my stomach, for now I have no trouble in that way. I cannot say too much in favor of 'Fruit-a-lives' and I wish to recommend them to any one suffering with constipation and stomach trouble, and also to any one with constant pains over the back or kidneys."  
(Sgd) A. McBain,  
75 Victoria St., Ottawa.

This is what "Fruit-a-lives" are doing all the time. Not a day passes in which someone, who has tried pills and tablets and salts in vain, does not have the same experience with "Fruit-a-lives" that Mr. McBain had.

"Fruit-a-lives" are a concentrated combination of fruit juices in tablet form. They contain no calomel, cascara, senna, jalap. They are nature's laxative and liver tonic. They cure Constipation in the only way that it can be cured—by making the liver healthy and causing the bowels to receive their daily supply of bile.

Druggists everywhere have "Fruit-a-lives." If, for any reason, your druggist has none, send direct to the company. 50c. a box or 6 boxes for \$2.50. Mailed postpaid on receipt of price.

During the past 20 years some 2,001 balloon and airship ascents have taken place in Germany, and only 36 cases of accident have befallen the 7,570 persons taking part in them.

William Harris and William Murdock have returned from the lumber woods where they have been to work at Skiff Lake. They are looking well.

Mr and Mrs Harry Pickard have returned from the lumber woods where they have been cooking for Gilman Bros & Burden on Poquolock.

Mr and Mrs Odbury Lenentine of Upper Southampton were visiting in this place, the guests of Samuel Barrow, brother of Mrs Lenentine.

To Mr Mallory of the South—Jonah was vomited up and told Ninevah to repent and Ninevah was saved. The lizard was vomited up and landed in the slop pail and Frank is all right, but I don't believe Waterville repented.

Frank Harris made a dying trip to Woodstock lately.

There is talk of Dow Stairs of Houlton, Me, coming back to this place to live.

### CUBA IN WINTER.

(By our Special Correspondent.)

A feeling naturally steals over one living in the Canadian North at the approach of every winter that if the rigors of that season could be escaped a new charm would be added to life. With some this thought is intensified with age. Not all the snows and frosts can dissipate the dreams of roses, and the fruit and balmy air of an ageless summer-time and an opportunity for a visit to the south in winter is seldom missed.

Your correspondent is one of those who has had the happy privilege of a visit to Cuba in mid-winter and inasmuch as this Island is so much in evidence to-day, his impressions of its life and prevailing conditions may prove of interest to the readers of the SENTINEL.

In the first place the journey to Cuba is one of the pleasantest. It is much easier and far more full of interest than an "all rail" journey, and the expense of it is not comparatively great. To New York by rail, in twenty hours you realize that you are upon the Havana boat steaming out towards the summer seas. Probably the most comfortable and direct line of steamers are those of the Ward Line. Upon them a first class ticket to Havana is forty dollars. Although I had written a week before to secure the reservation of a stateroom on one of these boats, upon arrival in New York I learned that the travel was so great that for several sailings there was no 1st class accommodation. One could have gone by the Munson Line to New Orleans and then to Havana by steamer, but wishing to sail to Havana I took a steamer of the Mallory Line sailing to Galveston, Texas, changing to another steamer at Key West. It required an extra day to reach Havana and the ticket is the same.

It was a delightful voyage. Pleasant and summer seas indeed they were. After the first day we could sit upon the decks with the thinnest summer clothing without outside coats. For a day we skirted the coast of Florida. We had an afternoon in Key West. To the public this is a place of interest for its fortifications and cigar manufacture. To me its interest was somewhat centered in its bananas and palms which were the first I had ever seen. Seven large turtles were lined upon the wharf, averaging upwards of 160 lbs in weight, doomed to the soup pots of Miami. The value of each to the owner in Key West was about \$20.

We crossed the Straits of Florida at night in a steamer named the "Muscootee". It was just daylight as we passed through the narrow entrance to Havana harbor close at the base of "Morro" and the inner fortifications. There above an elevation of probably 200 feet of solid rock, rose the high sullen silent walls of the outer ramparts. Over the ominous mountain of masonry into the far distance stretched the beautiful field, clothed with the thick verdure of a Tropical Island, and thickly studded with palms. On the right a mile or more away stretched the city of Havana. The first impression is that it is a clean and busy city. In the inner harbour is the wrecked "Maine". Two masts and a heap of twisted iron show above the water. Sailing within fifty feet of this we anchored and waited the arrival of the doctor and customs' officer. Havana has no docks. At present it would defeat a government to propose their erection. After a long delay we were transferred to a small steamer and landed at Machinery Wharf. It is Spain; it sounds like Spain; it looks like Spain; it smells like Spain.

E. W. S.

The courtship of the King of Spain and the Princess Ena seems to be getting on all right, but as an old hand at the job I cannot say I envy their facilities. There is too much limelight turned on to be comfortable in such a cooing, cuddlesome business.

## We Will Buy

You a Bottle of Liquezone, and Give It to You to Try.

We make few claims of what Liquezone will do. And no testimonials are published to show what it has done. We prefer that each sick one should learn its power by a test. That is the quickest way to convince you.

So we offer to buy the first bottle and give it to you to try. Compare it with common remedies; see how much more it does. Don't cling to the old treatments blindly. The scores of diseases which are due to germs call for a germicide. Please learn what Liquezone can do.

### What Liquezone Is.

The virtues of Liquezone are derived solely from gases. The formula is sent to each user. The process of making requires large apparatus, and from 8 to 14 days' time. It is directed by chemists of the highest class. The object is to so fix and combine the gases as to carry into the system a powerful tonic-germicide.

Contact with Liquezone kills any form of disease germ, because germs are of vegetable origin. Yet to the body Liquezone is not only harmless, but helpful in the extreme. That is its main distinction. Common germicides are poison when taken internally. That is why medicine has been so helpless in a germ disease. Liquezone is exhilarating, vitalizing, purifying; yet no disease germ can exist in it.

We purchased the American rights to Liquezone after thousands of tests had

been made with it. Its power had been proved, again and again, in the most difficult germ diseases. Then we offered to supply the first bottle free in every disease that required it. And over one million dollars have been spent to announce and fulfill this offer.

The result is that 11,000,000 bottles have been used, mostly in the past two years. Today there are countless cured ones, scattered everywhere, to tell what Liquezone has done.

But so many others need it that this offer is published still. In late years, science has traced scores of diseases to germ attacks. Old remedies do not apply to them. We wish to show those sick ones—at our cost—what Liquezone can do.

### Where It Applies.

These are the diseases in which Liquezone has been most employed. In these it has earned its widest reputation. In all of these troubles we supply the first bottle free. And in all—no matter how difficult—we offer each user a two months' further test without the risk of a penny.

Asthma, Anemia, Bronchitis, Hay Fever, Indigestion, La Grippe, Leucorrhea, Malaria, Neuritis, Piles, Rheumatism, Scabies, Syphilis, Tuberculosis, Typhoid, Ulcers, Venereal Diseases, Gonorrhea, Gleet, Gonorrhea, Hay Fever, Indigestion, La Grippe, Leucorrhea, Malaria, Neuritis, Piles, Rheumatism, Scabies, Syphilis, Tuberculosis, Typhoid, Ulcers, Venereal Diseases.

Also most forms of the following:  
Kidney Troubles, Liver Troubles, Stomach Troubles, Women's Diseases, Fever, inflammation of catarrh—impure or poisoned blood—usually indicate a germ attack. In nervous debility Liquezone acts as a vitalizer, accomplishing remarkable results.

### 50c. Bottle Free.

If you need Liquezone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and will pay the druggist ourselves for it. This is our free gift, made to convince you to test the product itself show you what it can do. In justice to yourself, please accept it today, for it places you under no obligations whatever. Liquezone costs 50c. and \$1.

### CUT OUT THIS COUPON

Fill it out and mail it to The Liquezone Company, 424-44 Wabash Ave., Chicago.

My disease is \_\_\_\_\_  
I have never tried Liquezone, but if you will supply me a 50c bottle free I will take it.

NAME \_\_\_\_\_  
GIVE FULL ADDRESS—WRITE PLAINLY.

Note that this offer applies to new users only. Any physician or hospital not yet using Liquezone will be gladly supplied for a test.

## DON'T THROW MONEY AWAY

THE SETTING HEN—Her failures have discouraged many a poultry raiser.

You can make money raising chicks in the right way—lots of it.

No one doubts that there is money in raising chickens with a good incubator and brooder. Users of the Chatham Incubator and Brooder know this. They know it from the start. The idea that you can successfully run a poultry business taking care of the chickens, or say, six hatchlings, to say nothing whatever of the larger and better results attained by the use of the Chatham Incubator and Brooder.

If you allow a hen to set, you lose at least eight weeks of laying (three weeks hatching and five weeks taking care of the chickens), or say in the eight weeks she would lay at least three dozen eggs. Let the Chatham Incubator do the hatching, while the hen goes on laying eggs.

Our No. 3 Incubator will hatch as many eggs as twenty set hens and do it better. Now, here is a question for you to consider:

If you keep 20 hens from laying for 8 weeks, how much cash do you lose? If each hen would have laid 10 dozen eggs, and eggs are worth 10 cents per dozen, you lose \$200.

Therefore, when the Chatham Incubator is hatching the number of eggs that twenty hens would hatch, it is really earning in cash for you \$200. Besides producing for your profit, the whole sale, and being ready to do the same thing over again the moment each batch is out.

Don't you think, therefore, that it pays to keep the hens laying, and let the Chatham Incubator do the hatching?

There are many other reasons why the Chatham Incubator and Brooder outclasses the setting hen.

The hen sets when she is ready. The Chatham Incubator is always ready. By planning to take off a batch at the right time, you may have plenty of broilers to sell when broilers are scarce and prices at the top notch. If you depend on the hen, your chicks will grow to broilers just when every other hen's chicks are being marketed, and when the price is not so stiff.

The hen is a careless mother, often leaving her chicks among wet grass, bushes, and in places where rats can confiscate her young.

The Chatham Brooder behaves itself, is a perfect mother and very rarely loses a chick, and is not infested with lice.

Altogether, there is absolutely no reasonable reason for continuing the use of a hen as a hatcher and every reason why you should have a Chatham Incubator and Brooder.

We are making a very special offer, which it will pay you to investigate.

Small Premises Sufficient For Poultry Raising.

Of course, if you have lots of room, so much the better, but many a man and woman are carrying on a successful and profitable poultry business in a small city or town lot. Anyone with a fair sized stable or shed and a small yard can raise poultry profitably.

But to make money quickly you must get away from the old idea of trying to do business with setting hens as hatchers. You must get a Chatham Incubator and Brooder.

To enable everybody to get a fair start in the right way in the poultry business, we make a very special offer, which it is worth your while to investigate.

We can supply you quickly from our distributing warehouses at Calgary, Brandon, Regina, Winnipeg, Chatham, and Detroit, Mich.

THE WOODSTOCK

Woodworking Company,

Green Street, near College School.

The Chatham Incubator and Brooder has created a New Era in Poultry Raising.

The setting Hen as a Hatcher has been proven a Commercial Failure.

The Chatham Incubator and Brooder has always proved a Money Maker.

A Light, Pleasant and Profitable Business for Women

Many women are to-day making an independent living and getting by money every month raising poultry with a Chatham Incubator.

Any woman with a little leisure time at her disposal can, without any previous experience or without a cent of cash, begin the poultry business right from the start.

Perhaps you have a friend who is doing so. If not, we can give you the names of many who started with much misgiving only to be surprised by the ease and rapidity with which the profits came to them.

Of course, success depends on getting a right start. You must begin right. You can never make any considerable money as a poultry raiser with hens as hatchers. You must have a good Incubator and Brooder, but this means in the ordinary way an investment which, perhaps you are not prepared to make just now, and this is just where our special offer comes in.

If you are in earnest, we will set you up in the poultry business with a cent of cash down. If we were not sure that the Chatham Incubator and Brooder is the best and that with it and a reasonable amount of capital on your part you are sure to make money, we would not make the special offer below.

WE WILL SHIP NOW TO YOUR STATION FREIGHT PREPAID

A CHATHAM INCUBATOR and BROODER

You Pay us no Cash Till After 1906 Harvest

IS THIS FAIR?

We know there is money in raising chickens. We know the Chatham Incubator and Brooder has no equal.

We know that with any reasonable effort on your part, you cannot but make money out of the Chatham Incubator and Brooder.

We know that we made a similar offer last year and that in every case the payments were met cheerfully and promptly, and that in many cases money was accompanied by letters expressing satisfaction.

Therefore, we have no hesitation in making this proposition to every honest, earnest man or woman who may wish to add to their yearly profits with a small expenditure of time and money.

This really means that we will set you up in the poultry business so that you can make money right from the start, without asking for a single cent from you until after the harvest.

If you know of a fairer offer, we would make it. Write us a post card with your name and address, and we will send you full particulars, as well as our beautifully illustrated book, "How to make money out of chicks." Write to-day to Chatham.

The market is always good and prices are never low. The demand is always in excess of the supply and at certain times of the year you can practically get any price you care to ask for good broilers. With a Chatham Incubator and Brooder you can start hatching at the right time to bring the chickens to marketable prices when the supply is very low and the prices accordingly high. This you could never do with hens as hatchers.

We know that there is money in the poultry business for every farmer who will go about it right. All you have to do is to get a Chatham Incubator and Brooder and start it. But perhaps you are not prepared just now to spend the money. This is why we make the special offer.

THE CHATHAM INCUBATOR—its success has encouraged many to make more money than they thought possible out of chicks.

Every Farmer Should Raise Poultry

Almost every farmer "keeps hens," but while he knows that there is a certain amount of profit in the business, even when letting it take care of itself, few farmers are aware of how much they are losing every year by not getting into the poultry business in such a way as to make real money out of it.

The setting hen as a hatcher will never be a commercial success. Her business is to lay eggs and she should be kept at it. The only way to raise chicks for profit is to begin right, by installing a Chatham Incubator and Brooder. With such a machine you can begin hatching on a large scale at any time.

You can only get one crop off your fields in a year, but with a Chatham Incubator and Brooder and ordinary attention, you can raise chickens from early spring until winter and have a crop every month. Think of it!

Quite a few farmers have discovered that there is money in the poultry business and have found this branch of farming so profitable that they have installed several Chatham Incubators and Brooders after trying the first.

Perhaps you think that it requires a great deal of time or a great deal of technical knowledge to raise chickens with a Chatham Incubator and Brooder. If so, you are greatly mistaken. Your wife or daughter can attend to the machine and look after the chickens without interfering with their regular household duties.

The market is always good and prices are never low. The demand is always in excess of the supply and at certain times of the year you can practically get any price you care to ask for good broilers. With a Chatham Incubator and Brooder you can start hatching at the right time to bring the chickens to marketable prices when the supply is very low and the prices accordingly high. This you could never do with hens as hatchers.

We know that there is money in the poultry business for every farmer who will go about it right. All you have to do is to get a Chatham Incubator and Brooder and start it. But perhaps you are not prepared just now to spend the money. This is why we make the special offer.
