The Canadian Moving Picture Co., which is conceded to be the best one of its kind on the road has just been secured by the 67th Band to give an entertainment in the Opera House, under their auspices, on Christmas night. This company has just completed a week's engagement in St John and press notices say that they have the most realistic series of pictures ever thrown on a canvas. This will be an entertainment which young and old can equally appreciate and the band members feel assured of a crowded house and a well pleased audience. The band will play some selections during the evening. adv
