Girlhood and Scott's Emulsion are linked together.

The girl who takes **Scott's Emulsion** has plenty of rich, red blood; she is plump, active and energetic.

The reason is that at a period when a girl's digestion is weak, **Scott's Emulsion** provides her with powerful nourishment in easily digested form.

It is a food that builds and keeps up a girl's strength.

Specimens of Tory Blundering.

The Conservatives have claimed as their own idea, about everything advanced in recent years as Liberal policy but audacity reached its acme, when they charge the Liberal Government with neglect to appeal the Canadian Pacific taxation cases.

Who was it gave to the Canadian Pacific Railway Company 25,000,000 acres of land for nothing? The Conservatives.

Who was it gave the Canadian Pacific Railway Company \$25,000,000 of cash as a bonus for nothing? The Conservatives.

Who was it gave the Canadian Pacific Railway Company all the road already built by the Dominion at a cost of many millions of the hard earned money of the people for nothing? The Conservatives.

Who was it agreed to complete that portion of the road already under contract, and give it to the Canadian Pacific Railway Company for nothing? The Conservatives.

Who was it agreed that no other road should be built parallel to the Canadian Pacific Railway Company for years, thus ensuring to the Conservatives who controlled it a monopoly at the expense of the Northwest settler? The Conservatives.

Who was it inserted in the Canadian Pacific charter, a clause exempting the company from payment of taxes for all time to come, at the expense of the settlers in the North west? The Conservatives.

Who is it now finding fault with the Liberal Government because the Canadian Pacific Railway Company is exempt from the payment of taxes? The Conservative press in its gross ignorance of Canadian history, or its vicious attempt to place on the shoulders of the Liberal Government the results of its own asinine policy.

The time has passed when the people will believe one side or the story until the other has been told. There has been such flagrant misrepresentation in the Tory press, of which the foregoing is a fair sample that the injury resulting is greatly minimized. When one reflects that the bottom dropped out of the scandals which were brought up in the House one by one, and that the Conservative press pinned its faith to them jointly and severally, it is not remarkable that the recent Liberal endorsements are not even alluded to by the opponents of the Government.

What respect can the people have for a party that can see extravagance in the purchase of a few dozen of ginger ale, and yet votes for an expenditure of \$30,000,000 of public money with scarcely an inquiry as to the purpose for which the money is required?—Transcript.

With his right hand almost burned off, and in a partially dazed condition, Mr John J. Everson, manager of the St John and Boston Tripolite Company's works at Dry Lake started to walk to the city for assistance Tuesday morning after his house at the lake had been burned down and he himself had been badly injured. He arrived at the city hospital on Tuesday morning about eight o'clock, having been able to complete his journey in by means of a friendly milk team, whose assistance was most timely, as he had become greatly weakened. His hand is badly charred and will probably have to be

amputated this afternoon at a point above the joint of the wrist.

Mr Everson, who is an American hailing from Boston, is manager of the company which was recently formed to exploit a deposit, located at Dry Lake, of the earth used for the manufacture of the stove lead of commerce and other polishes. For some time he has been experimenting with the substance in a house erected for the purpose at the lake. He has been living there alone. Part of the apparatus which he used consisted of a large furnace situated in the house. Upstairs he had a sleeping room. Early Tuesday morning he was awakened by the cold and went down stairs to attend to his fire. As he was feeding fuel into the furnace his right hand became jammed in the door. Try as he would he could not extricate it for some time and in the period before he finally wrenched it free the member was slowly cooked. His sufferings were as acute as those of any stake-burned martyr, and may be better imagined than described.

As to the sequence of events his mind is not very clear, but he is under the impression that the house caught fire and burned to the ground. His first impulse was to go for the assistance which he needed so badly. He started to make the nine-mile walk to the city, and after he had gone two miles had the good fortune to meet a milk man, with whom he continued his journey.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliant smile like the bloom from a peach which is rarely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nerve nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.
