PROTECTION.

(Continued from fifth page.)

increasing proportion of the people. During the same period wages increased, whilst cost of living, paupers and crime decreased. But what will astonish our protectionist friends most, is, that contemporaneous with these infallible signs of a progressing civilization, her imports exceeded her exports by \$10,000,000,000.

The debt of the protectionist nations to the people of Great Britain is constantly increasing, yet the few who gain by that fiscal system never cease proclaiming, through their subsidized press and hired advocates, that She (Great Britain) is going to the dogs financially and every other way. The right Hon Mr Chamberlain and his followers believe this, but the facts point in the opposite direction, and fortunately for themselves the people of Great Britain know the facts, judging from the recent election.

This notion that the protectionist Nations are ruining the trade and impoverishing the people of Great Britain would be amusing, were the matter of the destruction of health and increasing indebtedness protection entails, less serious for the farmers and other productive laborers and wage earners in Canada, who like the same classes in other protectionist countries, must pay for this destroyed wealth, interest on the debt, and in the end, the principal of this monumental loan, out of the produce of their farms and hard won wages. For productive labor, that is to say, labor devoted to the production of things that would sell for more than cost of production in the absence of protection, not only produces all wealth, but sustains the value of that which we have already accumulated.

It is the current profits arising from such labor and such labor only, that furnishes the fund from which all the disbursements of the body politic are paid, whether such payments are made for the maintenance of our protected industries, the charitable dole, the return to capital for its use, the wages, keep, fees or emoluments of the non producers, the cost of government, the swag of the thief or the contributions we make to the people of other countries in the form of our protected and bonus fed goods, for less than it costs us to produce them.

To produce at a loss as our protected manufacturers admit they are doing, would check the growth of the public fortune, even if the loss fell on those engaged in such production, but for the government to encourage the unlimited expansion of profitable production (the only kind of production from which any revenue public or private can be obtained) is surely the very quintessence of Governmental folly.

Such folly on the part of governments is the one controllable cause of the increase of those great evils that now menace the civilization of protectionist countries, i.e. the inequalities in the division of wealth, governmental corruption, poverty, and crime.

In these countries where the expansion of unprofitable production is not encouraged at the expense of that which is profitable, (i.e. free trade countries) wealth is becoming diffused amongst an increasing proportion of the people, whilst poverty, crime and governmental corruption is decreasing.

These broad facts should help our government to resist the present and all future attacks of the protected manufacturers on the honest and hard earnings of our wealth producers.

As a civilized government whose premier duty it is to protect the honest and industrious against the attacks of the dishonest and vicious, they should remember that any increase in the protectionist tariff must:

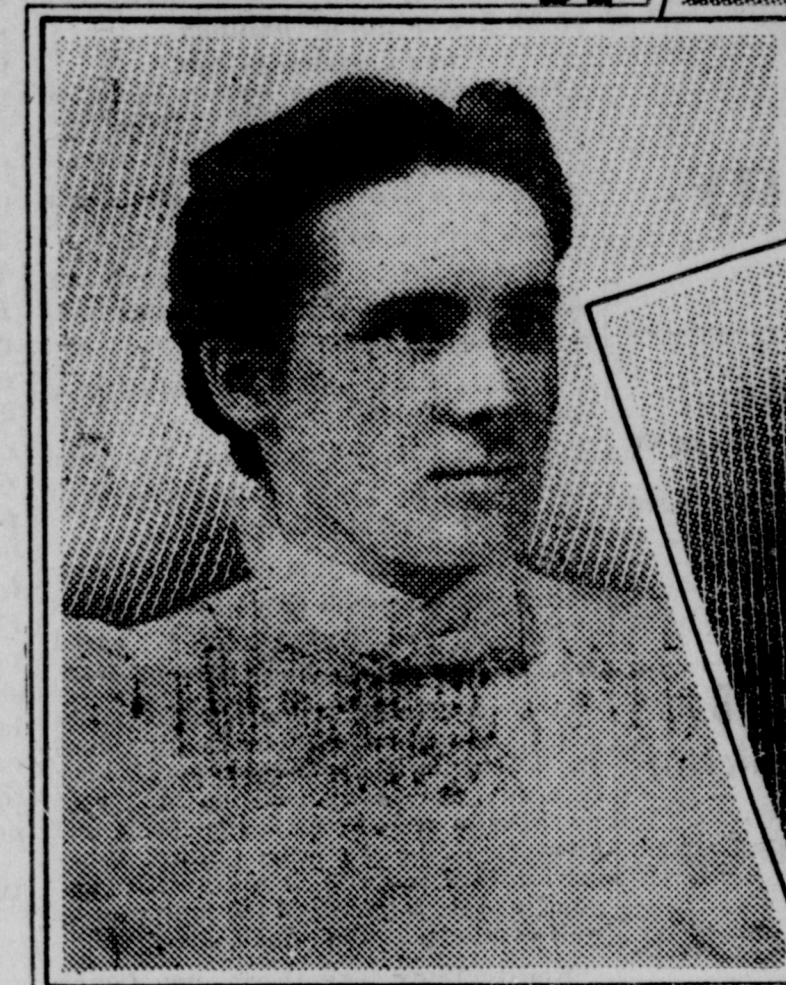

- 1st. Increase the wealth destroying power of the protected industries.
- 2nd. Check the expansion of all industries that would yield a profit in the absence of protection (from the profits of which all the disbursements of the society are paid) by robbing those engaged in such industries of a greater proportion of their earnings than under the already high tariff.
- 3rd. Give an additional impetus to the concentration of wealth, by forcing it out of the hands of those who produce it, into the hands of the tariff beneficiaries.

- 4th. Check the advance in farm land values, which has been so pronounced since the tariff was lowered in 1897.
- 5th. Increase the proportionate number of the poor and criminal.
- 6th. Increase the power of the corruptionists.

Although it is quite true, as any protected manufacturer will maintain, that his finished product would be worth less than cost of production in the absence of protection, yet our own experience proves, that manufacturers as a whole would

PE-RU-NA KEEPS THE FAMILY IN THE BEST OF HEALTH!

This is Only One of
a Million of Homes
in Which Pe-ru-na
Has Been a Blessing.
Read This
Family's Glowing
Testimony.

MRS. H. J. CAMPBELL

Mr. Henry S. Campbell, 1737 S. Williams St., Denver, Col., State Deputy of Modern Woodmen, Montana, and Delegate of Builders Trades Council, writes: "Peruna has been a blessing in our home. My wife was in poor health for several years and nothing but Peruna helped her. She gradually recovered her health and became the mother of a boy which blessed our home. We call Gerald our Peruna boy. He is in the finest of health and his mother has never enjoyed such excellent health. I have personally found Peruna of great value to me while travelling. Getting irregular meals and often poorly prepared food ruined my stomach, but Peruna toned up my digestive organs and brought fine health to me. We are never without Peruna in our home and know by experience that it keeps us all in the best of health."

A RECENT LETTER.

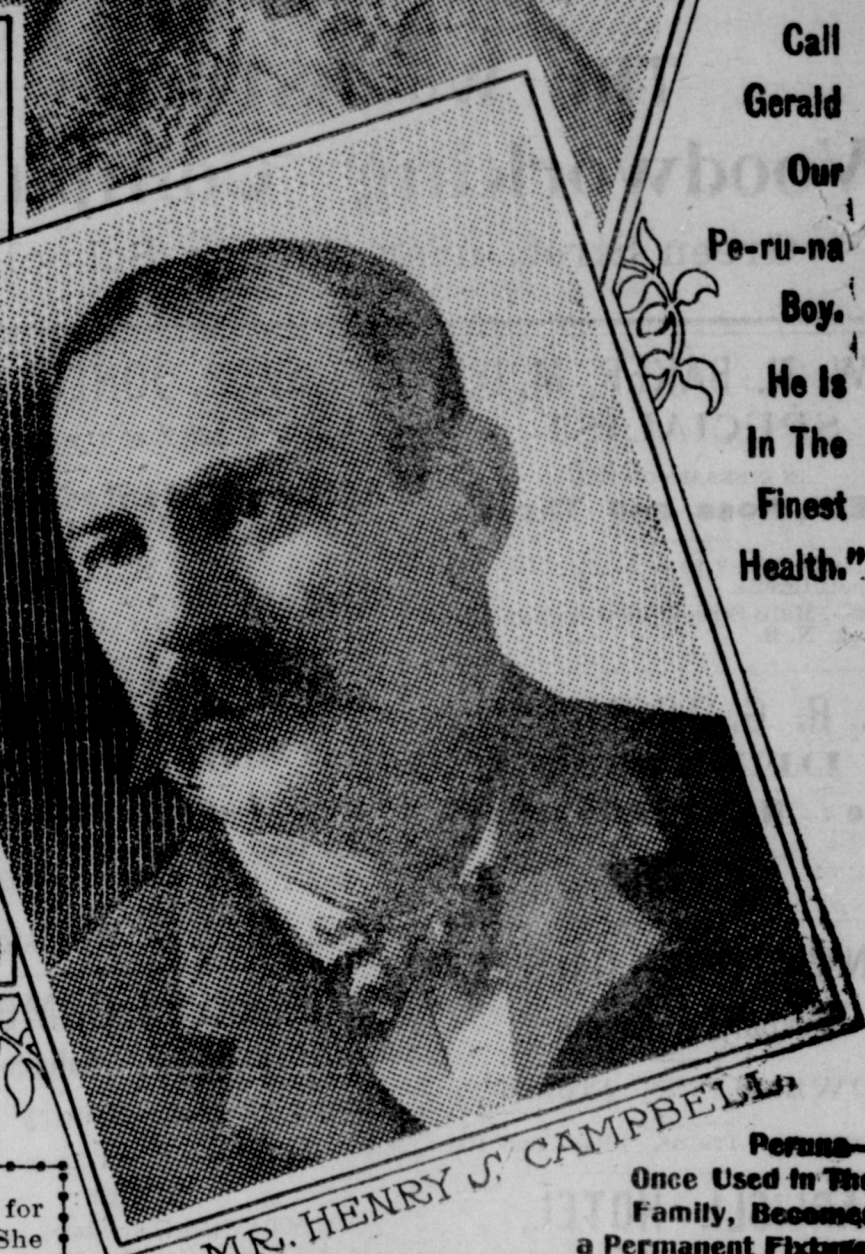

A recent letter received from Mr. and Mrs. Campbell is, as follows:
"We still use Peruna and in addition to our son, Gerald, who is a fat and

saucy lad of 28 months, we have another son, still larger for his age. He is now ten months old and is always healthy. His mother says Peruna has surely made both of our children as healthy as

BABY GERALD

Finest
Health."

MR. HENRY S. CAMPBELL

Peruna—
Once Used in The
Family, Becomes
a Permanent Fixture.

they are, helped, of course by Colorado's healthy air.
"A bottle of Peruna is at all times a welcome visitor to our home."
A multitude of families have discovered that Peruna is their standby. In all the catarrhal ailments which are likely to beset the various members of the family, Peruna is the remedy that brings quick relief.

No matter whether it be a catarrhal condition of the head or lungs, or a derangement of the stomach and bowels, Peruna is the remedy.

gain infinitely more by the cheapened raw material and widened market that a general and radical reduction in the tariff would necessarily involve, than they can ever hope for under the exceptional privileges they now enjoy under the present excessively high tariff.

H. WASHINGTON,
Secretary British Colonial
Free Trade League.

Ottawa, July 10th, 1906.

HOT WEATHER AILMENTS.

At the first sign of illness during the hot weather, give the little ones Baby's Own Tablets or in a few hours the trouble may be beyond cure. Baby's Own Tablets is the best medicine in the world to prevent summer complaints if given occasionally to well children. The prudent mother will not wait till trouble comes—she will keep her children well through an occasional dose of this medicine. Mrs. Edward Clark, McGregor, Ont., says: "My little girl suffered from colic and bowel troubles but Baby's Own Tablets speedily cured her." And the mother has the guarantee of a government analyst that these Tablets contain no opiate or harmful drug. Sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont. Keep the Tablets in the house.
