Women in Our Hospitals

Appalling Increase in the Number of Operations Performed Each year-How women May Avoid them.

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on those snow-white beds women and

a large preportion of the patients lying on those snow-white beds women and girls, either awaiting or recovering from serious perations.

Why should this be the case? Simply because they have neglected themselves. Female troubles are certainly on the increase among the women of this country—they creep upon them unawares, but every one of those patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at left or right of the abdomen, nervous exitaustion, pain in the small of the back, dizziness, flatulency, displacements of the organs or irregularities. All of these symptoms are indications of an unhealthy condition of the female organs, and if not heafted the penalty has to be paid by a dangerous operation. When these symptoms manifest themselves, do not dr. g along until you are obliged to go to the despital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound has saved thousands of women are troubled with irregular, subpressed or painful periods, weakness, displacement or ulceration of the organs, that bearing-down feeling, inflammation, backache, bloating (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, lassitude, excitability, irritability, nervous-

A New Court House.

The people of Carleton County are a proud people and need only to be aroused; and we have aroused them.

They are telling us so every day; they are doing more, they are confessing that their previous want of appreciation was due to their want of knowledge of all that was at stake.

We have opened their eyes from every standpoint. While we appealed to their pride we did not neglect the practical side which appealed to their business instincts.

"If we had known as much as we now know," said a heretofore strong opponent of a new court house to us last week, "if the question had been presented to us as it is now presented a court house would have been built at the time that the gaol was erected."

It is never too late to mend. Now is the appointed time. We speak for the present and bespeak the future. No sensible man will contend that the existing unsatisfactory state of affairs can long continue. Let us anticipate coming need by meeting the present necessity.

Let us not put off until to-morrow what we can do to-day. The hour is ours, the burden is to-morrow; let the honor be also ours.

Do you realize that the yearly tax imposed by a new court house, at the very outside figure, will not amount to as much as a single trip from the town to the court house now costs you, whether business or pleasure takes you there.

Don't fail to read

THE PROPOSITION.

Irrespective of the question of cost, and purely as a matter of local pride, we claim that a court house should be built at once. Yet the question of expenditure cannot be overlooked. We would not be discharging our duty to the public if we attempted to be-little the debt that it entails, or failed to point out the ways and means by which we conceive that it can be met.

We have the land. The site, therefore, involves no outlay; and the situation is, for the purpose, of the choicest kind. A first class building can be erected for \$20,000, but it would be non-producing. One can be built for \$30,000, the rooms on the first floor of which, together with those on the second floor of the registry office building, can be made to net a yearly revenue of at least \$000. This is a conservative estimate. It means ten suites of office rooms (two rooms to a suite) at \$100 per annum We say "net" because \$30 more, per suite, can be charged for the heating, or \$300 a year. This amount will be ample to pay for the heating of the court room in addition to the offices. By this means the heating of the whole building costs the county nothing.

The cost of the building, \$30,000 can be borrowed at 4 per cent making yearly interest charge of \$1200. This will leave a deficit of only \$200 and a janitor's salary. From that deduct the cost of heating the present building for court and council purposes, the cost of keeping the building clean-now done in a most slip-shod manner, the cost of horse hire for sheriff and judge, the cost of conveying prisoners-including team and extra officers required-from the gaol to the court house and back again, the extra allowance on account of the present situation now made to all witnesses in crown cases and which the county has to pay, and you will have reduced the annual burden to be borne by the taxpayer to a minimum; in some years, perhaps, wiped it out altogether.

These figures are not fancy; they appeal alike to the intelligence of the council and the electors.

Special Notice.

their bill for subscription to the SENTINEL must not be annoyed if after re-

peated hints, warnings and scoldings, all unheeded, we become a little more business-like and place their accounts with an attorney at law, for collec-

tion, with added costs. We really do not care to use such a drastic method but it seems as if nothing else can be of any good. Already a large number

of five and six year delinquents are in the hands of our lawyer.

This is a well deserved promotion. W B Howard, a clever and wide-awake young man succeeds Mr Perry at St John. Although everyone will be sorry to have Mr Perry leave this division, all will be glad to learn of his advancement. Last year he came to Woodstock almost a perfect stranger, at the request of the Carnival Committee. He at once set to work in behalf of the undertaking, and through his efforts the affair assumed very successful proportions. Mr Perry is a gentleman in every sense of the term. His successor has a heavy contract to try to please the public as well as Mr Perry, but we believe Mr Howard will rise to the occasion.

Twenty-five years ago it was difficult to sell spring wheat flour for pastry at any price. People didn't want it-they were using soft, winter wheat flour, and saw no reason for changing.

But hard wheat flour was persistently pushed and prejudice has been overcome. The women tried it, succeeded with it and appreciated it .- To-day hard wheat flour is the favorite for pastry as well as for bread.

The flour that is doing the most for the reputation of hard wheat flour is the brand known as

Ogilvie's Royal Household

It is hard wheat flour at its best-milled by modern methods, retaining all of the good of the wheat and none of the badit is without an equal for every kind of baking in which flour is used.
