The Election.

Our Fredericton conservative contemporary is proclaiming from the housetops the alleged intelligence that we are to have the local elections this fall. The Gleaner knows, or should know, that it is deceiving its readers, for all talk of an election this fall is based on rumor of the most indefinite kind. Its other statement, that Hon Mr Pugsley is to throw his great political support in favor of the Robinson government, is absolutely correct. The Minister of Public Works last session made the whole of the Opposition look very cheap in the House, and will find pleasure in materially assisting to defeat them at the polls. Hon Mr Pugsley is a power in Canadian politics. Behind the gloved hand are muscles of steel, which will bring weeping and wailing to the Hazen party.
