

For Breakfast Luncheon or Tea

A few small biscuits easily made with Royal Baking Powder. Make them small—as small round as a napkin ring. Mix and bake just before the meal. Serve hot.

Nothing better for a light dessert than these little hot biscuits with butter and honey, marmalade or jam.

You must use Royal Baking Powder to get them right.

At the annual meeting of the Wakefield Parish Sunday School Association held at Wakefield, March 8th, the following resolution was moved and carried which we wish you to publish. "That this association commend the action of the Provincial Government in its legislation that no liquor shall be imported into Scott Act Counties through express companies." Harry Havens, Sec. Treas.

Arrangements are well nigh completed for another series between the Golf Club and the Rifle Bowlers. It is thought the first match will take place Tuesday night at eight o'clock. There is keen rivalry between the two clubs. The Golf Team will be selected from the following players:—Mitchell, Creighton, G. Balmain, Harrison, Calder, H. Drysdale, White, Dickinson, C. Sprague, W. Sprague, Dalling and one or two others. The Rifleman will make one or two changes only. Nine men will play on a side,—same conditions as in the last series,—and the losers to stand the cysters.

Mr. Carvell who is in Ottawa attending to his parliamentary duties expects to be here for a day or about the 31st inst.

Upper Woodstock.

March has been cold and stormy, plenty of snow which will help the farmers out, as they seem to have lots of hauling to do.

We pity the young man who is interested up the road on account of stormy weather and bad roads. Cheer up sonny the storms will soon be over.

Mrs. Lewis Brewer has gone to Middle Simonds to spend a week with friends.

Austin Brown of the Ashland Lumber Co., who has been visiting his mother, has returned to Ashland. Wm. MacCormac arrived on the express last Saturday and spent a few days with his family.

Thomas Ivory was taken sick and removed to the hospital.

Mr. Golding is slowly recovering from his recent illness.

Elmo Connoley, spent Saturday with Miles Burpee.

Miss Myrtle Cowan spent a few days of last week visiting friends at Wakefield.

Mr. Gans lost a valuable cow last week.

We were glad to hear from Pat and Mike, hope they will write again.

HAYSEED.

Jacksontown.

Mrs. William Lindsay, Bloomfield, is visiting her sister, Mrs. W. I. Mar-gison.

We are sorry the meetings conducted by Evangelist Walden have come to a close. Much good has been done.

Our weekly prayer meeting was well attended on Wednesday evening.

BJ Hartt and Percy Robertson left on the 14th for the North West. We wish the boys every success, although they will be much missed.

Allen Everett, Rhode Island, has been spending a few days with his parents. He returned on the 19th, accompanied by Mrs. G. O. Watson, and Maud, who have gone to Bath, Me, for a few weeks.

Glad to report that Miss Bessie Rockwell's health is improved.

Mr and Mrs Wilmet Burt have been visiting friends at Presque Isle.

Some of our young people attended the Smith-Harttt wedding at D. F. Alexander's.

Solomon Kitchen had a slight stroke of paralysis, but is recovering.

Miss Edna London, Jacksonville, spent Saturday evening with F. E. Everett.

Perley Estey, youngest son of Cook Estey, still continues in poor health.

Miss Muriel Alterton is attending our school this winter.

THE TWINS.

Lower Brighton.

I thought a few lines from this place would not be amiss.

We are having a very rough March—high winds and lots of snow, which makes very hard travelling on the roads.

Parties seem to be the order of the day—two last week, one at J. F. Richardson, the latter at Stephen Nixon's. We enjoyed ourselves very much, the evening being spent in games music.

We are glad to see the smiling face of one of our young men, who has been very sick the last few weeks.

"Cheer up girls, Frazer is all right." Joseph Hanlin sr paid a flying visit to Houlton to see his daughter and grandson.

Three of our young men attended the "Missionary Meeting" at Hartland on Monday evening.

Ernest Elkington has gone to Tracy Station to visit friends and relatives. "Never mind girls, Ernie will return soon."

George Tedlie is just rattling the logs into the landing "Henry and Walter are husters" these are the fellows that are doing the work.

Joseph Willett has gone to County Line to work in Mr. Upton's saw mill, he will be greatly missed by some young people.

I wonder what has become of our little bay horse, he must have gone another route probably up that wind log hill "Newburg."

Frank Dickinson is about to leave us, he expects to take a section of the G. T. Railway running through that beautiful village called "Jordan," we wish him success.

Mr and Mrs George Nixon's home is very gloomy over the sickness of their youngest child; he is very bad at this writing.

It has been rumored, that we are about to lose our school teacher Miss Clowes. "Hark do I hear wedding bells or is it only sleigh bells."

Mr and Mrs Wentworth Dow spent Sunday in Hartland visiting her sister, Mrs. Addington Bradley.

Tilly Richardson is about to leave us for Uncle Sam's Territory; he intends to take up farming. May he be successful.

Who got the sucker the night of the party at Stephen Nixon's? Not I Jack!

One of our popular young men driving through this place Sunday evening seemed to have more than his share "Two is company," "Three is a crowd," but the old saying is "Four not allowed."

Our country merchant is doing a hustling business; may he be successful. Why not patronize him?

Well I guess I will stop if these few lines appear in print probably I will write again.

JACKIE.

"With whatever gall thou settest thyself to write, Thy inoffensive satires never bite."

Imagination has almost reached its height here. People can imagine themselves feasting on oysters when such an animal has not made any public appearance for some time.

Others imagine their friends leaving them and departing to foreign lands. Methinks the former must have had a bowl of oysters in common with some beautiful belle and thought himself in the midst of a great throng intent on devouring their stew.

The latter must be approaching that which is dreaded by all in this place, namely marriage. For when a man recognizes but one face in all the world, when he thinks all have departed but himself and one other, then it is that he is not accountable for allowing his imagination to go so far.

February has gone and taken its beautiful weather with it. March has been a lion so far, the worst storm of the season reaching us the twentieth. But soon the sun will drive from off the hills and vales the wintry snows and cause old mother earth to bloom and blossom as the rose.

Mr and Mrs Ernest Hale are rejoicing over the arrival of a young son.

We are glad to know that Joseph Honrihan has decided not to go West this spring.

Our teacher, Miss McLeod, spent Sunday with friends in Woodstock.

Rev O. T. Phillips attends to the spiritual wants of the people here and his services are much appreciated.

We learn that C. W. Betts has sold his colt Roxey for which he got a good price.

A Free Trader's Criticism.

James A. Hobson, an English economist who recently visited Canada, thus criticizes our trade policy in the March Canadian Magazine:

There is no Free Trade party and no strong Free Trade sentiment anywhere in Canada. The Conservative opposition, to which most British colonial manufacturers, merchants, and other business men of the developed parts of Eastern Canada adhere, is definitely, avowedly, and enthusiastically Protectionist, and is far more firmly set upon a high-tariff scheme than at any time since Sir J. Macdonald first introduced his National Policy. As for the Liberal Government, which, under the attractive personality of Sir W. Laurier, holds a large majority of the electorate, and bids fair to possess a long term of power, its old Free Trade professions have evaporated; its chiefs have relegated Free Trade to the position of a distant ideal, and, by substituting low tariff with bounties and preference, have virtually sold themselves to Protection.

When Sir W. Laurier went to the country in 1896 his addresses were full of eloquent Free Trade passages, and his chief lieutenants, Sir R. Cartwright and Mr. Fielding, were pronounced enemies of all Protective legislation. But the visit to England during the Queen's Jubilee, the contact then with Mr. Chamberlain, and the rising tide of Imperialism, coincident with the growing power of the Canadian manufacturers and the demands of increased expenditure on militia and other services, drove Sir Wilfrid along the line of compromise represented by his tariff of 1897.

The preference to Great Britain, while a fulfilment more apparent than real of his pledges for a substantial reduction of tariff, took the wind out of the sails of his Imperialist opponents, while administering a popular rebuff to the United States.

A more astute stroke of party politics has never been devised; but it meant, as is now apparent, the betrayal of the Free Trade future of Canada. Any doubts were soon dispelled by the further concession of the Government to the demand for export bounties on iron and steel.

Though it is still claimed that tariff for revenue is the goal of the Liberal party, conversation with several of its leaders affords me little hope of its attainment.

Canada is going through a long era of Protection, moulded in the usual fashion by industrial greed and political cowardice. Whether the tillers of the soil and workers in mills, mines, stores, and on railroads, who form the immense majority of the population, will have the intelligence and the power to rescue themselves from the coils of this Protective serpent is a great question for the future. It arouses little interest at present. When the work of Canada wakes up they will find that Protection is only one among the several economic fangs fastened in their "corpus vile" by the little group of railroad men, bankers, lumbermen, and manufacturing monopolists who own their country.

We commend the last paragraph in the above article to the careful consideration of the farmers in this country,—the very bone and sinew of the community.

Mr and Mrs J. C. Hartley and Miss Leighton were in St. John this week.

Geo. W. Gibson has carpenters at work building a fine workshop in the rear of his new premises on Main Street.

The Golf Club team to meet the Rifleman will be under the leadership of Capt. Calder who so ably distinguished himself in the previous struggles.

Pitcher Dickinson, signed by Chicago, has been farmed out to Evansville, much against his wishes.

Jack Keech is now the local king with the candlepins. His mark is 138.

Does Your Heart Beat

Yes. 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. And you know precisely what to take for bad blood—Ayer's Sarsaparilla. Doctors have endorsed it for 60 years.

One frequent cause of bad blood is a sluggish liver. This produces constipation. Purgative substances are then absorbed into the blood. Keep the bowels open with Ayer's Pills.

The Magnet ONE PIECE SKIMMER

Is a surprise to all who see it at work. It does the work of separation of the butter fat from the milk at a price and prevents injury to the quality of the butter by removing all dregs and slime. The hollow bowl will not do this, as it has no skimmer inside the bowl and the skimmer and fifth, passes out with the milk and cream. The Magnet also has the bowl supported at the top and bottom, making it impossible for it to get out of balance. Consider well the good points in the construction of The Magnet Cream Separator before buying, as it will save you a lot of trouble later. The best way to buy a Separator is to test it at your own home, and we know if you want comfort and satisfaction you will choose The Magnet every time. Such testimonials as Mr. C. F. McCready's show the superiority of The Magnet over the worm-gear and suspended bowl machines.

TESTIMONIAL:

Sackville, N. B., March 15th, 1906.
THE PERM MFG. CO.,
SAINT JOHN, N. B.
Gentlemen,—After a thorough trial of your "Magnet" Separator we bought it for our use. It is all others, because it is made in Canada, and the square gearing and the two supports to the bowl are a great improvement over the worm-gear and suspended bowl machines. It runs very steady and is very easy to turn and wash.

The Sharps Tabular was familiar to us and we could have bought it for less money, but we prefer the "Magnet" which is giving perfect satisfaction.

Yours truly,
C. F. McCREADY,
Dairy Manager,
Senator Wood's Farm,
Sackville, N. B.

Note in the long letter placed in the Dispatch by a rival separator firm. The writer of the letter admits that a certain Separator was awarded the preference by the Judge. If the word Magnet was used instead of the word certain it would read better. The fact of the whole matter is The Magnet did get the preference, as admitted, in spite of a lot of beating around the bush. We are glad that the rival agent found out that the Magnet was on exhibition at Fredericton in 1903, as the writer of the letter did not know, although he was secretary of the exhibition.

Aroostook Farm for Sale.

I have lately bought and offer for sale what is known as the **William McNeal Farm**, and will say that the same must be sold at once. This consists of Eighty Acres of excellent land, with large, new and expensive buildings on the same, within three miles of Caribou Village. This is one of the best Potato Farms for the size in Aroostook County. It will certainly pay those who are looking for a farm of this size to come and look this over before they buy elsewhere. Remember that this must be sold at once, and if you wish to buy write or inquire of me at once.
